Hurrah for Democracy! Long live Democracy.

The action of the Republican con vention insures the election of Elias Carr and the whole State ticket. Hur rah for our next farmer Governor.

The State election in Arkansas came off last Tuesday, and the Re publicans concede it to be about fifteen thousand Democratic majority. A very good working majority.

With Kitchin in the Senate and Moore in the House and they will be there-Person county may rest by negro orators, but to those who assured that her interests will be looked after. No county in the things are easily explained. The de-State can boast of superior representatives.

The Democratic Executive Committee was in session at Raleigh yesterday. The meeting was called to nominate a candidate to fill the vacancy on the Supreme Court bench, caused by the death of Justice Davis. The committee, on motion of Mr. A. H. A. London, proceeded to make the nomination. Judge James C. MacRae, being the unanimous choice of the committee, was nominated by acclamation.

At the head of the local column will be found the ticket that we are going to work for and the ticket we groes? And yet some say how many of the good people of old by white Republicans? Person have done just as we. All find better offisers anywhere than they have made. Not a single charge can be brought against any one of them, and they will again be elected by a good sound majority. Victory is ours-the only thing necessary to insure this is work. Let every Democrat in Person county go to work and work as if the election depended on what was done by him.

THE MASK AT LAST THROWN OFF.

The Republican party has at last thrown off its veil. It dickered with the Third party, until the latter had all. We hear of, and see a Third committed itself to a full ticket. It party and Republican fusion, schem- that he was indicted in the U. S. had been led by Republicans, to believe they would give it support, until they became brave enough and confident enough to put out a state ticket. Now, since the Republicans have put out a ticket, we wonder, if the Third party will not see the game that has been played upon them.

Elias Carr or D. M. Furches will be the next Governor of North Carolina. Which will the farmers take? The best farmer of the state, the man who has always been the friend of agriculture, or the Republican lawyer, who long ago was hurled from reconstruction?

THE NEGROES AND THE REPUBLICAN

Human nature is strange. The various races of mankind have shown marked peculiarities. By one stroke of the pen, they were invested with all the privileges and responsibilities of citizenship. Taught to believe, they were indebted solely and absolutely for their freedom and citizenship to the Republican party, they bowed down and worshipped at its shrine. In response to their prayers, they have been continually reminded of a "historical fact" olina can forget that the first season of the Republican Legislature in that State took \$420,000 of bonds that under the Republican Legislature were issued for the most publican Legislature were issued for the most popular remedy known.

So the negro owes his freedom as much to the Democrats of the North as to the Republicans. It was a solid North, fighting a solid South, regardless of party.

Now as to fair promises since. At first, they were to receive "forty acres and a mule," and we personally know of those who went to county seats on the day after election, with blind bridles and guano sacks-expecting the deeds for the land in their pockets. Yet, in spite of all this, the negroes in many localities, still persist in voting that ticket with unbroken monotony.

A few white leaders-either office polders, ex-office holders, or those who hope to hold office soon, meet in caucus, put up a slate, go in convencourse we are not ignorant of the fact, that these conventions oftentimes-most often-are presided over by a negro, and a negro acts as Secretary.
