#### LINDBERGH TO RETURN TO WASHINGTON TODAY

Air Hero Will Be Introduced to Air Officials of Army and Navy at the Capital.

St. Louis, June 21.—Aviation called from two sources today to Colonel Charles A. Lindbergh.

While the noted trans-Atlantic flyer listened to plans for the development of commercial aviation by a group of St. Louis business men, he also made preparations for taking off tomorrow in an army airplane for Washington, where he has been summoned to meet with high government officials of the army, navy and commerce departments.

In his flight back east, Colonel Lindbergh will use a plane assigned to him by Major Thomas Lanphier, of Selfridge field.

The famous flyer does not believe that it will be necessary for him to remain long in the national capital and he expects to return here as soon as possible to resume his work for the advancement of aviation. Just how this work will be carried out, he has not yet decided.

Colonel Lindbergh today informed a committee of St. Louis business men, which has offered him the presidency of a proposed airplane manufacturing company, that only the virtual command of the government could prevent him remaining permanently in this city.

Battling Nelson was essentially a finish fighter. Part of his campaign was to permit himself to get hit. There are few fighters of today who have taken as much real punishment in their entire careers as the Battling Dane did in his 42-round fight with Joe Gans in Goldfield.

#### PLANTING GOES FORWARD IN THE FLOOD DISTRICT

With Hazard of Second Flood Fading, Tennessee Farmers are Busy Now. Memphis, Tenn., June 22.—(INS)—With the hazard of the second flood this year now fading and the great Mississippi and its tributaries receding rapidly, planting is going forward in all sections of the Mississippi valley while rehabilitation work is still in progress.

A "stay at home" program has been adopted by farmers throughout the valley and late gardens, feed crops and corn are being planted in thousands of acres that heretofore have always been planted in cotton. Farm leaders declare that the flood in the Mississippi valley has done more to aid the diversification plan than could ever have been accomplished otherwise.

Secretary of Commerce Hoover, through the various Red Cross camps, has assured the entire valley's population that flood control is a national problem and will be worked out by the United States government and no further floods will drive them from their homes. Planters are optimistic throughout the valley and planting is going forward with great speed, some farmers even working by lantern light after the sun has gone down and by the light of the moon.

The Panama Canal is due south of Pittsburgh, Pa.

Jones Will Defend British Open Title at Saint Andrews.  
Atlanta, June 21.—The Atlanta Constitution says that Bobby Jones will defend his British open golf title at St. Andrews next month provided he can complete the necessary arrangements.  
The former American amateur and open champion, who recently lost the latter crown to Tommy Armour, Washington professional, at Oakmont, previously had announced definitely that he would not return to England this summer to defend the British championship, but the newspaper says he has reconsidered this decision and probably will cable his intentions tomorrow so that his formal entry will be in by July 1, the closing date for the lists.
