Democrat never said that it was the "best speech we have heard yet." "Peking Jim," Col. James E. Boyd, may be truthfully called the "Baron Munchausen" of North Carolina. For his speech here proved it. The falsifications he heaped upon the Democrats would have even brought blushes of shame to the cheeks of Jonathan Swift.

Next Tuesday morning before you go to the polls ask your mother, your sister, your wife, your daughter, your sweetheart (as the case may be) "shall I today vote for white man, or negro rule in North Carolina?" Do as they say. Did you ever notice or think of the fact that over nine tenths of the white preachers and white respectable ladies of North Carolina were Democrats.

Yours truly, SETH ROLLINS.

READ AND THINK.

Prepare your ballots, gentlemen. Away with Morton, boodie and all! Blaze the way for Fowle and Holt. Braye the danger and save the Democracy.

If you want lower taxes, vote the Democratic ticket.

Away with high taxes, says the Democratic party!

If you want better times vote the Democratic ticket.

If you want the war tariff reduced vote the Democratic ticket.

If you want better wages, working-men, vote the Democratic ticket.

If you want more money in circulation vote the Democratic ticket.

If you want to break up "trusts" and monopolies, vote the Democratic ticket.

If you want to see white men rule this country, vote the Democratic ticket.

If you want to lighten the burden of farmers, vote the Democratic ticket.

Democrats, let no grass grow under your feet between now and the 7th of November.

If you want an economical administration of our public affairs vote the Democratic ticket.

Let us march to the polls on election day in one solid phalanx, if we wish to bury "Radikalism."

The outlook for the Democrats at this time is simply brilliant. And it grows brighter every day. Hurrah, boys, we've got 'em on the run!

If you want to see peace and prosperity shine all over the land, from every hill and dale, vote the Democratic ticket.

If you want to protect your sacred firesides and wives and blue-eyed children against the "torch and thudger," vote the Democratic ticket. Greensboro Patriot.

Remember that when the Republicans had control of this State the last time, taxes were 80 cents on the hundred dollars worth of property, and now under Democratic rule taxes are only 20 cents on the hundred dollars worth of property—now which is the poor man's friend? Echo answers which.

When the "court house bell rang" the "Roxboro brass band" didn't "play" it was drunken negroes blowing and making a terrible fuss on second class brass horns, while a few white "bosses" stood "uncovered" and wondering "what a dust we negroes raise."

I would hate to be in our court room when there was 1,300 in it composed of "Peking Jim," the few white Rads of Person and the rest negroes. Not only would the windows have to be raised but the roof would have to be removed for any one to get fresh air. The court room will not seat over 800 at the outside, and it was not over two thirds full on that day. All the huzzas for Mr. Boyd come from negroes only.

Mr. Boyd did not enter the court room accompanied by "usny prominent gentlemen." He was only accompanied by Capt. J. T. Strayhorn.

As to his speech it was a very slim weak affair for a man of his intelligence, and I think every white man present became disgusted at his false and insignificant assertions and at the whacks upon the negro bass drum whenever anything was said in denunciation of the Democratic party. N

When their husbands are not around and give them a good hug. They all like it. Our experience with female rebels is that with all their sins they have a vast amount of human nature, and only want to have it, appreciated to be the most loving creatures imaginable. Scalawags and carpet baggers don't fail, therefore, as you canvass the State to look after the women."

You, white men, who have mothers, sisters, wives and daughters; you young men who have mothers, sisters and sweethearts, can you suffer this contemptible party to get in power again?

Next Tuesday morning before you go to the polls ask your mother, your sister, your wife, your daughter, your sweetheart (as the case may be) "shall I today vote for white man, or negro rule in North Carolina?" Do as they say. Did you ever notice or think of the fact that over nine tenths of the white preachers and white respectable ladies of North Carolina were Democrats.

It is rumored that when "Don" White the Chairman of the Republican Executive Committee of the 5th District arrived in Roxboro with his five hundred dollars of "boodle" corruption money he wended his way to the Register of Deeds office and there he and Samuel P. Satterfield locked themselves in for several hours and any citizen of the county who might have had business in that office would have had to wait until Sam could "fix" the "boodle." If however he was as successful in manipulating the corruptive fund, as he is said to have been in manipulating the old colored man, Purnell Peed's Pension then his co-workers, in iniquity will come out at the "little end of the horn." It is rumored that the old colored man received a check for about four hundred and fifty dollars for his back pension, and that Samuel P. Satterfield "fixed" the matter up for him, and when Sam got through "fixing" the old colored man very innocently remarked that he had thought he was the pensioner but he had just realized the fact that Mr. Samuel P. Satterfield was the pensioner and that he (the old man) was merely a witness to the transactions, that he had heard that witness were required.

ELIOT LIES EVEN PROTECTIONIST A few evenings ago while looking over the mail I found an article in the Greensboro North Star from Roxboro dated October 15th, giving an account of Col. Boyd's speech, delivered in Roxboro on the 13th. He is the letter: "It was rumored that distinguished orator and Republican Elector at Large for North Carolina, Col. James E. Boyd, of Greensboro, would address the people of Person county on Saturday, Oct. 13, at 12 m. Just at that hour the court house bell rang and the Roxboro Brass Band began to play. "The court house, which has the capacity to hold 1,200 people, was at once packed with the hard fisted yeomanry of Person county, with an expression of anxiety beaming on their countenances. Promptly the distinguished James E. Boyd, whose name is a household word in Person, accompanied by many prominent gentlemen, entered the court room amid applause and huzzas for Boyd.

"When the excitement had subsided, Capt. J. T. Strayhorn, Elector for this Congressional District, introduced Col. Boyd in a very neat speech. Calls for Boyd, Boyd, went up when his manly form mounted the rostrum. So on an unusual silence prevailed. The audience expected something better than usual. Just at this moment we noticed the entrance of several distinguished gentlemen: T. R. Glenn, Hon. C. S. Winstead, Hon. W. F. Reade, G. G. Moore, Col. A. J. Hester and J. A. Long.

"Col. Boyd, in a two hours' speech, held this vast crowd with such marked attention as was never witnessed here before. It is useless for me to attempt to give even a synopsis of this great speech. He completely counteracted the effect of all the Democratic speeches made here. The issues were carefully reviewed and points fully explained. On the whole, it was the most convincing speech that your correspondent has had the pleasure of listening to for years.

"It was remarkable to hear the crowd after the speaking. O. d. reliable Democrats said, 'that is the best speech we have had yet.' "When Col. Boyd closed you never heard as many warm congratulations, such as, "Boyd, this was a fine speech," "Boyd, that was the grandest effort of your life," etc. Truly, without any exaggeration, this was a grand day for Person county, and all hands—Democrats and Republicans—enjoyed the speech. We hope to have him with us again before the election. Come, Boyd, you shall have a warm welcome. ELI."

When the "court house bell rang" the "Roxboro brass band" didn't "play" it was drunken negroes blowing and making a terrible fuss on second class brass horns, while a few white "bosses" stood "uncovered" and wondering "what a dust we negroes raise."

Seth's Last.

This brings the only opportunity that I will have before the election I wish to say a few things in the interest of and for the Democratic party, i. e. if you see proper to give me space in your columns.

WHAT ARE THEY DOING? I first appeal to the white men of Person county to look and see what the Republican candidates are doing in this county to obtain victory.

They have been and are doing this: They are slyly using malicious falsehoods, plenty of free corn juice and a drunken (half of the time) negro band to serenade the town at nights and to lend a nose to the public at certain public speaking.

Not only this but the negroes are and have been abusing the white people of this county. Oh! yes, they say, "we don't want to rule," "we are not in favor of civil rights," &c. These assertions are simply and emphatically "not so's," and the negroes and white R-publicans even in this county know it.

Experience of facts have proven this not to be so. What did Fred Douglas, a negro Senator, do? He married a white (and God save the word) woman in the District of Columbia. There are but few negroes in this county but what would demand social equality with our fair and lovely white sex if allowed by our true and noble woman and genuine Personian sons.

Where the negroes have the power they show and demand their rights and claim the reigns of government.

If we white men lag back and give way to the soft head, white rat Independent Radicals the next thing will be the negroes will rise up and say to the Independents: "This is a Republican county, we've been supporting you and now you must support us, therefore get out for we are going to have the offices."

The white R-publicans that are leading the negroes say "we don't want the color line drawn," "don't call us the negro party." You don't, eh! want the color line drawn? But when it is done by the negroes with Green Gons, instructed by a white Republican, in the lead, Seth appeals to the true white men and advises them to dance to the music. Be one of the two, a white man or a negro. "Don't call us the negro party." If you don't want to be termed as such get out of that party WHO LEADS THEM?

No one can doubt that S. P. Satterfield counsels the negroes to "stand firmly together and vote the straight Radical ticket," "don't scratch nothing, poke it in straight," and the negroes have heeded his advice and will present an unbroken front at the polls on election day. In defiance of these facts he has the audacity to beg white men to scratch the Democratic ticket, to follow his lead and vote with the negroes. I am not surprised that he should be commissioned to muster and drill the negro forces but it is surprising, exasperating and outrageous that he should tell the negroes to "stand firmly together and vote the straight Radical ticket," and then turn to white men and try to induce them to scratch the Democratic ticket and vote for him, to follow his lead and vote with the negroes. Nay more to twit white men with the charge that they are slaves of the Democratic party and afraid to vote their convictions.

Can there be any longer a doubt in the minds of white men as to where S. P. Satterfield stands! It is true he is not a candidate for the general assembly but he is doing all in his power to solidify the negro votes, in the county, and to organize the negro forces to outvote the whites. He is as truly the leader and representative of the negro party in Person county as though he was the candidate for legislature on that ticket, and his personal friends who are thinking of giving him a vote are in fact heeding his advice and taking their places in the negro procession.

I appeal to the white men of Person county by that sympathy which constitutes the band of union between honorable men struggling in the cause of freedom to throttle this viper of negroism by voting against the Radical candidates who are yelling and screaming with delight at the prospect of its fastening its fangs into us forever.

There about 1,700 white men and about 1,100 negroes registered in Person county. Which shall rule the county? the 1,700 white men or the 1,100 negroes? Which do you prefer? If white men fail to be white men the negroes will finally "lick the platter clean."

Enough up in this point, though I could write for hours upon the subject, but for fear of crowding your space I will pass on to a few remarks of Republican rule in North Carolina, the "DARK DAYS" of 1868-69.

That legislature contained members as black as the darkness of Hades, some of them were men who had just received their liberty from slavery and probably who had never been from home over 10 miles before.

In these years of darkness and vituperation a scoundrel by the name of Kirk, of Tennessee, played as a prominent character upon the political rostrum, to the degradation of the white people of North Carolina.

When the Northern carpet baggers and scalawags were invading this State the Raleigh Standard, a Republican paper, in 1868 advised them thus: "But wherever else you work don't forget to go among the women. Go after the women then. And don't hesitate to throw your arms around their necks now and then

When their husbands are not around and give them a good hug. They all like it. Our experience with female rebels is that with all their sins they have a vast amount of human nature, and only want to have it, appreciated to be the most loving creatures imaginable. Scalawags and carpet baggers don't fail, therefore, as you canvass the State to look after the women."

You, white men, who have mothers, sisters, wives and daughters; you young men who have mothers, sisters and sweethearts, can you suffer this contemptible party to get in power again?

Next Tuesday morning before you go to the polls ask your mother, your sister, your wife, your daughter, your sweetheart (as the case may be) "shall I today vote for white man, or negro rule in North Carolina?" Do as they say. Did you ever notice or think of the fact that over nine tenths of the white preachers and white respectable ladies of North Carolina were Democrats.

Our Last.

With this issue we close our work for this campaign, ere another Co. taken appears the election will be over and somebody will be beaten and somebody will be elected. As far as this county is concerned we have good reasons to believe that the entire Democrat ticket will be elected.

For two months past we have worked as best we knew how for the interest of the Democratic party, believing as we do in its principles, we have endeavored to explain them to the people of Person county, and now await the verdict of the people.

We are confident that if the good and influential men of this county will look closely after the registration books, in each township, and see to it that every Democrat is on that book, and then go to the polls on next Tuesday and see that every one votes, we will have an overwhelming victory. Now friends can't you do this, oh, won't you do it? It is to your interest and welfare, just think for one moment of the dark days in North Carolina in 1868, 69, some of the same Republicans that were running the party then are running it to day, can you trust them again, not a thousand times no!

We have given two months of our time, working to keep them out of power, now can't you give two or three days to help the Democratic party to success.

Our candidates for the Legislature, Messrs. J. A. Long, and J. T. Yancey have made an excellent canvass in this county, they have shown the Republican party up in its true light on every stump, and proven to the people conclusively that the Democratic party was the party of the people, and for the people, and their arguments in no instance has been met by a single Republican. The Republican party in this county is looking to carry this county for that party by the use and influence of whiskey and falsehoods, and that alone. Democrats, and men of Person county, has it come to such a pass that politicians can come to your county and say "give me enough whiskey and campaign lies and I will give a majority to our party?" I can't believe it to be true; but that is what the leaders of the Republican party in this county are saying and doing. We do not ask you to take our word for it, but watch them for yourselves and see if it is not true. Democrats go to work as you have never worked before and help us bury Radicalism now and forever. If we all work till sun down next Tuesday, victory will crown our efforts. The prospect for the success of our National and State tickets were never brighter. Do you want to have a hand in over-throwing Radicalism, corruption and fraud, if so, join us next Tuesday and work for the success of the entire Democratic ticket. We hope to meet you next week with a broad grin of success.

We have heard some Republican orators warning the people of this county to vote against the Democrats, for they say if the Democrats get control of the government this time they will pass the Mills bill, which will lower wages all over this country. That is perfectly absurd, especially in this county, where there is no manufacturing industries. They refer you to Alamance county where there are several large cotton factories and says if the Mill's bill becomes a law these factories will have to shut down, to see the falsity of their argument just read the following article taken from the Alamance Gleaner:

When any one says that the Mills Bill or any measure proposed or advocated by the Democratic party will lower wages or have a tendency to lower wages, he does not know what he is talking about or he is willfully misrepresenting. The people of this county and of this section are in no way benefited by a high tariff. Free trade is an impossible absurdity. Revenue must be raised for the government. Not one single thing grown or manufactured in Alamance county is protected by the tariff. The goods made here are made cheaper than any where in the world. Neither they, nor any like them to take their place, are made as cheap in this world as right here, nor are they sold any where in the world as cheap. The man who says otherwise is ignorant or unmindful of the truth—he is practicing a deception either purposefully or because he knows no better.

Col. Morehead is in favor of the Mills bill which does away with the odiousness of the Internal Revenue laws; and abolishes store keepers and it takes the tax entirely off of tobacco. Mr. Brower says although he voted for the Mills bill he is now opposed to it and is in favor of the Senate substitute—see article on the outside of this paper entitled, The Republicans and the Internal Revenue. Now do you want relief from this infernal Revenue law, if so then then vote for Col. J. M. Morehead for Congress.

If you want to keep your taxes down, vote for Long, Hughes and Yancey.

Vote the straight Democratic ticket next Tuesday and to the long-sat day of your life you will be proud of it.

Democrats stand to the front on next Tuesday and lets bury Radicalism so deep in this county that there will be no resurrection for it.

If you want cheaper clothing, cheaper farming implements and cheaper every thing you need to live on, vote for Col. James M. Morehead for Congress.

Morehead is in favor of lower taxes, cheaper necessities of life, cheaper farming implements. Mr. Brower is in favor of higher taxes on the necessities of life, now which will you take?

Farmers, heed this warning ere it is too late. The Republicans claim to be the friend of the farmers and working people of this country, but their actions speak louder and stronger than their words and free whiskey. Below we print what Mr. Thomas C. Platt, a leading Republican, of New York, said was the plan by which his party proposed to carry this election. It shows very plainly what the Republican leaders think of the farmers. Read, think and cast your vote next Tuesday according:

"Our farmers are easily fooled—have no effective organization—no trust in each other, and will remain the victims of politicians. We must cajole some and purchase others. We have the names of 1,000 protectionist manufacturers, each of whom has agreed to contribute \$1,000 to carry the presidential election of 1888, and shall not lack funds to purchase the farmers' vote."

This cold-blooded statement of the master manipulator of Republican schemes in New York indicates exactly the general method that has been pursued in the presidential contest. We don't believe the farmers of the country can be bought up that way—they are a better class of people than that. But, say friends, can you trust a party that speaks of buying your principle as it is it was only a bushel of corn or wheat? we think not.
