## Headache

Usually results from a deranged stomach or is needed. Ayer's Pills, the mildest and most reliable cathartic in use, correct all irregularities of the stomach, liver, and bowels, and, in a brief time, relieve the most distressing headache. These pills are highly recommended by the profession, and the demand for them is universal.

"I have been afflicted, for years, with spent nearly a fortune in medicines, I never found any relief until I began to take Ayer's Pills. Six bottles of these Pills completely cured me." - Benjamin Harper, Plymouth,

#### "A long sufferer from headache, I was CURED BY

two boxes of Ayer's Pills." - Emma Keyes, "For the cure of headache, Ayer's Cathartie Pills are the most efficient medicine I ever used."-Robert K. James, Dorchester, Mass. "For years I was subject to constitution and nervous perdagne, caused by detangement of the liver. After taking various remedies, I have become convinced that Ayer's Pills are the best. They never fail to relieve my bilious attacks in a short time; and I am sure my system retains its tone longer after the use of these Pills, than has been the case with any other medicine I have tried."-H. S. Sledge, Weimar, Texas.

Highest of all in Leavening Power.-Latest U. S. Gov't Report.

The air of Monte Carlo is in truth alive with superstition; we breathe it, eat, drink and even sleep it, for our very dreams inspire us with the overnment. idea of a number. The most common sense individual can no more escape the infection of superstition than he can hope to leave the princidoctors' prescriptions, but they're pality without having caught the fever of gambling. Unimportant events and trivial incidents are fraught with meaning to the roulette

Friends, relations, acquaintances become as foes in the atmosphere of place charm is invested with awe and We claim it to be an unequaled reverence by the infected person,

Superstition in New England. During pedestrian tours in New England, in various parts of the west and in every southern state I have frequently staid for the night at the houses of poor farmers, laborers. fishermen and trappers. In such journeys I have invariably listened to the tales of the neighborhood, stimulating them by suggestion, and PITTSBURG, Pa., August 4.—A riot have found the belief in witchcraft occurred at the Duquesne plant of cropping out in the oldest towns in the Carnegie steel company to-day, New England, sometimes within the resulting in the injury of about very shadow of the buildings where fifteen men. Foreman Millstagle a learned ministry has existed from up with it, forming the Appalachian and another workman were fearfully the settlement of the country and cut about the head, and about a public schools have furnished means dozen others received bruises and of education to all classes. The horseproperty is now in possession of the and often in every township upon sixteenth regiment. Colonel Hul. the houses of persons suggested the ings, who is commander, said : "Most old horseshoe beneath which Lord of the Duquesne worman having Nelson, who had long kept it nailed signified their entention of returning to the mast of the Victory, received

A Prehistoric Pot. A poison pot belonging to prehistoric Indians has been dug up near Reading. The pot is a large flat stone. with a circular pit in the center an inch deep and two inches in diameter. bearing unmistakable evidence of having been carved out laboriously with a sharp flint instrument. It still shows plain traces of the poisons and acids which were mixed in it and used in the poisoning of arrows. The poisons extracted from the sacs of copperheads and rattlesnakes and from certain deadly plants were used in concocting the baneful fluids. The poisoned arrows were employed by the Indians in killing their enemies in war and in shooting dangerous Mr. and Mrs. Loren Trescott are wild animals. Few poison pots of keepers of the Gov. Lighthouse at this kind are in existence, even in the

> What is an archbishop's swear! during one of Dr. Benson's speeches in Whitechapel. He was speaking without notes, and at one particular passage waxed indignantly eloquent at the idea that such work as Mr. Barnett was doing was not good and useful work. Suddenly two words slipped out. The archbishop colored with confusion and apologized profusely for his inadvertence. hasten to add that they were hardly what would ordinarily pass as very wicked words. The archbishop's swear was only "My goodness."-Manchester (Eng.) Times.

Sensitiveness of a Chinaman. They cannot be very sensitive these Chinese. One man, admitted into the hospital suffering from a large ulcer which extended four inches upward and as much downcnarities unless it is employed both Hood's Sarsaparilla receives it has received a burn there, and the wound, healed up. Surely he would have another name for the "foreign devils" when, after four months careful treatment, involving five successive operations, he was at last discharged quite cured !- London Hos-

must have been long and large, because no small streams could have transported such sediment.

which existed upon this ancient and mysterious land mass so many thousands of centuries ago. Of the climate may be said: It was very warm and moist, the air probably so laden with carbonic acid gas that mammals, had there been any, could hardly have breathed it with comfort. Malaria and other miasmatic diseases were afloat in the atmosphere. Conditions were more unfavorable for human life than they are now in that dreadful region known as the Delta of the Ganges, where Europeans are unable

"The land of the vanished continent was covered with rank and in the Jewelry line. gigantic growths, notably with huge pines and giant mosses—the coal plants destined to furnish fuel eventually to mankind. These plants grew more luxuriantly near the sea. It was a great time for insects, especially cockroaches. The paleozoic you will remember, is called the age of cockroaches, because of the enormous numbers of them found in fossil This curious piece of information shape in the strata laid down during Patronize Home Industries came out by accident the other night during one of Dr. Benson's speeches before mammals could appear upon the scene.

"In the seas around about the continent gigantic sharks and armored fishes disported themselves, together with marine reptiles, great and small. The time which has elapsed since then is so vast that science does not attempt to make any estimate respecting its duration. So many millions of years have gone by since the real Atlantis sank out of sight beneath the ocean that the period is an eternity compared with the brief span of a single human life."—Wash-

I drove with her and had a very pleasant talk. She is frankly proud of the lord rectorship intended for Carlyle and declares that he must deliver an address. She told with admirable humor a story of her going to inquire for a lost dog to the shop of one of the gentry whose business it is to find and lose dogs. When she entered she meant to ask him if he sold dogs, but her mind was so pos- MILLINERY! sessed by the actual facts of the case that she blurted out, "Pray, sir, do you steal dogs?"—Sir C. the Geologista Tell Stories.

"Atlantis, the supposititious continent in the midst of the Atlantic ocean, of which so many remarkable stories are told, is undoubtedly a myth, but it is entirely certain that there was a real Atlantis," said Professor Magee, of the geological sur-"During that ancient epoch which

we call the paleozoic, nobody knows nent in the middle of what is now known as the North Atlantic ocean. It was about 1,000 miles long from north to south, and nobody knows how wide it was. All we can tell is and that on its western slope it had long and large rivers. It was a mighty land mass, and we have reason for being sure that it endured ages before, at the close of the paleozoic, it had sunk to the level of the sea. Subsequently, though further sinking, it became a part of what is

asked! By the traces of its former existence which this geological At-lantis had left behind in the shape of sediments deposited by its rivers. Where are these sediments found? Well, the Appalachian mountains are entirely composed of them. In that WATCHES at popular prices. Al distant age of which we are speaking so genuine RAILROAD WATCHES the eastern part of the United States at rock bottom prices. had not yet been uplifted above the ocean. When this portion of the continent did emerge from the sea the sediments I have spoken of came range among other features of what is now the land. We know that the rivers of the vanished continent
