

Contagious Blood Poison

Is the name sometimes given to what is generally known as the BAD DISEASE. It is not confined to dens of vice or the lower classes. The purest and best people are sometimes infected with this awful malady through handling the clothing, drinking from the same vessels, using the same toilet articles, or otherwise coming in contact with persons who have contracted it.

It begins usually with a little blister or sore, then swelling in the groins, a red eruption breaks out on the body, sores and ulcers appear in the mouth, the throat becomes ulcerated, the hair, eye brows and lashes fall out; the blood becoming more contaminated, copper colored spots and pustular eruptions and sores appear upon different parts of the body, and the poison even destroys the bones.

Ten years ago I contracted a bad case of Blood Poison. I was under treatment of a physician until I found that he could do me no good. Then began taking S. S. S. I commenced to improve at once and in a very short time all evidence of the disease disappeared. I took six bottles and today am sound and well.

E. M. Wall, Morristown, Tenn.

S. S. S. is a Specific for this loathsome disease, and cures it even in the worst forms. It is a perfect antidote for the powerful virus that pollutes the blood and penetrates to all parts of the system.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

"Did Columbus Discover America?" is the pertinent title of an article in the June Everybody's. It is based on the investigations of Henry Vignaud, Secretary of the U. S. Legation in Paris, who in a recent work devoted to the subject declares Columbus to have been an imposter and forger. Vignaud's researches extend over a long period of years and certainly disclose evidence tending to unsettle Columbus' claim as a great navigator and discoverer.

It is said that the 25-cent-a-bushel tariff imposed on wheat imports benefits the American farmer. But does it? It prevents Canadian wheat from coming to this country and the 50,000,000 surplus bushels of Canada go to foreign mills instead of American ones, as would be the natural course. Then the competition of Canadian wheat that onrs in foreign markets controls and lowers the price of ours there and the demands of the foreign markets control prices here because we are large exporters.

Deafness Can Not Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

There was a time when the United States could have bought Cuba from Spain for \$90,000,000 but thought it a bad bargain. Now this island has cost us over \$400,000,000 and much American blood, and is not ours after all.

Mr. W. S. Whedon, Cashier of the First National Bank of Winterset, Iowa, in a recent letter gives some experiences with a carpenter in his employ, that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on account of being troubled with diarrhoea. I mentioned to him that I had been similarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at his work." For sale by W. R. Hambrick.

The Stammering Prisoner.

Former Judge Pimbrick, of Arizona, while visiting a New Yorker a few weeks ago, related an amusing experience which he had in his younger days when presiding over a Police Court, in a Southwestern town. His story was something like this:

"One morning an Irish policeman brought a man named Sisson for trial. The man stammered badly, and when I asked his name he stammered out, S-s-s-s-sis, and then gave it up.

"Again I asked his name. 'S-s-s-s-sis,' the same futile attempt.

"After a few more efforts to obtain his name, which called forth more 'sisses,' I turned impatiently to the policeman and asked: 'What is this prisoner charged with officer?'

"I don't know 'for certain, yer 'onoer,'" he replied, his eyes twinkling, "but I suppose it must be soda water."

The Origin of Titles.

Little has been heard recently of the association organized in a Virginia town for the purpose of suppressing bogus titles. The movement was, of course, not popular, nor was it practical, for it is much easier to acquire a title than to lose it. How easy it is to gain one has been described by Mr. Stanton of the Atlanta Constitution as follows:

1. Give a Georgia dorky a "chaw" of tobacco and you're a cap'n.
2. Give him a quater, you become a colonel.
3. Paralyze him with a dollar and you're a general for life.
4. Throw in an old suit of clothes and two stiff "drams" of corn liquor and he raises all his children to call you "governor."
