decorations been seen for an occasion that such closet for that purpose, exploded with a bang not unlike that of a machine gun. Intense excitement prevailed until the cause of the noise was showers to get a look at the aviators, every appearance of whom evolves shouts which were the seed of the noise was shouts where the seed of the noise was shouts which were the seed of appearance of whom evoked which could be heard blocks

Uncertain About Future.
Berlin, June 8.—(P)—Clarence
Chamberlin reiterated this afternoon
that he had not decided on his future

Bitterness Shown In Caldwell Hoad Fight.

Lenoir, June 7.—The meeting called here Monday for the discussion of the proposed \$50,000 road bond issue by W. L. Neal, member of the Caldwell county board of comimssioners, brought out a bigger display of bitterness, animosity, and personal feeling than anything else.

It developed into more than a fight aghinst the issuance of these bonds. It was a fight against the Caldwell plans.
"An American consortium has of-fered me \$100,000 if I would fly back to the United States," he said, "but naturally I can only begin to think about it now."

Teachers at Davidson.

Davidson, N. C., June 8.—Fifty high school instructors are now attending a six weeks teachers' course at Davidson College, which is being conducted by two professors of that institution, L. B. Henderson and W. L. Potter, Classes are being given in geocogy, industrial and human geography, sociology, and the principals of teaching and educational psychology.

It developed into more than against the issuance of these bonds. It was a fight against the Caldwell county road commission. The News-Topic also came in for a flaying. It was charged with being subsidized and withholding important county news, and with misrepresentations.

Graft Charge Hearing to Resuma June 28th.

(By International News Service)
Raleigh, June 8.—The continuation of Attorney General Dennis G. Brummitt's hearing into allegations of graft in the administration of the State sanitary privy law will be made on June 28th, it was learned here to-day.

June 20th, it was received day.

The hearing started on May 12th, ran for a week and then was recessed until May 31st, but the presense of many sanitary inspectors in the Mississippi food district necessitated postponement of the hearing until after the middle of June.

Home Brew Had Great "Odor."
Nashville, Tenn., June 7.—A smelter termed by old timers as "great." pervaded the federal building offices immediately next to the prohibition enforcement squad's department, when a quantity of howe brew, stored in a closet for that purpose, exploded with a bing not unlike that of a maching un. Intense excitement prevailed mill the cause of the noise was learned.

L'pon investigation, however, the trouble was located in the closet, which was filled with broken glass and with the "real stuff" dripping from the walls. Only one bottle remained unbroken.

Bobby Jones One Stroke Behind.
Atlanta, June 7.—Robert Tyre
Jones, Jr., better known as "Bobby."
American and British open golf
champion, completed the difficult
Emory university freshman law course
today just one stroke behind the
leader and thereby added another
medal to his collection.

Jones led his class during the first
semester, but A. Dana Brown, of St,
Petersburg, Fla., forged ahead in the
last term to win first honors.

Need Only To Be Mined Right

Rich Gold Deposits in State

The Tribune Bureau Sir Walter Hotel
By J. C. BASKERVILL
Raleigh, June 8.—Gold deposits with clay and ore much richer than the majority in Alaska have been in North Carolina for years and gone unworked, when all that is needed to make them pay is the right kind of organization and management.

This was the opinion today of J. H. Bryson, state geologist, after examining the latest report of the United States department of commerce on gold mining operations in Alaska and the mass of data presented relating to these operations. In Alaska, the majority of the p.acer deposits yield but from 40 cents to 50 cents a ton in gold, and the richest deposits only \$1.28 a ton. The average yield for all types of deposits and mines is but 75 cents a ton. Yet during 1926. Alaska produced \$3,608,500 worth of gold, indicating that its mining must be profitable even where the "pay dirt" does not run more than 40 cents THE AVIATORS

Daily the 18st of honors which the proud United States is conferring upon her 25-year old lone eagle is growing, and the latest was the award of the Hubbard medal of the National Geographic Society, which has been bestowed only seven times to the great explorers of the air, sea and land. Washington will be entirelly devoted next Saturday to the honoring of the New York to Paris flier. Government offices, banks, stores and business houses all will close at noon, so that workers can join in the dense throng of admirers of the youthful aviator when he sets foot again on his native soil at the Navy Yard. It also will be a gay desplendent city, for every building, it is planned, will be bedecked with flags and busting.

Doesn't Want Trust Fund.

In Three States Rivers Are Again Rising as Result of Recent Heavy Rains.

New Orleans, June 8.—(P)—Rising

New Orleans, June 8.—(P)—Rising waters in sections of Arkansas, Missouri, and Illinois drove hundreds of persons to the levees and refugee camps today.

Disaster relief headquarters of the American Red Cross was informed that 1,100 persons are in the refugee camp at Marianna, Ark., and that refugees were pouring out of the St. Francis valley in the vicinity of Forest City. More than 1,000 families were expected to be affected by the mew rise, although field workers were unable yet to predict the dimensions of the new disaster.

A six-inch rise was registered in the bottom lands of the St. Francis basin yesterday. The waters were rising higher today.

Union county, Illinois, was reported virtually evacuated. Live stock and other property has been moved from the danger zone but no refugee.

from the danger zone, but no refugee camps have been established. Most of the persons have fled to the homes of elatives and friends in the hills,

A seven and one-half-inch rise was reported from Blytheville, Ark., where gardens planted by the Red Cross to grow food supplies are rapidly going under water.
