### NECESSITY OF ORGANIC MATTER IN THE SOIL.

We do not advise the use of any leguminous crop in the treatment of these poor lands the first season. You will do well to do this you may have to use one or two hundred pounds of some good grade of commercial fertilizer. Begin in the fall. If the land is rather heavy, break it as deeply as your teams can pull it but do not sub-soil. Sow a bushel and a half of rye per acre and use home grown seed if you can possibly get it, at any rate, get seed grown in North Carolina.

In the spring, if the season is good and the rye is growing off nicely, it might be well to clip it when it first comes into head, in order to let it make a second growth. Your main object now is to secure a large amount of vegetable matter to be plowed under. Therefore, leave the clippings on the ground while the rye makes its second growth. When the second growth begin to bloom, run a heavy roller over the ground; follow this roller with a good sharp disc harrow, and disc the land until the rye is cut into bits. Then turn it under as deeply as your teams can pull it, provided, the land is not too wet. The plowing should be about eight inches deep. After plowing, set the disc harrow at a slight angle and run over it another time in order to break the clods and pulverize the surface. Let the land lie about a month and seed it to cowpeas, using, if necessary, about 100 lbs. of Acid Phosphate to the acre. When the peas have made their growth, roll and run the disc harrow over them about twice; cut them to pieces and plow them under deeply and let the land lie until it is time to sow rye again. Sow rye and crimson clover after the peas.

The following spring treat the rye as you did before,—clipping, rolling, discing, plowing. You should clip just before the crimson clover comes into head, or, be sure not to clip the clover when you clip the rye. The second growth of rye is likely to come off about when the clover is ready to turn under. Then roll, disc, and plow as above directed. Now, wait for a good rain and disc the surface twice and prepare to plant corn.

You have now worked the land one year without getting a crop that is, you began last fall a year ago, planted it to crops this summer and fall, plowed them all under and this spring you are growing corn on a piece of land which perhaps has not been farmed in ten years, and you are going to get more corn off of it this year, in all probability, than you have been getting off of your best acres on other parts of the farm, and you will have done it all by deep plowing and green manuring, with the addition of a little cheap commercial fertilizer. Your land is now brought up. The value has changed from say \$5.00 an acre to \$40 an acre for actual farming purposes.

Next week we shall continue this discussion of rye as a green manure, and hope to bring before you some interesting facts which we have not been able to bring out in the above discussion.

J. L. BURGESS,  
N. C. Department of Agriculture

Loss Time means Loss of Pay.  
Kidney trouble and the ills it breeds means lost time and lost pay to many a working man. M. Balent, 1214 Little Penna St., Steator, Ill., was so bad from kidney and bladder trouble that the could not work but he says: "I took Foley Kidney Pills for only a short time and got entirely well and was soon able to get back to work and am feeling well and healthier than before." Foley Kidney Pills are tonic in action, quick in results a friend to the working man or woman who suffers from kidney ills.

### Cotton Crop Will be Largest Ever Known this Year.

Washington, Aug 4—With continued official assurances that the 1910 cotton crop of the United States will be the greatest yield in the history of the country, there is speculation as to its total value. Should the staple this year sell at the same price it did in 1910, the value of the crop would be approximately \$1,000,608,000 exceeding the record breaking cotton crop value made last year by more than \$180,000,000.

Further estimates from the government's official figures of 89.1 per cent, of a normal for the condition of the growing crop on July 25th, indicate that the crop will be 7,046,500,000 pounds, or 14,741,631 bales of 478 pounds net weight. This would surpass the record cotton production year of 1904 by more than 1,000,000 bales.

If the crop this year sells at 11.5 cents a pound the average price for the last five years, its value would be about \$20,000,000 below last year's great value record.

### Hay Fever, Asthma and Summer Colds.

Must be relieved quickly and Foley's Honey and Tar Compound will do it. E. M. Stewart, 1034 Wolfram St, Chicago, writes: "I have been greatly troubled during the hot summer months with Hay Fever and find that by using Foley's Honey and Tar Compound I get great relief." Many others who suffer similarly will be glad to benefit by Mr. Stewart's experience.

### News from Brookland.

Editors of The Courier: We are at home to day, Aug. 4th, after an absence of eight days. We were at the dedication services of the church at old Banks last Saturday and Sunday. Rev. N. H. D. Wilson preached Saturday morning, Brother Perry Saturday evening, Dr. W. H. Moore Sunday morning and Brother Shore Sunday evening. The sermons were pronounced very fine. The congregation was very large both on Saturday and Sunday. It was thought that never before were so many people assembled there.

There was a large congregation at Berea on the second of August. A very large assembly of orderly people well dressed. The pastor of the Missionary Baptist Church at Oxford preached in the afternoon of that day. There were some conversions.

It is said the Greensboro Railway will run by Berea, Oxford and Henderson and be in operation in 18 months.

Crops in the neighborhood of Banks, in Granville, were never better, it is said.

The live stock Association, of which the Commissioner, Mr. Henry C. Floyd is President has made sales of some unbroken colts at satisfactory prices, on fall time. The interest in the business has increased of late considerably. Senex.

### Think On These Things.

The Raleigh News and Observer makes the following statements which deserve the consideration of every one.

Pure water and pure milk, destruction of flies and mosquitos, and a clean town will prevent most of the sickness that troubles people in the South. The prevalence of preventable diseases is a reflection upon any community.

If the man who caused two blades of grass to grow where one formerly grew is a public benefactor, the boy who causes only one fly to carry disease where formerly two spread contagion is all the more a benefactor.

One ounce of clean-up before sickness is worth a ton of disinfecting after sickness.

The fly looks very harmless but think where he comes from when he lights on your table. Swat the fly.

### GENERAL NEWS.

The governor of Oklahoma says he will enforce the liquor laws of his state if it takes an hundred thousand men to do it.

John W. Gates, the American financier, died at 5:10 in Paris Tuesday morning in the arms of his wife and his son, Charles G. Gates.

Leaders of both houses of Congress figured the adjournment of Congress between August 15th and 19th. The Democratic House leaders hold this view.

In the Georgia general assembly there are republicans. Of this number 136 Monday declared for Woodrow Wilson for 1912. Judson Harmon got 20, Hoke Smith 14, Champ 2 and Folk 1.

The Lenoir News learns that up to July 25 receipts of the hack line from Lenoir to Blowing Rock were about \$1,000 in excess of the same period last year, the rates being the same: which gives an idea of the increase in travel.

Tammy's corn eating contest Tuesday was won by James Dugan, a cab driver, who ate fifty-seven separate ears, carrying off the 1911 championship and a purse of gold coin.

Duncan's nearest competitors was 11 ears behind.

Robert Mattheson, the 13-year-old son of Mr. and Mrs. D. S. Mattheson, of Chicago, Ill., who with his mother and two small sisters they had been spending the summer at Lake Toxaway, was drowned in the lake there Saturday afternoon at 5:30 and was not recovered until 1 o'clock this morning.

An effort was made Saturday in the Texas Senate to give Senator J. W. Bailey a vote of indorsement on his vote on the Canadian-United States reciprocity agreement. It met with at least a temporary defeat by a vote of 14 nays and 11 yeas.

Police Judge Walter L. Watson, of Raleigh, has announced that he has no set price for "drunks." He warned the audience that while he may be fining the offenders \$50 and cost, he does not want them to think that is all he can do is necessary: that some road sentences may follow if offenders continue to offend.

General George W. Gordon, commander-in-chief of the United Confederate veterans and a member of Congress, died at his home in Memphis at 4 o'clock p. m. Wednesday. His illness dated from his last political campaign, when he was re-elected to the national house of representatives, the last general of the Confederacy to serve in that body.

Senator La Follette and Chairman Underwood, of the house Ways and Means Committee, who have undertaken to reconcile the differences between the Senate and the House on the Wool and Farmers' Free List bills for the full conference committee, are in an unquestionable deadlock with the possibility of remaining so and thus forcing and adjournment of the session without final action on either of these measures.

### An Accomplished Girl.

A girls education is most incomplete unless she has learned;

- To sew,
- To cook,
- To mend,
- To be gentle,
- To value time,
- To dress neatly.
- To keep a secret.
- To be self-reliant.
- To avoid idleness.
- To darn stockings.
- To respect old age.
- To make good bread.
- To keep a house tidy.
- To make home happy.
- To be above gossiping.
- To control her temper.
- To take care of the sick.
- To take care of the baby.
- To sweep down cobwebs.
- To take plenty of active exercise.—Philadelphia Record.

### "IN BITTER AGONY HE PRAYED TO DIE"

Here is the record of one of the most wonderful cures of Eczema that has ever come to our notice. We commend it to all who are suffering from this distressing disease, or have little children afflicted with it.

Mrs. Rose Strauts, of Greensboro, N. C., writes: "About four years ago my little boy broke out with Eczema, and suffered terribly for two long years. He was sore from head to foot, the only parts of his body free from the trouble being the palms of his hands and bottoms of his feet. He could not walk, but crept on his hands and feet. He was in such agony he would pray to die. He had been doctored by the best doctors, and never expected anything to cure him. The only way he could get out was for me to put a pillow slip over his head, with holes for his eyes, nose and mouth. His clothes had to be changed two and three times a day. The itching was almost unendurable, and at night he would itch and scratch until I didn't know what to do for him. A friend insisted on us trying

### MRS. JOE PERSON'S REMEDY.

"We bought a bottle, and used it with such good results that we kept on, and today our child is entirely well."

You have only to imagine the anguish in that mother's heart, as she helplessly watched her child suffering the torments of Eczema, to realize the gratitude she feels toward Mrs. Joe Person's Remedy and Wash.

This case demonstrates beyond all doubt that this great Remedy will cure Eczema, and all troubles resulting from Impure, impoverished or Poisoned Blood. Even when these afflictions have progressed to the stage known as "chronic," Mrs. Joe Person's Remedy will effect a complete cure if used according to recommendation.

It is a purely vegetable compound, entirely free from any of the poisonous ingredients. It is the best of the Blood Purifier and Skin Treatment on the market, and has cured a multitude of conditions in both men and women it cures without a rival. Write for testimonials of people anxious to tell how Mrs. Joe Person's remedy cured them when everything else doctors included, failed.

In cases of external trouble, inflammation, irritation or itching humor, our Wash should be used in connection with the Remedy.

For sale by druggists, or supplied on receipt of price, \$1.00 per bottle; 6 bottles for \$5.00; dozen by express prepaid \$10.00, by

MRS. JOE PERSON'S REMEDY CO., KITTEN, N. C.

### THE NORTH CAROLINA COLLEGE OF AGRICULTURE AND MECHANIC ARTS.

THE STATE'S INDUSTRIAL COLLEGE  
Four-year courses in Agriculture, in Civil, Electrical, and Mechanical Engineering, in Industrial Chemistry in Cotton Manufacturing and Dyeing. Two-year courses in Mechanic Arts and in Textile Art. One-year course in Agriculture. These courses are both practical and scientific. Examinations for admission are held at all county seats on July 13.

### FROM THE TROPICS TO HEAL US.

Cedron Seed Plant.  
In Central America many natives are gathering the seeds of this plant, Cedron Seed, a rare medicine that has valuable curative powers. But few drug stores carry this seed, owing to the high cost of the article.

This country is a large consumer of this costly seed because it enters into the famous catarrh remedy, Peruena, sold the world over.

### First Class Farm Implements

You save Labor, Time and Money when you buy Implements that wear well and work well. The kind that we sell.

We issue one of the best and most complete of Farm Implement Catalogs. It gives prices, descriptions and much interesting information. Mailed free upon request.

We are headquarters for V. Crimp and other Roofing, Wire Fencing, Barb Wire, Poultry Netting, etc.

Write for Descriptive Catalog and prices on any supplies or Farm Implements you require.
