QUICK TRIAL FOR BRUTE

Negro Who Assaulted Warren County Woman Saturday Now on Trial.

Warrenton, Sept. 18.—A special venire was summoned by the sheriff of Warren county today and all signs now point to the beginning tomorrow of the trial of George Marshall, a negro charged with criminally assaulting Mrs. M. Chaplin, wife of a respected farmer of Vicksboro, this county, on Saturday afternoon. The negro was taken by a posse of armed citizens and officers soon after the crime and brought to here, and this being court arrangements for a speedy trial were made. There is no talk of reaching, and reports of the trial under Warrenton date of Saturday night were greatly exaggerated.

The crime was committed late in the afternoon. Mrs. Chaplin had been waylaid near her home by the negro. A few minutes later she ran to her home and gave the alarm and her father and husband started in pursuit. The negro barricaded himself in his home nearby, and when the pursuers threatened to invade he fled, slightly wounded the father. Mr. Chaplin then hurried to Warrenton and a posse was quickly formed and went to the scene, but being short of guns and rifles a detachment was sent back to Warrenton for arms. Before they returned the father and brother of

the negro captured him by a ruse and the sheriff had no trouble in bringing his prisoner here and placing him behind the bars. There was no talk of or attempt to lynch.

VITAL WASHINGTON NEWS.

By Clyde H. Tavenner.

Washington, Sept. 18.—On his swing around the circle President Taft will tell the people it was necessary for him to prevent a reduction of the cost of living, by vetoing the tariff bills, because the tariff board hadn't reported.

Here is some tariff board history that the President will probably not refer to:

The tariff board was created Sept. 26, 1909. On June 7, 1911, 21 months later, Congress called for whatever data the board had collected on the cost of manufacturing wool, and was informed the board had nothing to report. What was the tariff board doing during these 21 months?

Soon after the appointment of the board, its chairman, Henry C. Emery, established headquarters in the private residence of Frederick Hale, son of ex-Senator Eugene Hale of Maine, who has been known for years as one of the most powerful defenders of ultra protection.

In October, 1910, it was announced that "the work of the tariff board" was to be "boomed" at a series of banquets. Then for three months the banqueting campaign occupied the time and attention of the board. The two most important banquets at which the members of the board were wined and dined were given by the Arkwright club, the leading association of high protection manufactures of the country, and the National Association of Wool Manufacturers, the wards of Schedule L. The plan adopted for estimating costs in the plan which, at the dinner given by the beneficiaries of the wool schedule—Emery was advised to adopt. That plan particular amounts to this: the tariff board will supply the woolen manufacturers with a sample of woolen cloth and a card, and the manufacturers will practically jot down their version as to the cost of manufacture in the U. S.

It was a year after the board was created before it started to investigate the manufacturing end of the wool tariff. And this is the board for whose report all tariff revision must be held up!

Taft's Offending.

Senator Cummins of Iowa has formulated a bill of particulars wherein President Taft has offended. Some of the President's offences cited are: His position on the Payne-Aldrich tariff law, his position on the bill for further regulation of interstate common carriers, his position on the change made in the postal savings law, his position on the proposed income tax law, his position on the Canadian reciprocity bill, his work for the peace treaties, his vetoes of the woolen schedule, the free list bill and the resolution admitting New Mexico and Arizona as states. This list embraces nearly everything in which the President took a part.

Philippine Independence.

Philippine Independence in nine years! This is the definite promise contained in a joint resolution fathered by Judge Cyrus Cline of Indiana, which resolution Speaker Champ Clark declares will in all probability be passed by the House this winter. Judge Cline's plan provides that the Filipinos shall be permitted to elect the upper branch of the Philippine legislature in 1915, adopt in 1917 a constitution to

be approved by the United States, and then comes the definite promise that by July, 1920—nine years hence—the United States shall withdraw sovereignty over the Philippines and permit the Filipino people to establish an independent representative government.

Democrats Keep Promise.

Last November Maine elected a democratic legislature pledged to state wide primaries. That promise has just been fulfilled, exactly as the Maine Democrats promised it would be.

Three years ago the republicans of the nation elected William H. Taft to the presidency on his personal pledge that he would reverse the tariff downward. President Taft has turned down two opportunities to keep his word.

The democratic legislature of Maine did after election what it promised to do before election. Mr. Taft has but exemplified the old republican rule of forgetting promises as soon as an election is won.

A Change of Heart.

Just why President Taft broke a promise made to five members of Congress on the statehood question has never been explained.

In the early days of the extra session five members of committee on territories visited the President and laid before him the draft of a resolution admitting New Mexico and Arizona into the union as states. The resolution provided that the recall proposition should be submitted to the people of Arizona and that the majority should decide whether it would be wise to retain it in the Arizona constitution or not. The bill was so framed that neither Congress nor the President would have to go on record as to the merits of the recall. President Taft gave every Congressman present to understand he would sign the bill. The committee, republicans and democrats alike, left the White House with a definite understanding to this end.

These members made the statement on the floor of the House that the President had agreed to sign the bill, and it was passed by both houses of Congress. But the President changed his mind and vetoed the bill. He has not yet explained why.

SOLICITOR AFTER RED C. OIL COMPANY.

Case Called in Guilford County Court Yesterday; the Charge.

Greensboro, N. C., Sept. 18.—This afternoon Solicitor Gattis called the case of State vs. Red C Oil Company, charged with selling in High Point illuminating oils below grade fixed by rules of Department of Agriculture as determined by the Elliot flash test. The taking of evidence occupied all of the afternoon session, and the case will hardly go to the jury before tomorrow afternoon.

Governor Aycock represents defendant.

A motion to squash the indictment, on the ground that the law and rules were unconstitutional for two reasons; First—That the Legislature should fix test and cannot delegate power to Board of Agriculture; and second—because effect of act is to raise revenue and not protection of the public.

Commissioner Graham and several employees of the department were witness for the State.

TAX ASSESSMENT CERTIFIED.

The Corporation Commission certified today to the State Treasurer the tax assessments of Railroads and other public service corporations. The State Treasurer will at once call on these corporations for the State taxes. The total tax valuation is \$125,052,257, compared with \$95,444,707 previous assessment, of \$90,607,562. The increase is 31 per cent.

The railroad valuations, as heretofore announced, aggregate \$115,239,684, and this leaves \$10,812,583 assessment for the other public service corporations. The

increases in assessments follow: Electric light and gas companies from \$2,220,408 to \$3,303,032; street railway companies from \$2,085,296 to \$2,559,943; telegraph companies from \$922,464 to 925,413; Southern Express Company from \$419,099 to \$800,000; Pullman Company from \$258,788 to \$342,198; water companies from \$526,794 to \$561,907; bridge and canal companies, \$176,550 to 151,350; steamboat companies from 85,750 cut to 71,710; refrigerator companies, 66,341 to 70,048; flume companies from 12,850 to 29,020; turnpike companies, 13,025, same as last year. The increase in land valuations this year is \$80,000,000
