THE 'BLAKESLEE'

GAS AND GASOLINE ENGINES.

After many years of experimenting by the many different manufacturers of Gas and Gasoline Engines, has been produced and put on the market, a Gasoline Engine that is practical and perfect in every sense of the word, and it is so simple and economical that anyone looking for power cannot afford to overlook this.

The Blakeslee Mfg. Company of Birmingham, Ala., whose ad we present to you on another page, is the firm that manufacture this perfect little piece of machinery.

The accompanying cut gives a very good of this little engine, and even to the inexperienced eye it can be readily seen that this engine is very simple, compact durable and built to stand the wear and tear of every day from use. There are no complicated self starting devices about the engine. It is fitted with the very latest improved electric ignition, which has been carefully tested and perfected, thus doing away with the old style hot tube eliminating all danger from fire or explosion, also enabling the user to start his engine at a moments notice.

The engine is light and can be moved from place to place easily, or it can be mounted on skids and put on wagon trucks and used as a portable rig. It can be used for grinding feed, pumping water sawing wood, running the grindstone, or for any other purpose requiring power. The engine is very economical in the use of fuel, it costing about one cent and a half per hour for each horse power actually developed, and it can be readily seen that the user not only realizes a handsome profit on the investment, but can soon save enough to pay for the engine. This machine requires absolutely no attention after starting and thus the user is enabled to go safely away and attend to other duties without stopping his engine or hiring an extra man to attend to it, and more, they do not require a person mechanical learning to operate them. They are so simple and easy to operate that a small boy can easily run one with the greatest of satisfaction. The manufacturers furnish complete detailed blue prints for setting up and operating and the user is caused no trouble on this score.

The Blakeslee answers a long felt want among the people who require small power, and we believe that no up to date farmer can afford to be without one, in fact, anyone who desires an engine that is perfect from a mechanical as well as an economical standpoint would do well to buy this engine.

The manufacturers of this engine give with each and every engine an absolute guarantee that if they do not come up to their representations in every respect, then your money will be refunded, and we consider a guarantee like this from a responsible firm like the Blakeslee Mfg. Company as good as a gold bond, and you can see you take no risk whatever in purchasing an

engine from them.

These engines are made in size of 1, 2 and 3½ H. P., and the Blakeslee Mfg. Company, of Birmingham, Ala., will be glad to give you any further information and to quote you prices. If you wish larger power than three and one half H. P. you should ask for their new Illustrated Catalogue No. 6 which is a very handsome and artistic publication, and which will give you a full and complete information regarding their product.

The Georgia campaign has been under an evident eclipse.

Rev. Dr. T. N. Ivey, editor of the Raleigh Christian Advocate, is preparing a complete "Handbook of North Carolina Methodism." He says it will cover the entire State.

Ozolgosz Located.

Buffalo, Sept. 15.—Governor Odell announced to-day that he had declined to call a special term of the Supreme Court to try the murderer of President McKinley because he believe that haste was not necessary. He said that the district attorney had assured him that the grand jury would indict and the case be on trial within 15 days and to call a special term and get a jury assembled would take more time than that. The assassin is in the Erie county penitentiary.

SORES AND ULCERS.

Sores and Ulcers never become chronic unless the blood is in poor condition—is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sore, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S. S. S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system **A CONSTANT DRAIN** all morbid, effeminate matter. **UPON THE SYSTEM.** When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. J. B. Talbert, Lock Box 245, Winona, Miss., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was induced to try S. S. S., and it made a complete cure. I have been a perfectly well man ever since."

SSS is the only purely vegetable blood purifier known—contains no poisonous minerals to ruin the digestion and add to, rather than relieve your sufferings. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic. Send for our free book and write our physicians about your case. We make no charge for this service. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**
