A Few Eggs Cost a Lot. A Lot of Eggs Cost Little It doesn't cost the chicken raisers who are feeding their hens Purina Poultry Chow one single penny more to get eggs. It actually costs less when you feed Purina chow. That's because it costs a lot to get just a few eggs. Poor layers eat almost as much feed as heavy layers—only they don't pay you back. The only kind of feed that costs little is the feed that makes lots of eggs when egg prices are high. The Purina will do the making the hens lay. CASH FEED STORE PHONE 122

Davidson Receives \$100,000; Donor's Name Not Disclosed Davidson, Dec. 15.—President W. J. Martin, of Davidson College, tonight announced that the college has received a gift of \$100,000 within the last few days. Dr. Martin was not a liberty to disclose the benefactor since the latter desired that his identity be unknown now and for all time. "This is the most generous gift of an individual in the history of Davidson," Dr. Martin added, "except the Maxwell Chambers legacy in 1854 and J. B. Duke's recent gift of a share in his endowment." The gift was made for primary purpose of assisting in the completion of the Chambers building. The old structure, known as "the heart of Davidson," was destroyed in 1921. Rebuilding Burned Structure Following the fire which swept the Chambers building in November, 1921, a campaign was soon started to rebuild it. By the fall of 1925 one section of the proposed new Chambers was completed and occupied for the first time. It represented an expenditure of \$200,000. Original plans called for \$400,000 for the new administration structure, but enlargement of them indicated that final completion would require a total of \$600,000. Before the present south wing was completed, classes were held in temporary buildings, and other structures inadequate to proper work but necessary under the stringent circumstances.
