SMALL COST OF ICE

According to the U. S. Department of Labor, the average expenditure of a family is \$2250.00 ice is but 1.2 per cent of this amount.

With the cost of ice so trifling, why consider an expensive ice machine ("a kitchen luxury") when for an equal amount or less, one may purchase many, many articles that are really needed by the family or that add to the general attractiveness of the home.

AN ELECTRIC ICE MACHINE USES

as much electricity a month as any one of these groups:

- 50 electric fans
36 electric toasters
36 electric percolators
32 electric waffle irons
32 electric washing machines
29 electric vacuum cleaners
11 electric irons
4 electric ranges

A BLOCK OF ICE CANNOT GET OUT OF ORDER. THEREFORE DOES NOT NEED THE SERVICE OF A \$15.00 PER DAY MECHANIC TO MAKE REPAIRS. SURELY YOU WILL DECIDE IN FAVOR OF ICE.
