

Person County Courier.

ROXBORO, N. C., April, 18, 1889.

RELIGIOUS SERVICES.

METHODIST. I will preach each month according to the following appointments: Raleigh—First Sunday at 11 a. m., and 7 p. m. ...

BAPTIST. Epiphany—1st Sunday, and Saturday before. ...

—Court adjourned yesterday evening. —Mr. Walter Bradsher, of Parishes's Warehouse, Durham, was in town this week.

—Mr. John A. Baird, Sr., was foreman of the Grand Jury, and made an excellent one. —Our people, so far as we have been able to learn, have been very favorably impressed with Judge Blynum.

—Mr. Obe Carver, of Durham, was shaking hands with his many friends in Roxboro the first of the week. —Mr. E. R. Betts, of the Banner Warehouse, Danville, Va., gave us a pleasant call while at Court this week.

—The smallest crowd in town last Tuesday that was ever seen here Tuesday of Court; but guess it was owing to the bad weather. —Last Tuesday the Bar met and passed resolutions of respect to the memory of the late Mr. Jas. F. Terry. Resolutions will appear in our next issue.

—Peculiar in medical merit and wonderful cures—Hood's Sarsaparilla. Now is the time to take it, for now it will do the most good. —Mr. Tyre Glenn, of Yalton county, has been appointed by President Harrison Marshall for this district, in place of Col. Dave Settle. The appointment is said to be a good one.

—Mr. W. E. White, of Mehane, N. C., was in town this week, representing the Pine Island Guano. He has an ad. in this paper, be sure and read the testimonials he publishes. —Mr. W. M. Faulkner informed us this week that there were about 100 hands at work on the Lynchburg & Durham railroad near Harmony, Va., and also another squad between there and South Boston.

—We were glad to have a call from Mr. S. B. Coleman last Tuesday. He was here representing the Farmers' Alliance Warehouse of Durham, and said they were doing the best possible for the farmer. —Messrs. W. T. Daniel and J. C. Masten, of Oxford, were in town the first of the week. Their many friends were glad to welcome them back, and also to hear that they are succeeding quite well in their new home at Oxford.

—Mr. Joe Lunsford, who represents the New Johnson Warehouse, at Oxford, gave us a call last Tuesday, and said the New Johnson was just fairly a booming. He reported all grades selling well. See their ad. in another column. —From nearly every section of the county comes the news of destructive forest fires which were raging in the different sections last week. The damage to old fields and timbers was very great in some localities. Our townsman Mr. H. C. Barnett, lost a lot of fine fire wood which he had cut and stacked up, besides considerable damage to his old fields.

—Mrs. Fortune rarely comes along. If you have caught cold be careful to quickly relieve that pain, be it external or internal. Warner's Log Cabin Extract is the best, safest, most reliable remedy for internal and external use. Two sizes. Price \$1.

—Our thanks are extended Mr. Eugene G. Harrell, Secretary of the North Carolina Teachers' Assembly, for a complimentary certificate of membership in the Assembly. The Sixth Annual Session will be held in the Teachers' Assembly Building, at Morehead City, N. C., June 18th to July 2nd, 1889, and Hon. Z. B. Vance is expected to deliver the opening address. The Atlantic Hotel will furnish board to all members of the Assembly at only \$1.00 per day during the session.

—We extend our thanks to the Committee of Invitations, of the Guilford Battle ground Celebration, for an invitation to be present at the anniversary exercises, to be held May 4th.

—Whitaker & Hulm will sell you marble work, Tombstones, &c., 10 per cent. cheaper than you can get them anywhere else. Marble works at Durham and Oxford. Prompt attention given to orders. Address to either place. Bring this notice with other dealers published prices, and save money. WHITAKER & HULM. Durham, N. C.

At the Convention called for last Saturday evening to nominate a ticket for Mayor and Town Commissioners, Mr. A. R. Foushee was called to the chair, and John A. Noell requested to act as Secretary. After the object of the meeting had been stated by Mr. J. S. Merritt, the following ticket was nominated: For Mayor, W. H. Williams; Town Commissioners, S. B. Winstead, W. E. Webb, S. P. Satterfield, R. A. Pass, and John A. Noell; Town Constable, George T. Burch.

Person Superior Court. Court was opened at half past 2 o'clock Monday evening, Judge Blynum presiding. He failed to arrive before noon. The fault, he said, in his charge to the Grand Jury, was on account of the failure of the road overseers to put up sign-boards at the cross roads, consequently he got lost and was delayed several hours.

His Honor's charge to the Grand Jury was plain and practical, and in regard to the condition of the public roads in the county, was very emphatic. The State Docket was quite large, but composed mostly of cases of little interest. The following were sentenced to the Penitentiary: Logan Meadows, white, larceny 5 years; John Lanier, white, larceny 1 year; John Farrar, colored, larceny 4 years; Bob Satterfield, colored, forgery, 2 years.

The Civil Docket was called Wednesday morning. All cases of any interest were either continued or referred. Court adjourned Wednesday evening. The following visiting lawyers were present: John W. Graham and Solicitor Strayhorn, of Hillsboro; George N. Thompson, of Leasburg; J. A. Long, of Graham; A. W. Graham, of Oxford; L. M. Warles, of Milton; R. B. Boone and J. J. Lunsford, of Durham; and C. S. Winstead, N. Lunsford, J. S. Merritt, W. W. Kitchin and J. T. Strayhorn of the home bar.

Danville, Durham, Oxford and Henderson tobacco markets were represented. Owing to the disagreeable weather the usually large business done in horse trading was cut down to a very small scale. The Patent medicine men and the Brethren of the Press were also very scarce.

Roxboro's Railroads. Below we copy a short article from the Charlotte Chronicle, in which Roxboro gets a good send off. The Chronicle says: "By Christmas of '89 Person county, hitherto without a mile of railroad, will have two lines. One is the Atlantic & Danville, running from Danville to Norfolk. This cuts the northwest corner of Person. The other is the Lynchburg & Durham, running from Lynchburg with Savannah as its prospective terminus. This almost divides the county of Person, and in a few days will have nearly 1,000 hands at work in this county.

The certain prospects of a railroad has infused new life into the people. Never before was there such a failure in tobacco as there was last year, but in spite of this, tobacco warehouses are going up in Roxboro. New, elegant residences are being built; the streets widened, and Roxboro has started on to become the queen town of the bright tobacco section of middle Carolina. Investments at Roxboro will most surely pay."

PINE ISLAND. Dr. W. W. Cozart, of Granville county, sold at the Centre Warehouse on April 12th 1889, three lots of Tobacco made with "PINE ISLAND GUANO" at the following prices: One Lot at 68 cents per pound; One Lot at 55 cents per pound; One Lot at One Dollar per pound; an average of \$82.50 per hundred. Who can beat it?

The finest crop of Tobacco grown in Granville county made by "PINE ISLAND." A word to the wise is sufficient.

WHOSE heart is full, his mouth runneth over. Whoever has used Warner's Log Cabin PLASTER has his heart filled with gratitude and he proclaims to the world its superiority to all other plasters. Try it. Cheapest and best.

Died. At the home of her nephew, Mr. L. P. Frederick, in Person county, on the 6th day of March, 1889, Miss Martha B. Walton, aged 84 years. She was a consistent member of Lee's Chapel M. E. Church about 50 years, being, perhaps, its oldest member. She leaves many relatives and friends to mourn her loss. Truly a good woman has gone, we believe, to join her friends in the Glory Land.

Mrs. Annie P. Riley, wife of T. J. Riley, died near Caldwell Institute, Orange county, N. C., on the 13th inst., in her 33rd year, leaving her little infant one month old. Mrs. Riley was taken ill in the night and did not live many hours. She was a consistent member of Berry's Grove church. Mrs. Riley was the grand-daughter of Aunt Janette Wilson, and both were buried at Little River at the same time. It was touching to the hearts of all that beheld the scene; it being a circumstance that perhaps never witnessed before—grandmother and granddaughter both lying corpses side by side. Mrs. Edney Hall must have a very trying time, having lost her mother and daughter both the same day. She was standing by her mother's death bed when the messenger came to tell her of her daughter's death. She has our heartfelt sympathy, but she should not forget that the Lord promises that all things shall work together for good to those that love him.

Died at the residence of Thomas H. Wilson, in Little River township, near Caldwell Institute, Orange co., on the 13th inst. Aunt Janette Wilson aged about eighty years, and two months. Aunt Janette had been lingering for three or four years with old age. She bore her sufferings with a christian-like faith, and passed away quietly. She was a member of Little River Presbyterian church. Thos. H. Wilson and wife will be rewarded in Heaven, and deserve much credit for the care and kindness which they showed their mother during her illness, in administering to her wants until she was called to the home above. May her many friends and relatives through faith in Christ be enabled to bear the last of their departed friend, for the Lord giveth and the Lord taketh away, blessed be the name of the Lord.

—My friends will please take notice that I have moved to the new shop recently built by Pass and Critcher Bros., where I will be pleased to serve them in future. Thanking you for your patronage in the past and hoping a continuance of the same in the future. I am Very Respectfully, THOS. COLEMAN.

North Carolina a Grand Domain.

And the Old North State is a grand domain—rich in its broad acres, rich in its timbers and minerals, rich in its water powers and waterways, and blessed with a thousand advantages denied to other sections. She is to-day working gold mines in thirty-one counties and silver mines in five others. She mines and markets seven-eighths of the mica used in the United States. She supplies this country with the emery of commerce. She has 112 varieties of native timber which are usable and marketable. She has 170 varieties of minerals. She has water power estimated at 3,000,000 horse power. She can grow any grass, fruit or vegetable known to the United States. She has an honest, conservative administration, a low death rate, a high standard of morality, and in no State in the Union is the law more respected or more closely obeyed. She has the coal and iron and timber to invite manufacturers—the climate and soil which promise the best reward to the farmer. So much for the State at large.—M. Quad, in Detroit Free Press

Beware of Ointments for Catarrh that Contain Mercury. Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine, it is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co.

Sold by Druggists, price 75c. per bottle. You can buy goods about low enough now, at A. R. Foushee's Cheap Cash Store.

Education in Person County.

The article in last week's COURIER, written by Rev. J. E. Underwood, on education in Person, is worthy of the careful perusal of every parent in the county. More such articles will do good. Ignorance is well nigh inexorable in this age of progress and thought. The community which does not take an interest in education al matters will ere long find that it has made a fatal mistake. The man who is too miserly to spend a few dollars upon the mental training of his children will, perhaps, live to see those children "chewers of wood and drawers of water," instead of an ornament and blessing to their community. The man who would endeavor to estimate the value of an education in dollars and cents is narrow-minded, and devoid of those noble impulses and lofty sentiments which should characterize "God's noblest handiwork." The only means by which to insure an education to the children of Person is by patronizing the private schools of the county, as the public school system of our State cannot be relied upon in this important matter. We wish to make no unjust fling at free-schools and free-school teachers, they do some good where the people are too poor to send their children to school otherwise, yet the very idea of a man who is able to send his children to school ten months in the year relying upon a two months free-school is absurd and contemptible. No man who loves his children as he should will be found guilty of such gross negligence. We doubt not but that our present free-school system has done harm in many localities by giving many stogy parents an excuse for not sending to a subscription school. Farmers of Person, you cannot afford to allow your children to grow up in ignorance, simply because you think you cannot spare their labor from the farm without making a little sacrifice. If necessary, make the sacrifice, and your children in after years will bless you for your names for having so done. The farming class have been imposed upon more than any other class, and have had less influence in public matters than any other class in proportion to their numbers. Why? It can be accounted for only from the fact of their having less education than any other class. Everyone admits that the farmers are a noble class of men. They constitute the backbone and sinew of our commonwealth, and are the true supporters of mankind. They constitute that great conservative class of citizens who insure prosperity, for some time at least, to our free institutions. There is no class of men who are more willing to respond to the calls of their country in time of need,—leave their homes, and go forth in battle and spill their blood in the defense of right. The farmers, on the whole, are the best-hearted, truest and bravest of our citizens, yet why is it that their wishes have so often been ignored in the past, and even ruthlessly trampled underfoot? The reason can be given in one word, ignorance. They have been ignorant of their rights and privileges, and have not education enough to formulate laws best adapted to their business. Resolve then to give your children the most thorough education you possibly can under existing circumstances. Remember that your young boys will in a few years be entrusted with all the rights, powers and privileges of American citizenship. How can they vote intelligently unless they have some education? How can the most sanguine patriot expect a good government to continue to exist when the average voter is so deplorably ignorant. What Person needs today above all things is more education among the masses of her people. That will do them more good than the reduction of indirect taxes, and more good than even a railroad. Those others, of course, are very important, but not to be compared in importance to having first-class schools throughout the county. It does no good to theorize in regard to this matter. All admit that an education is a sine qua non, yet how few are willing to go to any expense to obtain it for their children! Your children will remain ignorant unless there are schools for them to attend, and there certainly will never be good schools unless you will offer inducements sufficient to justify competent teachers in taking charge of them. Let the people of Person wake up in regard to this grand subject, and resolve to do better in the future than they have in the past. M. C. THOMAS, JR.

A Scrap of Paper Saves Her Life. It was just an ordinary scrap of wrapping paper, but it saved her life. She was in the last stages of consumption, told by physicians that she was incurable and could only live a short time; she weighed less than seventy pounds. On a piece of wrapping paper she read of Dr. King's New Discovery, and got a sample bottle; it helped her more, bought another and grew better fast, continued its use and is now strong, healthy, rosy, plump, weighing 140 pounds. For fuller particulars send stamp to W. H. Cole, Druggist, Fort Smith. Trial bottles of this wonderful discovery free at R. A. Morton & Co's. drug store.

A Relic of the Revolutionary War.

A musket will be carried by a member of the company of Continentals at the celebration of the battle ground of Guilford Court House this year, which was in the hands of a Granville county soldier at that battle in 1781.—Winston Sentinel.

The Point of Singular Omission.

People tell us to boom the town, and to tell the people of our many advantages, and encourage them to come here to do their trading. But they never think of the all important part, which should be to hand us a V or an X and say put me in an advertisement. We are willing to do two-thirds of this work, but we think they ought to supply the other third. You know it takes three-thirds to make a whole.—Washington Progress.

Becklin's Arnica Salve.

The Best Salve in the world for Cuts Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Dr. R. A. Morton & Co.

The University Centennial.

The Commencement at the University of North Carolina next June promises to be one of the most interesting, if not the most interesting, ever held at that institution. Just one hundred years ago the charter of the University was granted by the General Assembly of North Carolina. Since that time, barring the days when this beautiful land of the South was convulsed in the mortal throes of civil strife, the old University has been foremost among the educational institutions of the country.—Charlotte Chronicle.

Setting The Sights Too High For The Game.

The State Board of Education held a meeting at Raleigh Tuesday and voted the blue-back spelling book out of the public schools of the State. This is the end of education in North Carolina, so far as the public schools are concerned. They can introduce "Harrington's Speller and Elementary Reader Combined" if they want to, as the News and Observer says they will; but a State Board of Education which doesn't know that Webster's blue back and a limb from a persimmon tree are necessary adjuncts to the education of a North Carolina boy has set its sights too high for the game.—Statesville Landmark.

Eucpepsy.

This is what you ought to enjoy, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent annually by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the use persisted in, will bring you good digestion and oust the demon dyspepsia and install instead eucpepsy. We recommend Electric Bitters for dyspepsia and all diseases of liver, stomach and kidneys. Sold at 50c. and \$1.00 per bottle at R. A. Morton & Co's., druggist.

Uncalled-For Letters.

- A list of letters not called for: A. H. Lindly, Branch Saunders, Miss Sarah H. Satterfield, Persell & Co., Miss Anna Woods, A. H. Lindly, L. A. Watkins, C. A. McDonald, Miss Lucy E. ton, Miss Linda Hallway, Miss Hannah B. Gran, Richard Green, Robert Crowder, E. A. Boon, E. D. Bland.

Letter From Caldwell.

Mr. Editor: If you will allow me space in your paper, as it has been a long time since I have seen anything from around here, I will give you a few short dots. We are having some nice weather since the blizzard of last Saturday passed over, and soon the earth will be clothed with the flowers of Spring, which cheer the heart of every individual. The farmers are busy getting ready for planting corn, and are well nigh done breaking their new grounds for tobacco, notwithstanding the exceedingly low prices which they are getting for that which they have already made. People are looking forward for better times. It is hoped that they will not be deceived in their expectations. We were much surprised this morning to hear of the death of Mrs. Annie Riley, wife of T. J. Riley. She was apparently well yesterday (Friday) and when she retired she was taken with a pain in her left arm and shoulder along in the night and passed away in a few minutes. She was about 83 years old. In about two hours after the death of Mrs. Riley, Mrs. Janette Wilson, her grandmother died, aged about 79 years. You will hear from me again soon. TOM SHORT. Caldwell Institute, N. C., Apr. 18, '89.

To The Editor—Please inform your reader that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send two bottles of my remedy who have consumption if they will send me their express and postoffice address. Respectfully, T. A. SLOCUM, M. C., 161 Pearl St., N. Y.

News From Hester's Store.

Mr. Editor: What shall I write to interest you and your readers? Spring with its multiplicity of flowers and myriads of birds is here and we have been having some fine weather, though today is cold and rainy enough to give things a "set-back" for a few days, at least.

The wheat crop in this section is looking well, much better than we have ever seen it at this season of the year, and bids fair to make a good yield. Tobacco plants are plentiful and with good weather will soon be large enough to plant.

Some of our farmers are through planting corn, while others say they are not in a hurry to plant, preferring to wait until the ground gets warm. The farmers in this community seem to be rather late in ordering their guano supplies this season, but we suppose there is no time lost about it. Methinks it would be better if they would so conduct their farms as not to need any commercial fertilizer. Some say it can't be done, but I think they are mistaken. One thing certain, the people of this country will have to "turn over a new leaf," if they do not, some of them will soon be unable to turn themselves over.

Double Creek Farmers' Alliance, which holds its meetings at Salem church, is succeeding finely. It numbers between sixty and seventy members, influential men of this community. We learn with much pleasure that our good friend, Mr. D. W. Bradsher, of Gordonton, has a good school at Clement church. We hope he will succeed in building up a permanent school. He is competent and enterprising and deserves success.

Quite a number of ladies and gentlemen visited the palatial home of J. L. Brooks, Esq., last evening and rest assured we had some good music both vocal and instrumental. They are members of Prof. Andrews' class at Clement. Rev. S. Y. Brown, than whom there is not a better man to be found, is now making his home with our neighbor, Mr. B. F. Hester. He will furnish anyone with religious literature who wishes to buy, as he is now engaged in selling books. He can supply the people with any good book they may want. But enough for the present. S. Hester's Store, N. C., April 16, 1889.

A. R. Foushee is selling goods specially low, since he adopted the Cash System, April 1st. You will not have to help pay for bad debts. The Cash System is best for buyer and seller also, and to prove that it is best for the buyer, just call at A. R. Foushee's Cheap Cash Store, and you will be apt to make your purchases there.
