TEAPOT DOME LEASE IS HELD FRAUDULENT

Government Wins Sweeping Victory When Appellate Court Reverses the Wyoming District Court. St. Louis, Sept. 28.—The United States Circuit Court of Appeals today reversed and remanded the decision of the district court at Cheyenne, Wyo., upholding the Teapot Dome oil lease obtained by Harry F. Sinclair and associates from the government.

While Albert B. Fall was secretary of the interior, the appellate court's decision is sweeping in effect and instructs the lower court immediately to cancel the Mammoth Oil Company's lease and enjoin it from further trespassing on government lands.

The opinion was received from William S. Kenyon, of Fort Dodge, Ia., presiding judge of the appellate court. The decision declares the Sinclair lease to have been fraudulent. The lower court is instructed to ask the Mammoth Oil Company for an accounting of all oil and petroleum products taken from the government's naval oil reserve during its tenure.

CARD OF THANKS.

Concord, N. C., Sept. 28, 1926. Dear Friends: We want to thank you for your kindness, service and sympathy through the sickness and death in our family. We especially want to thank...

The appellate court, in its decision—a 65-page document—reverses Judge T. Blake Kennedy, who held in district court at Cheyenne in June, 1925, that the government's allegation of fraud had not been proved. He rejected the government's annulment suit and left the Mammoth Oil Company in possession of Teapot Dome.
