COUNTRY CORRESPONDENCE

Mr. Shelton had recently moved his family here from South Carolina. He is survived by a wife and three children, his mother and several brothers and sisters. His wife before marriage was Miss Bessie Shinn, of this place. The family has our heartfelt sympathy.

The Community Club will meet at the schoolhouse on Tuesday night, November 23rd at 7:30. A Thanksgiving program will be rendered. C. F. Ritchie, of Concord, will be with us on this date. Tuesday night, November 23rd, at 7:30 o'clock. All are invited.

School has been in session here for almost two weeks with a very good attendance. Everything seems to be moving along nicely. Joe Jenkins, of Stanfield, is our efficient principal. These were lighted by Misses Ethel Petrea and Myrtle Furr. At a late hour the guests departed for their homes wishing Miss Petrea many more such happy birthday anniversaries.

FAITH.

Mrs. T. D. Barber and J. C. Barber motored out to Faith. Mr. P. C. at the wheel, in his fine car. They were accompanied by Mr. and Mrs. J. L. Jacobs, who visited at Mr. and Mrs. L. M. Peeler's. J. C. Barber took Venus for a little spin in his car.

We went around a horseshoe circle of several miles, by Granite Quarry and down towards Gold Hill and back by the Nazareth Orphan's Home.

When Faith was incorporated B. A. Raney was the first mayor and J. T. Wyatt the first town clerk. Faith has between five and six hundred inhabitants and a great many fine gran-

ite quarries all about in the town and the surrounding settlement. Granite Quarry is also on the granite belt. The granite is of the very best quality and is used for street curbing and paving blocks, for different cities all over the United States. Cars are loaded at Crescent siding, and at Rockwell and Granite Quarry. The granite is so hard and sharp that it is also used to make millstones to grind corn and wheat and paint and to grind gold ore and other hard substances, and it makes beautiful monuments like the one erected on the public square at Newton, N. C. by J. T. Wyatt and his partner B. A. Feeperman. It is in memory of some men who were killed by the Indians when they lived in this country. The people along on the granite belt nearly all make their living by working in the granite quarries.

Hundreds of car loads of granite are shipped to all parts of the country year. This brings many thousands of dollars in the settlement. The people go to Salisbury and buy their goods and groceries and that is a great help to Salisbury, which is the county seat of Rowan county. Book stores and two eating places and one barber shop and two garages and three churches—Reformed, Lutheran and Baptist. J. T. Wyatt is the oldest man living in Faith, and is looked upon as the father of the town, because he made the first car load shipment of granite that was ever shipped from this place. That was the beginning of the granite industry here, which is getting larger and better every year.

People come here from other countries to make their homes and they are doing well working in the quarries. Our climate is mild and the people can work in the quarries all the year round except when there is snow or rain. The granite works here will last for many generations to come.

Mrs. Blake baked him a fine pound cake with 23 little pink candles on it. Mr. Blake was not at home when the crowd came. He was at his work at the Yaddin Hotel. After he came home and found it out he went back to the hotel and brought a crowd of good looking young ladies. We all had a jolly old time together.
