50 DAYS TAKEN OF FIFTY SCHOOL CHILDREN HERE

Taking of X-ray Pictures of School Children of City to Be Completed Today—Starts in Kannapolis Friday... Fifty school children of Concord had X-ray pictures made of them Wednesday as part of the X-ray examinations that the county health department is now conducting to complete the examination of the school children which was started during the tuberculosis clinic... Each of the fifty children had two pictures made and when they are developed they will be read at the State Sanatorium and within a short time the result of the reading will be sent to the parents... The examination with the X-ray pictures will be made for the next few days on the children whose physical examination showed that they should have the X-ray pictures made at once... The X-ray pictures are being taken by Dr. P. P. McCain, superintendent of State Sanatorium; J. F. Simpson, technician, also of State Sanatorium, and Dr. S. E. Buchanan, county health officer... PLANS FOR PET AND HOBBY SHOW COMPLETED... Largest and Best Show of Pets and Hobbies Will Be Held at Y. M. C. A. Friday Night... FRASES CONDUCT OF CHILDREN AT HOSPITAL... Dr. P. R. County Agent Goodman Working to Put in Self Feeders and Keep Record on Food Consumed and Weight Gained... Interest to the farmers of the county who raise hogs will be the announcement made today by County Agent D. R. Goodman, who said that it was his object to build a self feeder for hogs in each community of the county where there is interest being shown in the feeding of hogs... Agent Goodman will assist in the building of self feeder today on the farm of R. A. Alexander, near Rocky River, he announced this morning. The feeder that was built today will be one of several that will be built within the near future, Agent Goodman said... "After the feeder is built on Mr. Alexander's farm, a record kept as to the amount of feed consumed in order to tell what weight is made by feeding. A number of farmers are interested in feeding out their hogs owing to a low price of corn," Agent Goodman said... "The self feeder that we are building is designed as a labor saving device in which feed is kept at all times to which the hogs have access all the time. This is very necessary owing to a hog having a small stomach necessitating filling often to make rapid gain..." "The feeder should have three separate compartments. In these should be kept shelled corn, milk feed, and tankage or fish meal. Fresh water should be given them daily," he said... The Rhodes Scholarship... The annual election of Rhodes scholars was held Saturday in 32 states of the union... The scholars elected will enter Oxford in October, 1927. There were 872 candidates for the 32 scholarships... Rhodes scholars are chosen on the threefold basis of intellectual ability and attainments, qualities of character, including public spirit and leadership, and interest in many outdoor sports. An appointment carries approximately \$1,044, a year for three years for study at Oxford University. No restriction is placed on a Rhodes scholar's choice of studies... For the 32 scholarships available in the United States this year there were 872 candidates. One student is chosen from each state... A water power and paper and pulp development in Alaska, the ultimate cost of which will be nearly \$50,000,000 and which will provide employment for from 3,000 to 4,000 men, is under consideration by a group of San Francisco capitalists... Although tobogganing as a sport is of Canadian origin, it was in Canada that the first toboggan slides were constructed.

ELKE LODGE HERE TO RE-OPEN ON SATURDAY... Plans Perfected by Which Lodge Will Resume Full Activities on December 18th... Concord Lodge 857, Benevolent and Protective Order of Elks, will resume full activities on Saturday, December 18th, a prominent member of the lodge stated this morning... The lodge will occupy the same quarters over the Times-Tribune office and its lodge work will be resumed in full at once... The new organization is practically completed, the member said in discussing the matter, and all members have been in good standing when the club rooms were closed several weeks ago will enjoy the same status under the new organization... The charter of the lodge was not surrendered, it was stated, so the new organization will operate under the same charter and same plan as heretofore... District Deputy Fuller, of Durham, was in Concord several days ago and succeeded in perfecting an organization which will re-open the quarters to the members this week... Rotary Club Holds Weekly Luncheon... The Rotary Club of Concord held its regular weekly luncheon Wednesday at Hotel Concord... The program was in charge of F. C. Niblock and G. W. Patterson. Dr. T. N. Spencer, secretary of the Chamber of Commerce, spoke to the Rotarians on the milk ordinance which will go into effect January 1, 1927. He told of the different grades of milk and that each bottle of milk sold in Concord would have the grade of milk it contained stamped on the side. He also spoke of the proposed extension of the Piedmont & Northern line railway... Squambluzza Slept on Top of Train... At midnight, on the Frankfort-Hamburg express, a girl, 9-year-old, got out of her berth. She climbed up on the roof of the car. There she slept. When the train reached Hambluzza a brakeman brought her down, chilly, but well-rested, returned her to her mother. The older woman apologized. Unfortunately, most unfortunate—not surprising. Her daughter was a squambluzza... In addition to his numerous other titles, WILLIAM F. THOMAS, 2nd, the celebrated American tennis star, has held the championship of New Zealand, which he won in 1925.
