Charlotte.—Not in thirty years has Mecklenburg county been in such sore need of rain as it is today. With a thirty per cent cotton crop and no basis at all on which to calculate the corn crop, the situation is desperate. People in two townships met at the church and held prayer for rain.

The tract that has changed hands is known as the Scottish timber lands, the property of the Uptown brothers. A Charming Woman.

is one who is lovely in face, form, mind and temper. But it is hard for a woman to be charming without health. A weak, sickly woman will be nervous and irritable. Constipation and kidneys poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion and perfect health. Try them. 50c at Hambrick & Austin.

New G. F. C. Dormitory.

Greensboro Record. The committee having in charge the task of raising the money necessary to build the new dormitory at Greensboro Female College is still hard at work. During the past week \$500 of the fund needed to start the actual construction was subscribed in New Bern and the fund has reached the proportions of \$5,000.

The work will be started as soon as half of the whole cost is raised but it seems improbable now that this will be done during the present summer. The building is estimated to cost \$25,000, and it will be erected on the site in the rear of the main building of the college facing Ode's place.

Work Brings Happiness.

Lives there the man who has not sighed for leisure? And lives there the man, who, in his more sober moment, has not been honestly glad that he must work? Human nature, which sweetens under toil, sours in leisure. And it is by no means sure that the fall from innocence which first brought work into the world, "and all our woes" was not bringing salvation disguised as labor. Faithfulness will dignify and beautify even drudgery; no matter what the work is, provided that it is honest, if it is well, it commands our infinite respect. Besides, if we did not all have to work so hard to keep alive, the jails would have standing room only.—Boston Transcript.

He Found His Man.

Topoka State Journal. Englishmen are rather fond of poking fun at those parts of Great Britain where other than the Anglo-Saxon element is dominant, and a favorite subject for jest is the prevalence of the Jones family in Wales.

One of the colleges of Oxford university was much resorted to by Welchmen. A man from another college looking for a friend went into its quadrangle and shouted, "Jones!"

All the windows looking on the quadrangle flew open.

"I mean John Jones," said the searcher.

Half the windows closed.

"I mean the John Jones who has a toothbrush," he explained.

All the windows closed but one.

"IN BITTER AGONY HE PRAYED TO DIE"

Here is the record of one of the most wonderful cures of Eczema that has ever come to our notice. We commend it to all who are suffering from this distressing disease, or have little children afflicted with it.

Mrs. Rose Stouffs, of Greensboro, N. C., writes: "About four years ago my little boy broke out with Eczema, and suffered terribly for two long years. He was sore from head to foot, the only parts of his body free from the trouble being the palms of his hands and bottoms of his feet. He could not walk, but crawl on his hands and feet. He was in such agony he would pray to die. He had been doctored by the best doctors, and I never showed anything to cure him. The only thing he could get out was for me to put a new shirt over his head, with holes for his nose and mouth. His clothes had to be changed two and three times a day. He was almost unmanageable, and would not let me touch him. He would not let me know what to do for him. A friend insisted on my trying
