

### LABOR'S SHARE.

PROTECTION CAN GIVE NOTHING TO WORKINGMEN WHILE LABOR IS ON THE FREE LIST.

The Laborer Now Competes With Lowest Responsible Bidder of the World—Low Prices Stimulate Both Consumption and Production—Example of Steel Rail Pool.

One of the best speeches made in the house while the Dingley bill was being discussed was made by John C. Bell of Colorado. With facts which are indisputable and logic which is unanswerable he exposed many of the fallacies of protection. His exposure of the absurd claim that protection helps the workingman is especially good. Here is a part of it:

"But our friends upon the other side say that they levy a tariff for the benefit of the wageworkers. I say to you that any tariff bill, I care not from whom it comes, that does not contain a provision for prohibiting the free inflow of immigration from foreign countries is oblivious of the rights of labor and is opposed to the interest of all wageworkers [Applause.]

"Protection is always asked in the interest of others. Now, observe how it is asked in behalf of the poor laboring man—just enough to cover the difference between the European scale of wages and our own. What hypocrisy! Who ever heard of the laboring man getting rich manufacturing? The statisticians clearly figured from the census of 1880 that about 6 per cent on our dutiable list would cover the difference between the European wage schedule and ours, or that about 18 per cent ad valorem covered the entire labor cost of our list of 1880. While the manufacturer then asked for the poor laborer his 6 per cent he got for himself at the hands of congress six times 6 per cent.

"Is there any reason why a high tariff affects wages injuriously? Yes; by enabling employers to build up a vicious trust system for the manufacturer and against the laborer. The high tariff makes the manufacturer complete master of the wageworker.

"In the review of R. G. Dun & Co., in their weekly review of trade, dated Feb. 12, it is stated:

"No other event of the week approaches in importance the disruption of the steel rail pool. In two days," says the report, "after it a greater tonnage of rails was probably purchased than the entire production of the last year, reported at 800,000 tons. And instead of \$28 in December and \$25 in January, \$17 is now the price at which works east and west are seeking orders. And further," says the report, "the Carnegie company has been selling at \$17, Chicago delivery. These sales will employ many thousand hands, with an important decrease in the cost of track laying on renewal of railroads."

"Now, my friends, let me ask you, was it the rising or lowering price that employed these thousands of men? Our friend Mr. Hopkins of Illinois tells of the benefits of a higher duty on iron and steel. Did the steel rail pool need more tariff?

**Women's Dress Goods Will Come High.** The extremely high duties which Dingley proposes to collect from women's dress goods should be more generally understood by the women of this country. It is they who must suffer most because of these duties. Here are a few samples of the increased duties taken from a list prepared by Mr. P. B. Worrall of the dress goods importing firm of Fred Butterfield & Co. of New York:

#### Englishmen Who Traveled.

Where one Englishman traveled in the reigns of the first two Georges ten now go on a grand tour. "Indeed," says a contemporary writer, "to such a pitch is the spirit of traveling come in the kingdom that there is scarcely a citizen of large fortune but takes a flying view of France, Italy and Germany in a summer's excursion." Gibbon wrote from Lausanne describing the crowd of English who were already thronging the beautiful shores of Lake Lemane. An interesting series of hints to "persons traveling from Britain to France" appeared in The Gentleman's Magazine for the year 1786. From them we gather that no such thing was to be had in France as ready furnished lodgings and that it was impossible to board in a "genteel family," and extremely difficult to get into "genteel company." The author adds the remark that "the keeping of good company is attended with some expense—a man must game, he must keep a carriage, and he must dress according to the fashion."—*Cornhill Magazine.*

#### Bullets That Wear Out Guns.

There is one thing which users of the new high velocity rifle of 30 caliber have to consider, and that is the effect of the copper or nickel jacket on the grooves of the rifle. A bullet that leaves the muzzle of a rifle at a velocity of 2,000 feet a second is so wearing on the rifling, especially near the muzzle, that the accuracy of even the hardest bored rifles is seriously impaired inside of 12,000 shots at the most. The lead bullets, or those but slightly hardened with a mixture of tin, do not wear the barrels to the same extent, and the barrels last far longer.—*New York Sun.*

### CRIMINALS AT PLAY.

THE CRUEL WAYS IN WHICH THEY "AMUSE" THEMSELVES.

The Test in All Their Games Is the Ability to Bear Pain—In Italian Prisons Surgeons Are Always in Demand to Patch Up the "Players."

Mario Carara, a disciple of Cesare Lombroso, the Italian expert in criminal anthropology, has made a special study of the sports that criminals engage in. The innocent games of childhood, in the case of criminals, are tinged with cruelty and sometimes accompanied by homicide.

Criminals skip the rope, but part of the game is to trip up the jumper and let him fall heavily upon the stone pavement.

Criminals play leapfrog, but the object of the game is that he who makes the "back" shall rise suddenly and violently just as the frog mounts and throw him to the ground.

The criminals play blind man's buff, but the man with the bandaged eyes carries a handkerchief bearing in one corner a jagged stone, a piece of hard, sharpened wood or a bit of iron. With this weapon he strikes those whom he pursues.

Another remarkable form of this game is for the blinded one to be struck by one or another of his companions if he fails to name the one that touches him. The penalty is not the innocent one of the children's game, but a blow so severe that a physician has often to be called in after a game is over, and occasionally the sufferer is disabled for some time.

It has been found in those Italian reformatories where prisoners are not kept in solitary confinement that prisoners' games are often accompanied with bloodshed, and that it is almost impossible to prevent cruelties. This is especially true where prisoners work together, for they secrete tools and use them as weapons in brutal sports.

In one of these games the player has in each hand a stick, having fixed in the end a keen metallic point. He interweaves his arms, revolving the sticks with rapidity, and the game is for another prisoner to thrust his head between the arms and endeavor to follow the revolutions of the sticks without being wounded. It usually happens that he receives 15 or 16 wounds and comes out with a bleeding head, while now and then mortal injuries are received.

FOR THE COMING YEAR

#### Some Notable Features

#### CHAS. A. DANA'S REMINISCENCES

These reminiscences contain more unpublished war history than any other book except the Government publications. Mr. Dana was intimately associated with Lincoln, Stanton, Grant, Sherman, and the other great men of the Civil War. He had the confidence of the President and his great War Secretary, and he was sent on many private missions to make important investigations in the army. Lincoln called him "The Eyes of the Government at the Front." Everywhere through these memoirs are bits of Secret History and Fresh Recollections of Great Men. These Reminiscences will be illustrated with many Rare and Unpublished War Photographs from the Government collection, which now contains over 8,000 negatives of almost priceless value.

#### RUDYARD KIPLING STORIES & POEMS

#### ANTHONY HOPE'S NEW ZENDA NOVEL

Rudyard Kipling, Robert Barr, William Allen White, Jam MacLaren, Octave Thanet, Stephen Crane, and many others, the best story writers in the world, will contribute to McCLURE'S during the coming year.
