## SINGERS

Public speakers, actors, auctioneers, teachers, preachers, and all who are liable to over-tax and irritate the vocal organs, find in Ayer's Cherry Pectoral, a safe, certain, and speedy relief. It soothes the larynx, allays inflammation, strengthens the voice, and for whooping cough, croup, sore throat, and the sudden colds to which children are exposed, this preparation is without equal.

Benefited by a few doses of Ayer's Cherry Pectoral. This remedy, with ordinary care, has worked such magical effect that I have suffered very little inconvenience. Having thoroughly tested the properties of Ayer's Cherry Pectoral as a remedy for bronchitis and throat affections, I am heartily glad to testify to the intrinsic merits of this preparation. J. Macmurray, Author and Lecturer, Ripley, Ohio.

Ayer's Cherry Pectoral has cleared and strengthened my voice, so that I am able to speak with very much more ease and comfort than before. (Rev.) C. N. Nichols, Pastor of Baptist Church, No. Tabary, Mass.

## OPINIONS OF THE PRESS.

WHAT THE PRESS OF OUR STATE HAS TO SAY ABOUT MEN AND MEASURES.

As it appears to Our Brethren of the Quill in North Carolina—On Political and other Questions.

The Oxford day calls our Tommy "The man with the mouth." The inference is—well you may draw your own inference.—Reidsville Review.

Alabama, Vermont, Maine, Arkansas, Florida and Georgia have all spoken, and in every instance the result has been favorable to the success of the Democratic party in November. On the basis of Republican losses in Vermont and Maine, Cleveland will carry all the other New England States and will sweep the country.—News and Observer.

McVeigh, who was Garfield's Attorney General in his letter says: "As I believe for the reasons I have given that the true welfare of the country would be promoted by Mr. Cleveland's election, it is my duty to vote for him; and as I recall the capacity, the fidelity, and the courage with which he has heretofore discharged every public trust committed to him, the duty becomes a pleasure."

The Third party orators draw doleful pictures of the terrible distressed people who belong to their party, but somehow or other the orators have money enough to ride over the country in Pullman cars, put up at the best hotels, live on the fat of the land, and have a good time generally. The people whom they represent may have a rough and tumble time making ends meet, but not the orators. Query: Who foots the bill?—Washington Star.

Cleveland in his address of acceptance said: "We see the farmer listening to a delusive story that fills his mind with visions of advantage, while his pocket is robbed by the stealthy hand of high protection." This again reminds us of the unique and truthful manner in which Ben Butterworth expressed the operations of the McKinley tariff. "The manufacturers and the trusts get the protection and profits of the tariff, the farmer gets the hunk and the humberg."

The Progressive Farmer is not satisfied with misrepresenting the Democratic party platform as it is, but in its latest issue actually publishes a column of foolishness and called it "The New National Democratic Platform." It has no resemblance whatever to the real Democratic platform, but doubtless there are some readers of the Progressive Farmer so ignorant they will think it is the Democratic platform. Such misrepresentation is the education of the "campaign of progress."—Kinston Free Press.

In 1860, when the Democrats had entire control of the government, I find, according to Senator Berry, that the expenses of the government were two dollars (\$2) per capita; in 1892, under Harrison, the gross expenses will be twelve dollars (\$12) per capita.

The increase of \$47,673,009 in the value of our exports of breadstuffs in 1892 as compared with 1891, says the Mail and Express, "was put into the pockets of our farmers by Republican protection and reciprocity." Six inches away, on the same page, in reviewing the conditions of the market, it remarks: "Our exports of wheat are going to fall behind those of last year. Mr. Harrison ought to look after his New York organ. It will give away the whole Republican case, at this rate.—Charleston News and Courier.

The bald-face fraud of the protective tariff is shown by nothing more strikingly than by the fact that manufacturers in this country can make and ship agricultural implements, cutlery, spades, axes, sewing machines and scores of other things to Mexico, Central and South America and sell them at from 40 to 60 per cent. less than they charge the home purchaser right at their own doors. Why? Because in those countries they have competition, while in this, by the monopolistic operation of the protective tariff, they have none.—Wilmington Star.

Just before the election two years ago when Butler was the regular nominee of the Democratic party for the Senate, he published in the Caucasian the following Democratic truisms: "When a man goes to the primaries and casts his vote for his choice, he right there enters into a contract, though unwritten and which should be binding, it seems to us, upon any honorable man to stand by the decision of the majority. Every man who votes in the primaries is as much bound as the delegates to the convention, and if he does not support the ticket put out by that convention, he is a bolter and disorganizer and is an unsafe man to lead or be trusted to legislate for the people."—Sampson Democrat.

## ANOTHER CONVERT.

Mr. Marslander, a Leading Spirit in the Third Party Makes a Manly Statement.

Mr. Editor: After cool and mature deliberation I find I have been misled by the false representations of the Third Party leaders, so I announce to my fellow-citizens and Third Party friends of Chocowinity township that I have withdrawn from and severed my connection with that party. I will state as briefly as possible the reasons that force this change of views.

I realized the distressed impoverished and oppressed condition of our people, and knew that it was due to unjust sectional and pernicious class legislation, and in my dilemma grasped the idea of a People's Party that we were told would sweep the country, as the entire West was aroused. I now see I was wrong and was duped.

Upon investigation I find that all the evils under which we struggle are directly due to the Republican party, as that party alone is responsible for the demonetization of silver, the contraction of the currency, the national banking system, fraudulent pensions, and the high protection and prohibition tariff that robs the farmers, laborers and wage-earners of their country.

I find that the Republican party repealed the tax on incomes, railroad companies, express companies, national banks, articles of luxury, etc., etc., amounting to over one hundred and five million dollars yearly (105,000,000), relieving the rich of their share of taxation and burdening the poor by putting a tariff tax on the basis of consumption that the plain people need and must use.

I find that by a high tariff they make trusts possible and encourage their formation; in return receiving adequate campaign funds for their needs and purposes.

I find North Carolina pays out to the Federal government, including tariff, revenues and for protecting Northern manufacturers, over fourteen million dollars (\$14,000,000) annually, i. e., over eight dollars (\$8) per capita when North Carolina has in circulation only about six dollars (\$6) per capita. Paying out more than we have, I do not wonder we grow poorer, while Rhode Island for instance, a rich manufacturing State, by sectional and class legislation, pays scarcely anything (on the basis of consumption) to the Federal government, and has a per capita circulation of over three hundred and sixty-one dollars (\$361), and grows richer.

In 1860, when the Democrats had entire control of the government, I find, according to Senator Berry, that the expenses of the government were two dollars (\$2) per capita; in 1892, under Harrison, the gross expenses will be twelve dollars (\$12) per capita.

I find from 1850 to 1860 the value of farms in the United States, under a 20 per cent tariff and Democratic rule, increased 102 per cent, or more than doubled, and the farmers owned one-half the wealth of the country. From 1860 to 1890 under a Republican tariff of 47 to 60 per cent, the value of farms decreased and the farmer owned one-sixth of the wealth of the country, and that in '92 14,600 people owned more of the country's wealth than 62,000,000 others did, and this is directly traceable to class legislation. I find many more Republican oppressions but your space forbids.

As to our State government I find we pay about \$3,000,000 for federal pensions and only about \$80,000 to our own disabled Confederate soldiers and the widows of those who died for us. I find that under an honest Democratic administration, the "carpet-bag" State debt has been reduced from about \$82 per capita to something over \$4 per capita, while it has steadily lowered taxes.

I will not vote for the Third party, because I regard its principles as unsound. President Polk, whom the Alliance has apotheosized, I do not believe would have endorsed the Omaha platform as it now is. The course of the Third party leaders in this State has not merited my admiration or commended my respect, and I repudiate their duplicity and leave them in disgust and contempt. I believe the Third party to be an ally of the Republicans. The prominent part taken by negroes and old line Republicans in the Third party State Convention and its action forces me to believe that it is dominated by a Republican spirit.

I can ascendancy, as one hundred and fifty votes of former Democrats in each county will secure Republican victory and Harrison's election, with all the miseries and ills of negroism in its train.

I will not be a party to assist our leaders in their lust for gain and schemes of self-aggrandisement by imposing upon the ignorance and credulity of our people.

I would not vote for Weaver because he voted "No" in the 44th Congress to repeal military law in the South when I was disfranchised. He voted and has steadily endeavored to burden us with \$300,000,000 extra pay for those who laid waste our fields, burned our homes and ravished our women.

He took money from feeble old white men, robbed the helpless women and fatherless children while military governor of Pulaski, Tenn. He has been the most malignant South later and persistent enemy of our people, and in his rabid utterance against us, in comparison, would make infamous old Thaddeus Stevens appear our friend.

His record also shows that he endorsed the national banks. I will vote the Democratic State ticket because the platform and candidates of that party more truly represent reform and Alliance principles than the hoodlum gang and visionary projects of the Third party. I will vote for Elias Carr because (I think) he is the first bona-fide farmer candidate for Governor in the history of our State, and is a true exponent of reform principles, bearing aloft the people's banner in the Democratic party.

I fought for North Carolina four years, and now my patriotism demands that I stand by my State in the hour of her most imminent peril. In my old age I am unwilling to vote to surrender my children to negro supremacy and to bind them more securely in the fetters of misrule or to crush them beneath the oppressions of tariff taxation for fraudulent pensions.

I will not vote for Harrison because I regard him as a weak, corrupt, partisan puppet in league with such unscrupulous men as Raum, Elkins, Woods, Dudley and Wansmaker, and because he represents the worst elements of paternalism, nepotism, centralization and sectionalism.

I will vote the National Democratic ticket because the period of that party's rule is the history of our greatest prosperity, and because it has ever been the friend of the masses. The last Democratic Congress endeavored to give us free wool, free bagging, free cotton ties, free binding twine and to limit the free importations of the rich, thereby saving the consumers of this country about \$175,000,000 annually but the Republican Senate said "No."

I will vote for Grover Cleveland because he saved \$88,000,000 surplus under a 47 per cent tariff, while Harrison will have \$130,000,000 deficit under a sixty per cent tariff, because he has proven himself to be the friend of the South; because he gave us a clean, economical administration; because he is the champion of the masses; because he would not allow a Republican House and Senate to crush and subjugate our people, or to Africanize the South, and because he is as honest as he is brave.

A united and patient Democracy is the only hope for the South. I see this plainly and I have the courage to acknowledge I have been wrong. W. H. MARSLANDER, Grimesland, N. C., Sept. 12, 1892.

SPECIMEN CASES.  
S. H. Clifton, New Castle, Wis., was troubled with Neuralgia and Rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

## AN EXPOSURE OF THE GAME.

W. T. Adams, who is one of the most prominent farmers of Granville county and a member of the last legislature and until recently a leading man in the Third party, made a speech to a good size crowd at Wilkins Saturday night.

Mr. Adams stated that while he was still for the reforms demanded by the Omaha platform, he had found out there was no chance to obtain them through the Third party. He said that Dr. A. J. Dalby told him that all he (Dalby) was after was to get two hundred men in this county, who have heretofore affiliated with the Democratic party, to vote the Third party ticket at the approaching election, and with that number he would defeat the Democrats and elect the Republicans!

Immediately after learning that this was their scheme, Mr. Adams withdrew from the Third party. He said he knew what Republicanism was—that instead of promising to help the people out of their troubles the radicals had in view measures to pile on heavier burdens. He believes in white supremacy and honest government, and he told his friends that their only hope of relief for the farmers from the legislative ill under which they suffer is through the Democratic party.

Mr. Adams' speech created a sensation and was repeatedly and heartily cheered.—Oxford Ledger.

## MELANGE OF DOTS.

It is said that if one touch of nature makes the whole world kin, that sweet and powerful thing, sympathy, is not less powerful. What frozen barriers, what ice of centuries, it can melt in a moment.

It is said that any service, which you render to your fellow-man is of more service to you than it can be to them, because in serving others you exercise, develop those qualities in your self which are God-like.

It is said that you find yourselves refreshed by the presence of cheerful people. Why not make an earnest effort to confer that pleasure on others? You will find half of the battle is gained if you never allow yourselves to say anything gloomy.

It is said that life, all sunshine without shade, all happiness without sorrow, all pleasure without pain, were not life at all, at least not human life. Take the lot of the happiest, it is a tangled yarn. It is made of sorrows and of joys; and joys are the sweeter because of the sorrows.

It is said that the laws of nature are the thoughts of God.

It is said that doing wrong always kills something good in your own soul.

It is said that the highest excellence is seldom attained, in more than one vocation.

## PROPHESIED HER DEATH—THE STRANGE DEATH OF MRS. TAYLOR.

Mrs. Elizabeth Taylor died at her home in Dilworth, yesterday morning at 6 o'clock, of heart disease. Deceased told her relations last Saturday that she would die yesterday morning at 6 o'clock. They laughed at her and tried to reason away such an idea as she seemed firmly convinced of but nothing could break her belief that she would depart this life at that time. Friday she made all her arrangements, and literally put her house in order. Friday night she went to bed, telling them all that she would be a corpse before another day. During the night and towards day she awoke several times and inquired what time it was, saying that it seemed a long time until 6 o'clock. When the clock struck 6, true to her prophesy she expired. Deceased was 66 years of age. The funeral service will be conducted today at 8 o'clock from home.—Charlotte Observer.

J. P. Coyle, Thomas Kelly, James Coyle and Peter Newman, of the Amalgamated Association, addressed the Trade's Assembly this afternoon on behalf of the Homestead strikers. Every man and woman in Homestead, they said, would die rather than surrender to Frick. Mr. Coyle made the principal address. Carnegie and Frick he denounced as modern Nereus. Frick had reduced the coke workers to such an extent that their wives were compelled to work beside them to keep from starving. He had been the cause of more bloodshed than all the corporations in Pennsylvania combined. The mills were being conducted at an enormous loss at present, he said, and the locked-out men must eventually win.—Chicago Dispatch.

The brusque and fussy impulse of these days of false impression would rate down all as worthless because one is unworthy. As if there were no notes in sunbeams! Or comets among stars! Or cataracts in peaceful rivers! Because one remedy professes to do what was never adapted to do, are all remedies worthless? Because one doctor lets his patient die, are all humbergs? It requires a fine eye and a finer brain to discriminate—to draw the differential line.

"They say" that Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription have cured thousands. "They say for a weak system there's nothing better than the 'Discovery,' and that the 'Favorite Prescription' is the hope of debilitated, feeble woman who need a restorative tonic and bracing nerve. And here's the proof—Try one or both. If they don't help you, tell the World's Dispensary Medical Association, of Buffalo, N. Y., and you will get your money back again."

RICHMOND'S EXPOSITION OPENS.  
RICHMOND, Va., Oct. 6.—The second exposition under the auspices of Virginia State Agricultural and Mechanical Society began today under auspicious circumstances. An immense crowd of strangers are in the city the trades parade was the grandest ever seen in the South; the line being several miles long and took one hour and a quarter to pass a given point by the vote.

Dr. McBryde, of Blackburg College made the opening address. The attendance is very large. The exposition will last until the 26th and the exhibits are valuable and very numerous. Business is unusually suspended and the occasion observed as a holiday.

It will cost nothing, and will surely do you good if you've a Cough, Cold, or any trouble in the Throat, Chest or Lungs. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to give relief, or money will be paid back. Sufferers from La Grippe found it just the thing and under its use had a speedy and perfect recovery. Try a sample bottle as it's guaranteed to learn for yourself just how good it is. Trial bottles are given away. Dr. Morris' Drug Store, 506 and 610 North Main Street, N. O.

NOBLE'S NEW METHOD ON RECEIPTS FOR THE BUREAU OF LAND OFFICES OF NORFOLK AND PORTSMOUTH. A statement of the finances and estimates for the current year was submitted. The report of the superintendent, showing that the net proceeds from the sales of the land owned by the Government in Norfolk and Portsmouth Counties were \$28,948,245, the exports 1892 were 500, and coalwise and overland shipments \$38,326,315, while 5160 bales had been taken by the local mills.
