Greatest Crowd In History Of Fair Present Thursday With Attendance Of 29,000

INFIELD AND RACE TRACK
USED FOR PARKING AREAS

First Time in History of Fair That This Was Necessary to Care for Hundreds of Autos Driven to the Grounds by Visitors From Cabarrus and Adjoining

ATTENDANCE SWELLED AS SUN SHONE THROUGH DAY

For First Time in History of South, It Is Believed, 23 Horses Were Entered in Single Race—Mule and Motorcycle Races Were Added Attractions for the

"Perhaps the biggest day, certainly the biggest day and night in the history of the fair."

Thus did one official of the Cabarrus County fair describe the attendance Thursday, Cabarrus County Day. It was impossible, said the official, to get the attendance figures Thursday night but it is known that the 27,000 mark was passed and some among the vast throng, after trying for hours to get through the milling masses, estimated the attendance at more

E, in charge of the parking areas within the grounds, was looking for more space. Car after car was systematically parked within the vast spaces of the grounds, but the incoming throngs were yelling for room and new areas had to be opened for them.

them.

At flight when the fireworks and free acts were over there was a double line of cars moving for hours through the exit gates and and it took some persons an hour to get from the grounds to the business section of the city. There was no disorder or unnecessary congestion. It was just a case of more autos than road space and the vehicles of necessity had to move showly.

order or unnecessary congestion. It was just a case of more autos than road space and the vehicles of necessity had to move slowly.

The sun at 7 o'clock Thursday morning was respendent, yet at 8 o'clock it was hid again by threatening clouds. This condition continued until 11 o'clock when again the sun broke through the rapidity dispressing couls not to be dimmed again during the day and at that hour the greatifie of humanity started moving on grounds.

Taxis, private cars, dilapidated according to the grounds were partially filled with pedestrians who refused to allow lack of mode of trainsportation to keep them at home.

Most of the business houses in the city closed at 12 o'clock for the day, and employes in them field without delay to the grounds to see the races and free acts which had been delayed half an hour for their benefit. At 1:15 the ticket sellers at the grand stand had closed for the day and not even an "S. R. O." sign was hung there for all standing room as well as seats had been occupied.

Over the fences aurounding the race track hung the erowd, determined not to miss a trick of the long and interesting program provided for them. Shouts of approval rolled high as the free acts were staged and swelling eries of the interested race goer marked the termination of each heat in the races.

A bit of the tragic was added to the "Ground and East" Today, New York, Oct, 15.—(4)—Aurora

Attendance Here Broken Thursday

Officials of the Cabarrus County Fair today were try-ing to check Thursday's at-tendance. The task had not been completed at noon but enough had been done to bring the statement that the crowd "was the biggest in

rowd "was the biggest in the history of the fair."

"It will be late today at the earliest before we can tell anything definite about the crowd here yesterday."

Dr. Spencer stated. "We do know, however, that it was the biggest in the history of the fair and we estimate the state of the state of the fair and we estimate the state of th tory of the fair and we esti-mate it numbered between 27,000 and 30,000.

"For the first time in history we had to park cars on-

tory we had to park cars on the race track and in the in-field last night."

Dr. Spencer said Thurs-day was one day that went to suit him. "Many persons have told me of their pleas-ure and I think we certainly put the fair to them."

that he was not hurt. He drove his horse in the next heat of the 2:25 pace.

H. H. Huggins, of Florence, S. C. owner of "Wiley," was greeted with wild acclaim when he brought in the bridleess horse after pacing him twice around the track. Mr. Huggins was in the race and soon started in pursuit of the driverless horse when he saw thatchel leave his cart. He managed the affair as only an experienced horseman could have done, and by his skill prevented any accident. The conseman could have done, and by his skill prevented any accident. The conseman could have done, and horses entered in the two events and each carted well his part of the program.

The free for all," with 23 starters, is said to layse been the only race of its kind on a southern track. A cash prize was given to every entrand the track.

A mule race and a motocycle race were added to the race program, while the theusends watched the races and free acts ofter thousand stayed on the midway and in the exhibit halls. In fact a trip to the midway during the race program, aboved no less attendance there, and most to suffocation as the visitor crowded into them and all exhibite and livestock were carefully examined.

The crowd from auroconding and adjoining countries broke all grevien recoved and into them and all exhibite and livestock were carefully examined.
