

# The Courier.

ROXBORO, N. C., Aug 31, 1898.

Coal ashes are good for poultry. Old hens make poor winter layers. Do not allow the males to remain in the flock.

A little oil meal will assist the moulting hens.

Give the fowls plenty of shade and fresh water.

Don't permit bad odors about the poultry house.

Worms may result from feeding raw meat too freely.

Borax is a good thing to sprinkle in the nest boxes.

Legnorns are less tame usually than most other breeds.

Give the youngest chicks a chance to eat by themselves.

Waste tobacco and stems are good vermin destroyers.

See that the eggs are clean before being sent to market.

Don't build a fancy poultry house. Put it up plain but warm.

An earth floor in the poultry house is not only good but better.

The rooster is of no use in the flock for the balance of the summer.

Lay in a supply of grain and vegetables for the long winter months.

Prepare now for winter and make the house and yard comfortable.

If an old rooster is not fit for the table, kill him any how and bury him.

Never mind threshing the cats for the fowls; they prefer to do it themselves.

Table scraps will start those early pullets to laying next month. Nothing better.

August is the month of lice and hot days. Both are enemies to the young stock.

A poultry house should be high enough for a person to stand in, and that is high enough.

Never give fowls medicine in metallic vessels. Chemical combinations might be injurious.

See that the new poultry house, if you are going to build one, is finished before cold weather.

The earlier the hens shed their old coats the sooner they will begin to make a winter egg record.

A writer declares that while old fowls can stand cornmeal and bran, they never should be fed to chicks.

We are in the hottest of the season, and the fowls should be provided with plenty of fresh clear water.

The poultry Messenger advises putting away some second growth clover for feeding hens in winter.

Freedom from lice and plenty of range will make the growing chicks "hump" themselves these days.

Be careful how the new grain is fed. It is liable to produce cases of what you will probably call cholera.

The sooner you are rid of all stock except those intended for next season's breeders, the better.

Some hens do not possess the egg-laying habit and no system of feeding will make good layers of such hens.

Pure bred fowls, first, last and all the time. The breed does not matter so much, provided you are satisfied with it.

Hens that are permitted to range all summer will not lay as many eggs as those in reasonable confinement and properly fed.

Give as much of a variety as possible. Young chicks soon tire of the best of feed if confined to it for any great length of time.

That soft feed that stands over from morning till night is not just the thing for the next feed. It won't hurt the hogs, however.

Too much young stock is used for breeding purposes. The young chicks will be hardier and make larger fowls

if from two year-old stock. The poultry house should have plenty of windows and if the fowls are permitted to roost in it in the summer, all the windows should be open.

Kerosene and kerosene will prevent further loss of feathers and produce new growth on the head from which the feathers are falling out in summer.

Better give your water trough and dishes a thorough cleaning before it runs too long. It will lead off some of those numerous cases of "drooping" among the flock.

WINE OF CARDUI THE NEW WAY. WOMEN used to think "female diseases" could only be treated after "local examinations" by physicians. Dread of such treatment kept thousands of modest women silent about their suffering. The introduction of

Wine of Cardui has now demonstrated that nine-tenths of all the cases of menstrual disorders do not require a physician's attention at all. The simple, pure

McELREE'S Wine of Cardui

taken in the privacy of a woman's own home insures quick relief and speedy cure. Women need not hesitate now. Wine of Cardui requires no humiliating examinations for its adoption. It cures any disease that comes under the head of "female troubles"—disordered menses, falling of the womb, "whites," change of life. It makes women beautiful by making them well. It keeps them young by keeping them healthy. \$1.00 at the drug store.

For advice in cases requiring special directions, address, giving symptoms, the Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

W. I. ADDISON, M.D., Cary, Miss., says: "I use Wine of Cardui extensively in my practice and find it a most excellent preparation for female troubles."

WINE OF CARDUI

About one month ago my child, which is fifteen months old, had an attack on diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for a week and was having about 25 operations of the bowels every 12 hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. Boggs, Stamptown, Gilmer County W. Va. For sale by W. R. Hambrick & Co., Druggists, Roxboro, N. C.

A girl's features may be stamped on a young man's heart, but it's always her complexion that looms up on his coat collar.

Deafness cannot be cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by the inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO. Toledo, Ohio.

Sold by druggists, etc.

Mr. H. E. Swift the well known representative of J. N. Murdoch Wholesale Druggist of Parkersburg, W. Va., says: "I was completely laid up with Cholera Morbus; I bought a bottle of Dr. Kennott's Extract of Blackberry and was completely cured with one dose, would not be without it if it cost me five dollars a bottle, and heartily recommend Dr. Kennott's Extract of Blackberry as the best remedy on the market for Cholera Morbus, Diarrhoea, etc. For sale by W. R. Hambrick & Co.
