

Eczema

Cured by

MILAM

Oldest and Most Severe Cases Yield Readily

Factory Mgr. Am. Tob. Co. Says:

"I have been suffering very much from Eczema in my head, causing itching of the scalp for several years. I was often waked up at night scratching my head, and was prevented from sleep. After taking four bottles of MILAM, I feel entirely relieved. I am continuing to use it so as to be sure it is eradicated from my system."

R. H. SHACKLEFORD.

Eczema of 26 Years Standing Cured.

Huntington, W. Va., July 16, 1910.

"I have been suffering from Eczema for 26 years. I was often waked up at night scratching my head, and was prevented from sleep. After taking four bottles of MILAM, I feel entirely relieved. I am continuing to use it so as to be sure it is eradicated from my system."

Psoriasis—A Violent Form of Eczema.

Blanche, N. C., July 16, 1910.

"I have been afflicted with a tormenting skin disease pronounced by the physicians to be 'Psoriasis' and have had it for ten years. No treatment of the physicians ever relieved me, and I continued to grow worse and was unable to do my work. By the advice of my physician I commenced to take Milam on March 15th. I am now far on the road to recovery and feel that I will be entirely cured. I am now at work and feel no inconvenience from it. I take great pleasure in giving this certificate and thank Milam it a great medicine. Yours truly, J. W. PINCHBACK."

Ask Your Druggist or Write Milam Medicine Co., Danville, Va.

The Morganton Herald is of the opinion that, notwithstanding the drought, more corn will be raised in Burke county this year than ever before.

Governor Woodrow Wilson, of New Jersey, who looms large in the public eye as a president figure will be the stellar attraction of the fourth annual convention of the Atlantic Deeper Waterways Association which will be held in the city of Richmond, Va., October 17 to 20.

In view of the general expectation that the Democrats will hold their national convention in Baltimore next year it is interesting to note that the party has met in that city five times and that four of the candidates nominated there were elected to the presidency. They were Andrew Jackson, Martin Van Buren, James K. Polk and Franklin Pierce.

A turbulent mass-meeting in a warehouse, in Wilmington, at eight, seven or eight o'clock, dissatisfied citizens, many privy recently admitted to the city, voted almost unanimously for the immediate resignation of Mayor and all council members. The petitions will be presented tomorrow.

Smith, a lineman, who was on the telephone pole about noon in Raleigh, died a few minutes after 3 o'clock in Rex hospital as the result of his injury. Smith landed on his head when the fall crushing his skull. He was a young man and from Asheville some

A severe thunder storm struck the Maxton section Sunday afternoon. Lightning struck Mrs. McEachern at her home, 600 North of that place, injuring her foot to some extent, but she was not seriously. Mr. Gibson was in the room at the time she was struck also, his shoe being torn from his foot and literally blown into shreds. He was injured physically, but, of course, was shocked.

Very Serious
A very serious matter to ask your doctor to give you the best medicine and have the best one given you. For this reason we urge you in buying to get the genuine—
THE FORD'S BLACK-DRAUGHT Liver Medicine
The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not imitate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.
SOLD IN TOWN

Jolted Him Probably.
A professor at Cornell university, in some disagreement with its head, was walking over the campus deeply absorbed in brooding thought. He bumped into something, quickly raised his hat and said:
"I humbly beg your pardon," lifting his eyes in time to see only a cow.
The next day, even more absorbed on the same subject, he collided again. "Get out of the way, you old cow!" he exclaimed and looked angrily up into the livid face of the wife of the president.—Circle.

The Blazing Way.
Light yo' fires, Mister Sun,
An' take yo' blazin' turn,
You ain't a-gwine ter burn de worl'
Oute! it's time ter burn!

Blaze away,
Is what I say,
We'll put you out
Some rainy day!

Roas' de roof an' heat de san'
Twel de hills perspire,
Bet you dis ol' worl' 'll stan'
Spite er all yo' fire.

Blaze away!
Make corn an' hay—
Put you out
Some rainy day!
—Frank L. Stanton.

Misplaced Rapture.
To show the absurdity of Swedenborg's ideas the preacher drew a graphic account of the supposed Swedenborgian heaven, with beautiful fields, fine horses, cows, etc. In the midst of his glowing description one of the sisters went into raptures and shouted, "Glory, glory, glory!"
"Hold on there, sister!" said the preacher. "You're shouting over the wrong heaven!"—Success.

Waltonian Advice.
Ike Walton was a goodly man—
As good as one could wish.
Ye brave advice he handed out
Regarding ye shy fish.
He told where lurked ye biggest one
And where to cast ye fly
And how to land with artist's hand
Ye great fish high and dry.

Long years ago old Isaac died,
And yet ye book he wrote
Lives now, and many carry it
In pocket of ye coat.
But spite of all ye fishermen
Who read ye book each day
And spite of all advice therein
Ye big fish get away.
—Denver Republican.

Getting Ready.
Jones (at the telephone)—Hello, Mary. I just called you up to say that as soon as I get home I'm going to discharge that cook. She's no good.
Mrs. Jones—All right, John. By the way, stop at some drug store coming home and get some arnica, some liniment and a package of court plaster. I have plenty of lint and splints.—St Paul Dispatch.

Application Refused.
Upon a bet the damsel wed,
Ere many weeks, of course,
She went before a judge and said
She wanted a divorce.

The judge evinced but slight regret
And told her, with a snort,
That one who married on a bet
Should be a gamer sport.
—Kansas City Journal.

Incessant Demands.
"My present patient," said the pretty nurse, "is very exacting—wants something all the time."
"Never mind. He may ask you to marry him."
"I wouldn't be surprised if he did. He has about run out of other requests."—Louisville Courier-Journal.

Revised Again For 1910.
Big Jack Florner
Sat in a "corner,"
Carving another trust pie.
He put in a million,
Pulled out a billion,
Saying, "Oh, I'm a wise guy!"
—Chicago News.

Striking Proof.
"That storm scene in the second act was the acme of realism."
"So it was."
"Why, a dozen women in the house jumped up and started to rush home and see if all the windows were down."—Birmingham Age-Herald.

Paradox.
In baseball there are features
I fail to understand—
The more I'm on the "bleachers"
The more my face gets tanned!
—Cleveland Leader.

His Game.
"Some say there is a sucker born every minute."
"I don't know anything about that," responded the eminent trust magnate. "Nor do I care, so long as the birth rate of ultimate consumers remains as satisfactory as it is."—Pittsburg Post.

C'est la Vie.
He said that her nose was pugged, and so
She gave him his cone
And gave her heart to the tactful beau
Who called it retrousse.
—Lippincott's.

A Dire Failure.
Mrs. Gay—Maud says she dresses entirely to please her husband.
Mrs. Fay—Then she doesn't succeed. Her dressmaker's bills make him swear horribly.—Spokane Spokesman-Review.

PATENTS
TRADE-MARKS and copyrights obtained or no fee. Send model, sketches or photos and brief description for FREE SEARCH and report on patentability. 25 years experience.
Send 5-cent stamp for NEW BOOKLET, full of patent information. It will help you to get a patent.
SEND PAGES 11 and 12 before applying for a patent. Write to-day.

DIGGING THE BIG DITCH.

How the Steam Shovels Make the Dirt Fly at Panama.
The steam shovels stand on terraced levels and in fifty minutes load a train of eighteen flat cars, which are unloaded in fifteen minutes more amid a shower of dust. The line of cars is followed by "spreaders." All through the cut puffs of steam here and there indicate where the shovels are burrowing their way and pushing the work forward. Watching shovel 221, I stood on engine No. 298 when she was at work. Engineer Harrison, his hand on the lever, was pushing the cars up in due course as the steam shovels filled them, while the conductor, raising and lowering a flag, directed a "shove-up," so that even while loading it is sometimes necessary for an engineer to keep his hand on the throttle. One shovel accomplished probably as much work in a day as could be done by 600 men, and there is a great deal of rivalry among the operators to make the best record.

The record of steam shovel 223 for one hot day shows how the dirt flies on the isthmus. Three hundred and thirteen cars were loaded in 470 minutes. In the language of Larry O'Grady, this was "going some," almost an average of a car a minute, with eleven seconds grace, or a rate of a cubic yard of earth every seven seconds. A remark was made by a sad eyed man of unknown nationality, "It looks as though the dirt had wings, doesn't it?" Over 50,000 cubic yards of rock have been taken out in twenty-five working days by one shovel, and a completed tunnel through the cut is excavated within every month.—Joe bell Chapple in National Maga-

Iceland's Great Volcano.
In 1873 the Skaptar-Jokull, one of the most redoubtable volcanoes in Iceland, sent forth two rivers of fire, one of which ran along a valley for eighty miles, its depth along the entire distance being thirty yards.

Lions and Tigers.
The lions and tigers wash themselves in exactly the same manner as the cat, wetting the dark, rubberlike ball of the fore foot and inner toe and passing it over the face and behind the ears. The foot is thus at the same time a face sponge and brush, and the rough tongue combs the rest of the body.

Coke Making.
Coke making is first recorded in July, 1656, by Sir John Evelyn, who writes in his diary of a "new project of charring sea coal to burn out the sulphur and render it sweet."

The Chinese Lady.
No Chinese lady goes anywhere without her powder box or fails to touch her face with powder whenever she catches sight of herself in the bit of mirror in the lid of her box. When she is going out for a formal call or a wedding party or a dinner she is apt to paint her face with a paste made of wet rice flour.

Pulse Beats.
The pulse of a newborn infant beats 130 or 140 times a minute; of a man from twenty-one to sixty 70 or 75 a minute; in old age between 75 and 85.

An Opalized Snake.
What is supposed to be an opalized snake has been discovered by a prospector at White Cliffs opal fields, South Australia, from whom it has been secured by an Adelaide resident named S. Saunders. On what appeared to be a piece of ironstone, dark brown in color and therefore making an excellent background to show off the precious stone, was imbedded the form of a small snake or lizard of pure opal. The coiling body measures about two inches in length, and the head and eyes are to be plainly seen. Even the scales of the back can be discerned. Before Mr. Saunders secured it the specimen had been submitted for examination at the museum, and he was informed on making the purchase that it was a reptile of some kind ossified and then opalized.—Adelaide Advertiser.

High Heels and Fire Escapes.
Women's "skyscraper" beeled shoes have come in for another drubbing, this time an official one in Chicago. Building inspectors have decided, after careful scrutiny of fire escapes on buildings where large numbers of women are employed, that the French heels are a menace to life and limb in case of panic. "The slim, pointed heels would catch between the iron steps of the steps of most fire escapes," said one inspector. "The stairways and the heels together constitute a terrible danger to the girls working all over Chicago where this style of fire escape is used. The stairways should be made in such a way that heels will not catch or working girls should wear some other kind of shoes."

Mexican Pearl Fisheries.
The records of pearl fishing along the west coast of Mexico go back to 1536. With little interruption this industry has been continuous to the present day.

Steel and Iron.
Steel rusts seven times as rapidly as iron.

Quick as Thought.
"Quick as thought" is not very quick. While a light wave would travel around the equator in a second, a nerve wave makes but about a hundred feet a second.

ELON COLLEGE
(Co-educational.)
Delightfully situated in the hill country. Unsurpassed in healthfulness. Modern in Equipment. Steam Heat. Electric lights. Baths. Sewerage. With all the advantages and none of the disadvantages of city life.
An ideal institution for the education of young men and young women with twenty-one years of successful history behind it.
A high-grade college, whose graduates are admitted without examination to the graduate departments of the great Universities.
Maintains also, Music, Art, Expression, Commercial, and Preparatory Departments. Four courses leading to degrees.
Special normal courses for teachers, approved and endorsed by State Superintendent Joyner.
Terms moderate—\$132 to \$187 per session of ten months.
For catalogue or other information, address, (mentioning this paper)
W. A. HARPER, Pres.,
Elon College, N. C.

THE NORTH CAROLINA State Normal and Industrial College
Maintained by the state for the Women of North Carolina. Five regular Courses leading to degrees. Special Courses for teachers. Free tuition to those who agree to become teachers in the State. Fall Session begins September 13 1911. For catalogue and other information address
JULIUS FOUST, Pres.
Greensboro, N. C.

CASTORIA
For Infants and Children.

Do Not Delay --Too Late--

Mr. Tobacco Grower:

Your crop of the smokers' weed is in good condition for this season and you should be able to make at least the average yield, or possibly 500 pounds to the acre.
If you get last year's price—and you may get a better one—your crop will make for you at least \$50 to the acre.
You are perhaps 35 years young, but growing older every day, and you are, of course, thinking of a provision for your old age and for your family after all work has stopped forever.
You believe in LIFE INSURANCE. That goes without the saying. A policy in the UNION MUTUAL, one of the most conservative and substantial companies in the entire country, will cost you, for One Thousand Dollars, the very small sum of Twenty-seven dollars and sixty-two cents, or a little more than half of the sum you will raise from one acre of tobacco.
This policy is on the Ordinary Life plan. If you want another and perhaps a better form, or Twenty-Pay Life, wherein all payments stop in twenty years, the premium each year will cost you no more than Thirty-seven Dollars and thirty-five cents, or about three-quarters of the money you will make from the one acre.

Each one of these policies is on the ANNUAL DIVIDEND PLAN, whereby your premiums are reduced each year or you can buy more INSURANCE with your profits, made for you by the company.
Then, too, each policy has guaranteed LOAN AND CASH SURRENDER VALUES, on which you can borrow money with which to pay your premiums if need be or for some other purpose and yet carry the policy itself.
Look over these facts and figures and then let us get together so that I can show you how little money it really costs to carry absolute protection for yourself and family in one of the very best and safest INSURANCE COMPANIES represented in this section. Just fill out the blank form printed below and sent it to this office. It is nothing more than an invitation to call at your home and have a talk with you on a question of vital importance to yourself, and when you send it in a special representative of the UNION MUTUAL will drive out to see you—and you'll be glad to have him come.

Here Is The Invitation!

J. W. Noell,
Roxboro, N. C.
Dear Sir:
Please have your INSURANCE EXPERT call at my house as soon as possible and tell me about THE UNION MUTUAL and its POLICIES. It is understood that this call in no way binds me to take a policy.
Yours truly,

P. O. _____

ELON COLLEGE
(Co-educational.)
CORTRIGHT METAL SHINGLES

ARE FIRE PROOF
THEY will not burn. Will not split or curl like wood shingles. Will not crack and roll off like slate. Will not rip at the seams like plain tin. Neither will they rattle during high wind storms. They never need repairs and last as long as the building. And last of all, they make the handsomest roof and are not expensive.
LONG, BRADSHAW & CO.
A Cordial welcome
Will await you at our fall opening September 5th.
Kings Business College
INCORPORATED
the oldest, largest, best equipped, most progressive commercial school of North Carolina, offers thorough courses in strictly modern business methods, shorthand, typewriting and all allied subjects. Facilities for securing the best situations are unexcelled. Write for catalogue and special offers.
KING'S BUSINESS COLLEGE,
Raleigh, C. C., or Charlotte, N. C.
