## A Bumper Wheat Crop.

To produce \& "bumper" wheat crop, it is absolutely necessary food which your soil so bady needs : phosphoric acid, nitrogen (or Virginia-Carolina Fertilizers, (say 200 to 500 pounds to the acre) will meet this deficiency. You
know the highest grades are always cheaper, as they produce greater yields. These fertilizers on account of the phosphoric acid they contain, promote the growth and development of the grain and hastens
maturity; the nitrogen or ammonia of which they are a part, increases the growth of leaves and stalk and its potaa
and assiats in the development of the grain.
and assists in the development of the grain.
So use VITGIINA-CAROLIN FRRTIIIERR and greatly "Increase your yields per acre: ". Bon't buy any substitute braad, which some deafer may sell you "Is just good." If he cannot supply you, writ
direct for the goods and tell us your dealer's mame. VIRGINIA-CAROLINA CHEMICAJ COMPANY, SALES OPFICES:
