## Rewards Of \$2,500 Are Offered For Slayer Of Greenville, S. C., Sheriff

Greenville, June 12.—Rewards aggregating \$2,500 have been offered by the city, county and state for the capture, dead or alive, of the unknown man who shot and killed Sheriff Sam exact nature of the warning from some unknown party, and midnight last night just after he had driven his car into his garage at his home on East Stone avenue, this city, but thus far no arrests have been made.

Armed posses continue to scoue revery section of the county today for the assassin but nothing has been given out by the officers to indicate that they have any very definite clues. Blood hounds were brought from Pickens last night but lost the trail at a point about one block from the sheriff's home where the assailant is believed to have boarded a motor vehicle, probably a truck.

The belief has grown today that the sheriff was slain because of recent activities against the illicit whisky traffic in Greenville county.

## Washington Impressed By Personality of Lindbergh

Washington, June 12.—Lindbergh's visit to the national capital has made history in more ways than one.

Under a blistering sun people who usually look boredly upon a parade from a nicely sheltered window were spotted yesterday "trying to make" all of the high spots in the performance. They tried to see Lindbergh come out of the Navy Yard, then beat the procession to the Capitol grounds, then rushed to the monument grounds and then took their places before the temporary White House. At each of these points they wanted to get another look at the young aviator.

Then again at night there were two receptions where Lindbergh might be seen and toward midnight many a bedraggied one tottered homeward tired, but happy. There were nearly a hundred heat prostrations during the day, but it was a case of the survival of the fittest and the most determined.

Appreciation of young Lindbergh's personality, marvelous to say, was sharply evinced among the classes of people most exposed to celebrities and celebrations. The White House dining the many a bedraggied one tottered knomeward tired, but happy. There were nearly a hundred heat prostrations during the day, but it was a case of the survival of the fittest and the most determined.

Appreciation of young Lindbergh's movements about the city was notable. In Du Pont Circle, where the falthful watchers were the safety of the fittest and the most determined.

HISTORIANS FOR COUNTIES NAMED

Suggestion of State Historical Commission Meets Popular Favor:
Raleigh News and Observer.
The idea of a "county historian for each county in North Carolina," suggested in a recent letter from the North Carolina Historical Commission requesting the Board of Education in each county to make the appointment, has been received favorably in the State.

Local and daily papers have given the project wide publicity and, in many cases, editorial indorsement. County superintendents, local historical agencies, and interested laymen have given their support to the p'an. Already county historians have been appointed by the boards of education in nine counties, and others are under consideration.

THE PRIZE-WINNING NAME FOR Brunswick's Newest

# Musical Achievement

You have never heard an instrument like this before. It embodies an ab-solutely new principle of sound repro-duction that guarantees naturalness and beauty of tone. Just hear the PRISMATONE once, and

you'll wonder how every single sound—from the merest whisper to the crash of the brasses in an orchestra—can be so lifelike. Prismatone reproduction means ar

exact duplicate of the artists' effort, plus a softness of tone the like of which has never been heard before.

Let us demonstrate—at this shop or in the privacy of your home. There is no obligation, of course; but once you hear the Prismatone you'll want it—with all its endless entertainment.

### Brunswick "Light-Ray" Records

Here is musical photography, an entirely new principle of electrical recording. In Brunswick "Light-Ray" Records you have a naturalness and beauty of tone that is truly amazing and they can be played on any typo of reproducing instrument.
