FOOD PRICES ARE JUMPING

Sugar Has Reached Its Highest In Twelve Years—Coffee and Potatoes Also High.

New York, Sept. 11—While thousands are starving in China, and France is torn with riots in protest of the high cost of living here is renewed attention in the United States over the fact that sugar has reached its highest in twelve years, that coffee is soaring, and potatoes are selling as high as a bushel in the field. Economic experts say that in some places the prices will be higher than last winter.

With the exception of coffee, beans and a few canned vegetables, September opened with conditions more favorable to the farmer than a year ago. Beef probably go higher as the crop progresses. The cost of poultry will be determined by the fall storage holdings. The shortage of potatoes is serious in the United States, Great Britain and Germany. Rice remains cheap. Unless the pork prices is advanced, the man of slender means can provide for his family without a serious strain, despite the phenomenally high prices of coffee and sugar.

Hon. J. A. Long, Mayor M. C. Winstead, Dr. E. J. Tucker, Mr. S. G. Winstead and J. W. Noell went down to Raleigh last Thursday to interview the Governor concerning the appointment of a Judge for this District. Person endorsed Hon. H. A. Foushee.

WASHINGTON LETTER.

Regular Correspondent of the Courier.

Washington, Sept.—On the tenth day of May, 1902, the government filed a petition for an injunction against the beef trust in the federal court at Chicago. On July 5th, 1911, the packers, after having obtained forty-two delays and postponements in the intervening nine years, again pleaded not guilty, and for the forty-third time their trial was postponed, this time until November 20th of this year.

The status of the beef trust prosecution, therefore, is exactly where it was the day the first papers were filed nearly a decade ago. The much-heralded "prosecution" of this gigantic trust—a prosecution which has been directed by one republican attorney general after another—has amounted to nothing.

Every man, woman and child in the country is convinced that the trust operates in violation of the law, both statute and moral, and yet nothing has been accomplished in the alleged campaign to stop these violations except the disbursement of thousands of dollars in fees for special "trust busting" attorney.

President Makes Another Mistake.

It is difficult to see how President Taft's 13,000 miles swing around the circle can end in anything but a sorry spectacle for himself.

If he tells the people the truth about how he vetoed the honest attempt of both branches of Congress to reduce the high cost of living in this country; how upon taking office he filled his cabinet with men connected with the law breaking trusts, and how he tried and nearly succeeded in giving Alaska away to the land grabbers, he will discredit himself.

If Mr. Taft juggles the facts in the slightest degree, the Insurgents, "swinging along in his trail, will point out his misrepresentations with such truth and logic that the President will be more discredited than if he had remained at home.

The record of the Taft administration is one that cannot be debated with any credit to the President. Mr. Taft has himself to blame, together with men like Aldrich, Penrose, Guggenheim and Lodge, to his advice he listened exclusively.

Shoddy Woolings.

The wool trust's practice of cheapening the quality of its products while at the same time maintaining prices at the highest level ever known, has drawn the fire of the medical journals all over the country. Through these journals the physicians of the nation are protesting against the worn and enduring underclothing, a fact to which they attribute the spread of many injurious diseases. Women and children suffer most from this form of greed. The medical journals are demanding a repeal of the high duties—amounting to 100 per cent on the commoner grades of wool—recognizing in these duties the source of the evil of which they complain.

See Taft's Defeat.

"President Taft has declined chance to gaily cheapen the cost of clothing, wire, etc., and in so doing has defended what he said, was indefensible. The president's vetoes of the tariff bills will make it difficult for him to be renominated, and will practically insure his defeat if he is renominated."

This is an extract from the weekly market letter of the New Consolidated New York Stock Exchange firm of W. W. Erwin and Co. It shows that the New York business interests and Wall street have concluded that Taft cannot be re-elected and are preparing to throw him over.

Suggesting For an Article.

In the September Columbian magazine Senator Bristow of Kansas tells "How The Interests Control America," and while this is an interesting expose and one that everybody should read, Senator Bristow could please a great many people by writing another article next month on "How I Blocked Direct Election of Senators by the People With an Amendment Which I Knew would kill the Bill."

An Excuse Only.

When the Stanpat Republicans gave as their excuse for opposing the Underwood-Lafollets revision downward wool bill, the fact that the tariff board had not reported, they were only bluffing. The very men who set up that excuse bitterly opposed the creation of the tariff board in the first place, and will prove their inconsistency again by being the first one to raise their voice in an attack on that board to prevent tariff reduction when Congress comes to consider it again.

News From Brookland.

Editors of The Courier: Mr. and Mrs. C. G. Daniel are proud of the addition of another son of the family. The two older boys, though diminutive in size have helped house the tobacco crop.

We have had the Misses Fulcher and Pellors with us recently, as visitors.

Misses J. W. and J. P. Floyd, of Oxford, were visitors here not long since.

Mr. Len Adcock has a very fat hog which is thought will weigh 400 pounds and by killing time 500 or 600.

After all has been thought and said about the growing crop there will be a good deal lost for the lack of harvesting at the right time.
