Senator Vance's Letter.

SENATE CHAMBER, June 28, '90. Elias Carr, Esq., President Farmers' Alliance of North Carolina, Old Sparta, N. C. DEAR SIR:—So many reports concerning my position on what is known as the Sub-Treasury or Farmers' Warehouse bill have been circulated in our State, and I have received so many letters of enquiry on the subject that I have deemed it my duty to answer them all in this way.

On the 24th day of February, 1890, at the request of Col. L. L. Polk, President of the "N. F. Alliance and Industrial Union," I introduced in the Senate bill 2806, popularly known as the Sub-Treasury bill, and procured its reference to the Committee on Agriculture and Forestry, where it was supposed that it would receive more friendly consideration than from the Committee on Finance, to which it would have otherwise gone according to the rules.

My own position remains the same. I cannot support this bill in its present shape. But I am not opposed to the principle and purposes of the measure. On the contrary, they are those which I have for ten years advocated, and for the accomplishment of which I have in every county in North Carolina again and again urged the organization of farmers, pointing out to them how that all other classes of society were organized for the promotion of their separate interests.

Permit me to say that there is at this time a great responsibility resting upon you. There is an uprising of the agricultural class of our people, the most powerful class of our society, which amounts to little short of a revolution. This revolution is directed toward a redress of the evils arising from unjust legislation.

I notice with pain that much of the ill feeling of the farmers is directed, not against the authors and upholders of this nefarious legislation, but against their nearest neighbors and friends—those whose interests are as intimately connected with their own as is that of members of the same household.

home from Europe and buy his iron, his clothing and all his farm supplies from the domestic manufacturers. His prices enhanced not only by these enormous tariff duties, but likewise by this severe contraction of the currency. What else could possibly have followed but indebtedness and bankruptcy for that class who had thus to bear the ultimate burden caused by this disturbance of the laws of economy, and by which alone the undue riches of one class were secured?

and which has in so great a measure restored our State to a reasonable degree of prosperity and credit. Let us not imitate the conduct of the Jews when their sacred city was besieged by the Roman armies, who fought their enemies with incredible valor all day and fought each other with incredible fury all night. Let us, on the contrary, stand together and fight our common enemies day and night. Let us strive for a reduction of taxation on the necessities of life—for a reduction of the expenditures of the government—for an increase of the currency and the price of farm products by the free coinage of silver and the restoration of its full legal tender character—for a repeal of the tax upon State banks—for the regulation of transportation rates by railroad commissions; and last, but not least, let us earnestly contend against that spirit of centralization which is constantly threatening to absorb the local self-government of the States.

The Picnic of the Season. On the evening of the 4th of July, a party of six of us, with Misses K. V. Hughes, of Cedar Grove, B. P. Mitchell and L. D. Thaxton, of Ridgeville, L. D. James, of Central, and Messrs. E. B. Yanney and R. L. Mitchell, of Ridgeville, left home at 2 P. M., for Chub Lake City. With bad roads, but good, fast horses, and a light hearted company, we reached the hospitable homes of Messrs. H. S. Williams and Henry Winstead, just after the sun had bowed himself behind the western hill-tops.

A Remarkable Case From Illinois. "I suffered for five years with Mercurial Rheumatism, which was the result of potash and mercurial treatment by physicians, for constitutional Blood Poison. They not only failed to cure me, but made me a physical wreck and my life a burden. I then commenced taking S. S. S., and after using a few bottles, was entirely cured of the Rheumatism, which the doctors brought on by their remedies, and the Blood Poison which they failed to cure. I cheerfully commend S. S. S. to any one similarly afflicted."

No Trace Left. Mr. and Mrs. Little, of Huntington, Indiana, say that about one year ago their little girl was entirely cured of an annoying eruption of the skin and a local blood disorder, by the use of three bottles of S. S. S. There is no trace of the skin disease left, and the blood has been in perfect order ever since, and the general health of the child was never as good as now. They will take pleasure in answering any letters regarding the child's case.
