REPORTS MEETING

Report of Engineer of Rockingham & Caswell Railroad Company Shows Estimates on Costs to be Within Expectations.

Rockingham, N. C., Sept. 28.—The meeting of the stockholders of the Rockingham & Caswell Railroad Company, held yesterday afternoon, heard the report of the engineer who has had charge of making the survey of the road from Yanceyville to Stoneville, and transacted considerable new business.

Engineer Wysor showed estimates on the costs of constructing the road to be within the expectations which the directors have all along had, and that part of the road from Reidsville to Yanceyville can be graded for a comparatively small cost. The report will be published in full at an early date, and will show that if Reidsville and Leaksville townships will vote \$40,000 to \$50,000 each, and Stoneville and Wentworth \$5,000 to \$10,000 each, promoters can assure the construction and completion of the road. This end is much more expensive to construct than the other half of the road, and it is apparent that but little difficulty will be encountered in getting the enterprise through if the townships will show a disposition to help by voting reasonable amount in bonds.

The treasurer's report showed a wonderful improvement in the collections of the assessments since the last meeting, but a few were indicated as not having paid both cash calls on the amount they subscribed.

A resolution recommending that the directors circulate petitions in the townships as soon as practicable calling an election, when the matter of issuing bonds will be passed on, was adopted, and the petition will be sent out as soon as the report of the chief engineer can

be printed. This report will not only show the cost of constructing the road, but will give definite estimates on the earnings the road can reasonably expect to make from the beginning of its operation.

The prospects for a new railroad brightens day by day, and the original agitators of the movement are satisfied that the building of the road and its operation is now a matter for the very near future.

Mrs. Chadwick Very Ill and May Die.

Columbus, O., Sept. 28.—Mrs. Cassie Chadwick, who is serving a term in the penitentiary for wrecking the Bank at Oberlin, Ohio, is quite weak to day, according to the official statement of the doctor in charge of the case at the state prison hospital. Dr. Helmick said that, although Mrs. Chadwick's condition is not dangerous, it is such that it is not improbable that she may drop off at any minute.

An Untaught Cow.

Down on a Southern plantation the dairy hands were accustomed to do the milking squatting down in a primitive fashion, until the owner introduced milking stools with other improvements. But the initial experiment with the innovation was not exactly a success. The dorky who first sallied forth with the stool returned bruised and battered and with an empty pail.

"I done my best, sah," he explained. "Dat stool looked all right to me, but de blamed cow she won't sit on in!"—Woman's Home Companion for October.

EASY TO MIX THIS.

Prepare this Simple Mixture at Home By Shaking Ingredients Well in a Bottle.

What will appear very interesting to many people here is the article taken from a New York daily paper, giving a simple prescription as formulated by a noted authority, who claims that he has found a positive remedy to cure almost any case of backache or kidney or bladder derangement, in the following simple prescription, if taken before the stage of Bright's disease.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home, when asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

Teachers Examination.

On the 10th and 11th of October an examination will be held for white teachers to teach in the Public schools of Person county. On the 12th, the colored will be examined. Also on the 11th and 12th applicants for a State certificate will be examined. The law requires that the applicant file an application with the Superintendent of Public Instruction before taking this examination.

Please notify me at once if you expect to take this examination.

No further examinations will be held during the present school term.
