## MAINE GOES DEMOCRATIC.

She Elects a Democratic Governor. If the Legislature Should be Democratic a Democrat Will Succeed Senator Hale, Present Incumbent.

Augusta, Me., Sept. 12.—The democrats in the election today elected their candidate for governor, Col. Frederick W. Plaisted mayor of Augusta. In addition to this they have elected four congressmen and quite likely also a majority in the legislature.

Colonel Plaisted's majority over the republican candidate, Governor Bert M. Fernald, will probably reach five thousand.

The democrats are tonight wild with delight over their victory, although it will be several days before the vote from the remote rural districts is received.

Asher C. Hinds, the parliamentarian of congress, of the Portland district; Swasey in the second, and Burleigh in the third district, were defeated.

Should the legislature prove to be democratic a democrat will succeed Eugene Hale as United States senator. Mr. Hale announced sometime ago that he would retire from the senate at the end of his present term.

## Mistakes in Paint.

The usual way to buy paint is to take the lowest price by the gallon. Mistake; the buyer loses by it; how much? Depends on the paint; it is so much a gallon, or so much a year. How much a gallon or year, do you think? As much perhaps, as the total price of the paint. It may take twice the number of gallons.

N Avery, Delhi, N Y, owns two houses, both exactly alike. He painted one with Devoe and one with another paint. Devoe 6 gallons; the other 12.

Goby the name; Devoe, There's nothing cheaper. Go by the price; there's nothing dearer, except not painting at all. Poor paint is better than none.

What does it cost not to paint at all? Can't figure it out exactly; say a tenth of the building a year, besides looks.

What is poor paint worth then? Don't know and don't care; you don't want it. Go by the name.

## Rose Moore Farm.

The farmers of Person county, and all others interested in corn growing are cordially invited to Rose Moore Farm to see a great demonstration of corn growing on once poor land, made possible by the first crop of clover sod, six tons of manure and 450 pounds of guano per acre. Take a day off soon as you can and come. I will take pleasure in telling you what I did from start to finish. It will pay all to come who are interested in improving their farm and growing all the corn they need on a few acres. A good many have seen it, and all say it is the most regular and uniform field of corn they ever saw.

## DEMOCRATIC KEYNOTES OF THE CAMPAIGN.

By Clyde H. Tavenner, Special Washington Correspondent of this Paper. Facts and Figures Given Which Prove the Injustice of the Tariff Law.

This is because of the Payne-Aldrich ad valorem tariff of 105 per cent, or in other words on each \$1 worth of woolen dress goods imported, the Payne-Aldrich law levies a tax of \$1.03. The consumer must pay the \$1 value and the \$1.05 tariff, or \$2.05 for one dollar's worth of goods.

This is but one of a thousand illustrations that could be submitted to show how the tariff affects the cost of living.

Here is another sample illustration for the tariff arithmetic class: which is composed of some 90,000,000 American consumers, all of whom are more or less dissatisfied with the awful increase in prices:

A suit of clothes having an import price of \$10, and which costs an Englishman \$10 when ready to put on, all wool and tailor made, pays at the custom house an ad valorem tariff of 80 per cent or \$8 per suit! making the suit cost the American when it is put on \$18, disregarding transportation and retail profits.

Another comparison: An English woman carpeting a room 18 ft. square with ingrain carpet two ply would 36 yards at a dollar a yard flat, or would pay \$36. An American woman using the same carpet would pay \$23.76 tariff at the custom house, which would make the carpet cost her \$59.76

## WHY PRICES ARE HIGH.

The following table shows a number of common articles of consumption, the ad valorem tariff rate under the new Republican tariff law, the real value of the articles and the tariff additions on the basis of \$10 purchases.

Amt. of tariff rate	Real value	Tariff
Sugar 60.80 per ct.	\$6 00	\$3 75
Glassware 60 "	6 25	3 75
Window glass 84 per ct.	5 43	4 57
Soap 46 per ct.	6 84	3 16
Machinery 45 per ct.	6 89	3 11
Tinware 45 per ct.	6 89	3 11
Metal tools 45 per ct.	6 89	3 11
Stockings \$1 doz 88 per ct	5 31	4 69
Shirts 60 per ct.	6 25	3 75
Blankets, 107 per ct.	4 83	5 17
Flannels, 40 cents per yd.	1 44	5 91

## PROGRESSIVES NOT REPUBLICANS.

Those who approve of the sentiments of such genuine progressives as Victor Murdock of Kansas will be disappointed if they expect that the Republican party proper has any intention of carrying out such ideas. This is made plain in the Republican text book just issued by the Republican congressional committee. The campaign book emphatically does not recognize insurgent republicans as republicans, and thereby tacitly serves notice to the public that if the next House is Republican the people need not expect the ideas of progressives to be carried out. The Republican textbook, however, officially indorses sentiments of the Aldrich-Cannon-Guggenheim type of Republicans as being Simon-pure Republicanism. As the Democratic campaign book accepts the sentiment of many of the genuine progressive Republicans as being truly Democratic, it would seem that the surest way to secure progressive legislation would be by voting the Democratic ticket.

## REPUBLICANISM IS CANNONISM.

In spite of anything the progressives can do or say, Cannonism and Republicanism are synonymous. Page 3490 of the Congressional Record shows that on March 19 a resolution was reported providing for unseating Cannon as speaker. Of the entire Republican membership only the following nine voted to unseat Cannon: Murdock of Kansas, Cooper, Cary, Nelson and Le-root of Wisconsin; Lindburgh and Davis of Minnesota, Poin-dexter of Washington and Grona of North Dakota. Thus it is indisputable that Cannonism dominates all but one twenty-fourth of the Republican party. This is the answer we get by dividing 219, the total Republican membership of the House by 9, the number of Republicans who voted to unseat Cannon.

## CANNONISM BOUND TO RULE.

Even if every one of the genuine progressive Republican congressional candidates is elected, Cannonism will reign the in House of Representatives if that body has a Republican majority. As the regulars will outnumber the progressive in Republican caucus, "Uncle Joe" or some one satisfactory to the Old Guard will be nominated for the speakership. The only sure way to kill Cannonism is to deprive the Republican membership of Congress of the balance of power, and to replace a Republican president with a Democrat.

## WHERE AND WHEN

"The Republican party," declares the Republican textbook, "stand for the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit for American industries." It is true the Republicans promised such a revision in the 1908 platform, but it is safe to predict no Republican candidate for office will declare that the tariff was ever revised on that basis. All genuine progressive Republicans are on record as stating that the promise was ignored as completely as if it had never been made. Revision of the tariff on the basis indicated would have been a big downward revision, while the Republicans revised it upward by 1 71-100 per cent.

## TWO SAEF BATS,

A \$5,000,000 ship subsidy grab and a central government bank are two good bats in the event of the next House of Representatives retaining its present Republican majority. If the House is Democratic it is an equally good bet that special privilege will be disappointed on both propositions.
