"John Adams." "Correct." "Then there was a pause. "He's doing well," whispered a friend of the lawyer. "Why don't you keep on?" "I ain't sure who was third President myself."

Black Is Leading Shade This Summer

Stay away from "tricky" novelties in color. It's the style advice given to women by Bettina Bedwell, fashion authority, in an article in this week's Liberty. "Experts in chic," she says, "cut out the fancy gowns on fashion's menu, and order the classic 'Black and'—well, almost any combination."

"Most of us who some time or other succumb to brilliant novelties in clothes have accumulated an inferiority complex because of some woman who looked entirely 'right' in a simple black or other sober costume, while our own made us feel as bizarre as a circus parade," the writer continues. "Black is the shade this season. Not only that, but at those strictly private advance autumn style shows I am now seeing in Paris, black looks like a winning 'dark horse' for winter. One thing is sure, you cannot be wrong if you wear black this summer and for early fall. Black is smart in almost every kind of fabric."

It is now twenty-eight years since Sir Thomas Lipton made his first attempt to lift the America Cup.

Lincoln Lacking Blushing Brides For Gentle June. Lincoln, June 21.—Glad wedding bells and the orange blossoms are taboo in Lincoln county during the gentle month of June, if the records of H. E. Sigmon, county register of deeds, are an indication. Today the veteran official, entrusted with issuing all marriage licenses in Lincoln, recalled with apprehension that 21 days of the month had passed with nary a couple to apply for a wedding permit. "This talk about 'June the month of brides' is all wet," commented the official. "Twenty-one days and not a single bride."
