### AYCOCK ENTERS ARENA.

Governor Now an Avowed Candidate For Seat in United States Senate Now Held By F. M. Simmons—Makes the Race a Quadrangular Affair.

Observer Bureau, Express Building, Raleigh, May 20.

Gov. Charles B. Aycock stepped into the arena today as an avowed candidate for the United States Senate to succeed Senator F. M. Simmons, making the fourth candidate for the Simmons toga and it is thought closed the entries for this race, which promises to be the most strenuous ever.

However, in entering the race, Governor Aycock stipulates that he will not get into anything like a campaign for the primary nomination. He says his finances will not admit of it. It is imperative for him to pursue his position as a lawyer with undiminished energy. He merely expects next year to get into the arena for the whole Democratic ticket and then at the end of the people will do so, and give him their nomination for the Senatorship, with the election by the people he will give his very best efforts for the people in the State.

A lengthy letter setting out his views and attitude in this matter is given to the press. It is addressed to Col. Nathan B. Whitfield of Kinston, who had written him urging especially to declare his candidacy. Col. Whitfield is 80 years old and has been a close personal friend of Governor Aycock for many years.

### Lives with his Coffin.

Woodstock, Va., May 20.—B. Sager having a grave ready, David Sager, a prosperous Shenandoah county farmer living near Frontsville though still healthy, had his coffin made. Several days ago Sager took his coffin to the cabinet maker, loaded up the coffin, and took it home. He has stored it in his house and will wait the time when it is needed.

### Meeting of Rural Letter Carriers

The Rural Letter Carriers of Person and Caswell Counties will hold their Annual Meeting at Roxboro in the Court House on May 20th at 11 o'clock, a. m.

It is very important that each and every Carrier attend this meeting. Don't let a little excuse keep you away, come whether you are a member or not, you will be gladly welcomed and well paid for coming. We are trying to get every Carrier in State to join this Association, and other States are doing the same, and if you stay at home you say by your actions they can get along without me.

Say brother Carrier, why are you staying out of the Association and letting a few Carriers who belong to the Association pull you up the hill? This is why our raise in salary was so small, and why so many Carriers are not posted as to their duties to make better carriers and build up the service.

We would be glad to see more of our patron attend these meetings. It will encourage the carriers and help him to give you better service. Patrons urge your carrier to come and if that won't do hitch up your horse and bring him and let his get a days rest. We hope to have a larger attendance at this meeting than we have ever had. If we did not know these meetings would help each one who attends we would not ask you to come, for the smaller the crowd the better speech a mail carrier can make.

We also invite the good roads people to meet with us, for we want to help push this movement, and not let the new railroad gets here before we get better County roads. If we want to win and have better roads all must help push and not pull back. Twelve months have passed and how much have we done? There has been lots of talk but it takes money to have good roads. Lets have the money.

T. J. Montague, Sec.  
J. W. Brooks, Pres.

150,000 ft of dressed and rough lumber for sale by Watkins & Bullock.

### WOMAN'S STOMACH

It Causes Much Misery if not Kept in Condition.

Many women who would not tolerate anything but a scrupulously clean kitchen continue day in and day out to suffer from an unclean stomach, where food ferments, turns sour becomes putrid. It is just as easy for a woman to keep her stomach clean, as to keep her kitchen clean; in fact it is much easier, and does not require hours of toil.

One or two Mi-o-na stomach tablets after each meal will in a short time thoroughly clean and renovate the most distressed stomach. They will do more: they will put strength and energy into the walls of the stomach, and cause the juices of digestion to flow freely, so that all food will promptly digest.

Women: keep your stomach clean and free from fermenting food, and you will find that other ailments such as nausea, biliousness, sick headache, nervousness, sleeplessness, constipation and palpitation of the heart will disappear.

Hambriek & Austin, and druggists everywhere sell Mi-o-na stomach tablets for only 50 cents a large box. They are guaranteed to cure indigestion or any stomach trouble, or money back. They stop belching of gas and after dinner distress in five minutes. Give them a fair trial: they won't disappoint you. One woman writes: "I had been bothered for eight years with gas, belching and bloating of the stomach. Mi-o-na cured me."

### Pays off the Mortgage.

A man who is in debt has a special need for Life Insurance; If he is well and has good luck he will be able to meet his obligations. There are, however, a hundred contingencies that may arise. He should be prepared for the unusual. If a man had a mortgage on his property he would be very glad to pay a little higher interest rate if the mortgagee would agree to cancel the mortgage in case of the mortgagor's death if it had not been paid. That is a striking way of presenting to a man who has his house or property mortgaged, the benefit of a Life Insurance policy. The life company agrees to pay off the mortgage in case the mortgagor dies. Then in addition there is an equity in the policy that he would not have in the supposed guarantee of the mortgagee. The life policy grows more valuable with age. Even after it has served its original purpose of protecting the home against the mortgage, it still is in force after the mortgage is paid and, offers that much more protection to the family.—The Spectator.

Take a policy in the Union Mutual, J. W. Moell State Manager, Roxboro, N. C.

### A. & M. Collge Student Found Dead in Bed.

Raleigh, May 20.—This morning, at the A. & M. College, Adlai Holt Dixon of Alamance county was found dead in his bed in one of the college dormitories. He was a freshman from Haw River and was an agricultural student.

He seemed in usual health last night and when found this morning his Sunday school quarterly was lying beside him, indicating that he had been studying the lesson for the next Sunday when the sudden summons came. Heart disease was the cause of the death.

### Democrats to the Rescue.

Two bills introduced in the Senate and several in the House each of them intended to deprive the Supreme court of the power it recently assumed to read the word "reasonable" into the anti-trust law, indicate the strong protest in Congress against the decision of the court weakening the anti-trust statute. The Senate bills were introduced by Senators Culberson of Texas and Reed of Missouri, both Democrats.

Senator Culberson's bill consists of a printed copy of the Sherman act with three words inserted into Sections 1 and 2, the words being "of whatever character." The effect would be to prohibit all combinations, conspiracies in restraint of trade, all monopolies, all combinations tending toward monopoly "of whatever character." In the Texas senator's opinion this change would effectually restore prohibitions of the anti-trust law to just where they were before the recent decision was handed down.

It is contended by many progressives of both parties that the ruling of the supreme court places in the anti-trust law a loophole for trust and combinations to get through on the ground that they are not "unreasonably restrictive of trade."

That the Sherman law will be restored to where it was before the decision was announced, is probable.

### Judge Clark's Platform.

Judge Clark's platform is going to be talked about for sure. He advocates a tariff for revenue only, constitutional amendments that will elect United States senators by the people, Judges by the people of the district in which they are to serve, the election of postmasters by the people of the territory to be served. He declares for the initiation and the recall, also for a primary on the same day all over the state by the democratic party to nominate state officers and United States senators with restrictions to assure publicity as to money expended. All of which he says is simply a return to pure Jeffersonian democracy. And by the way Jefferson seems to have a good many sorts of democracy for it is the fashion for every democrat to claim that he is strictly Jeffersonian and it will not be disputed that there are several varieties of democrats—Charlotte Chronicle.

### A Record Of Fine Achievement.

Mr Charles S. Barnett president of the Farmer Union contributes a letter to The Carolina Union Farmer in which he tells of some of the accomplishments of this organization. They are great. First it has succeeded in weeding the politician from the innermost councils of the farmer. Next it has impressed upon the farmer that "the improvement of his lot rests not in the hands of some far-off uplifter, or fly by night reformer but with himself." In doing this the Farmer Union has succeeded in doing something that no farmers' organization before it has been able to do. Summing up in a material way President Barnett says:

"We have 1,628 warehouses mainly for storing cotton. Mississippi leads the warehouse movement with a million dollar corporation.

"We own and operate a larger

number of elevators and agencies for the handling of grain. We own and operate 245 packing houses. We own and operate dozens of newspapers. We own and operate coal mines. We own and operate several banks, flour mills creameries pick-factories several hundred stores an implement factory a phosphate plant, a phosphate min.

We own and operate tobacco factories and warehouses, produce exchanges, fertilizer factories, peanut warehouses

terminal many cotton grading schools cooperative life and fire insurance companies. It is explained that the Union does not officially own these concerns. It is not a close corporation. In every instance, ownership or control rests in individual members consorting together for their own benefit. That the Farmers' Union has been able to accomplish all this in so short a time is evidence of good generalship and fine management and goes to show how well a farmers' organization can get along without the aid of the politician.—Charlotte Chronicle
