

Consumption

Prevented and in Early Stages, Cured by

MILAM

the great
reconstructive
of the blood
and blood
regenerator

MILAM as a cure
for consumption. It has proven so bene-
ficial that we believe, and
in our belief by a practicing
physician, MILAM will arrest incipient
stages of consumption in its early
stages, and that it greatly benefits
patients in the advanced stages.

Scrophulous Consumption

of Danville, State of Virginia.—To wit:
I, Edmund B. Meade, Notary Public in
and for the City of Danville, State of Vir-
ginia, do hereby certify that Abram Word,
of the County of Giles, Va., to me well known, did ap-
pear before me, and being duly sworn, de-
clared as follows:

"I was prior to August, 1905, I
was the case of a regular physician,
and this doctor told me he could do
nothing for me, and I tried another for four
months, receiving any benefit from

any of them. I began taking Milam,
and to do my work without
feeling any pain is good, and I can
do any kind of work.

"I was told to be scrupulous
and I was wasted away to a
point where I could hardly
do any work. I commenced on MILAM,
and it was a truly valuable reme-
dy for my blood trouble, whether
proceeding from a lack of full
blood or not.

"I recommended MILAM to about
twenty of my friends, and so far as I have
heard from them, they all speak in
the highest terms of it, and are recommend-
ing it to their friends.

"It is particularly beneficial to me in aid-
ing digestion and building up an appetite."
(Signed) ABRAM WORD.

In witness to the above, I have hereunto set
my hand and the seal of my office, this 22nd day
of March, A. D., 1910. EDMUND B. MEADE,
Notary Public.
My commission expires Jan. 14, 1914.

A Martin County Tick Story.

A man from Martin county
went into a certain section
of the county one day, and a discus-
sion arose between him and a
neighbor as to the merits of
the counties. The man pro-
duced copies of the Re-
publican and showed the visitor
a cow horn snake story
and a snake hen nest
and was told to go ahead
and do as he could.

"Well," remarked the visi-
tor, "I don't so much on cow's
horns and eggs, but
I can't come to cattle tick,
I can't beat the world. One
of my neighbors turned a cow
out to graze. The cow
rang the bell. When the cow
rang up the man went
for her. He heard the
bell followed the sound of it
and that a big tick had eaten
the cow and was sitting on a
bell. Ringing the bell for the
cow to come up and make the
bell ring."

A BALKY MULE.

A Funny Conversation Heard Over
The Telephone.

A wholesale feed house owned
a balky mule named Napoleon,
and employed an old negro,
named Abe, to drive him.

One day when Napoleon balked
and old Abe had spent his
strength on him for an hour in a
vain endeavor to get him to start,
he went into a store to tele-
phone his employers.

The following was Abe's end
of the conversation.

"The marm, gimme number
of 'Napoleon' leven. Is dat
'Napoleon' Henry?"

"Yessir, dis is Abe. I dun
know you up, sir, ter tell you
about Napoleon. Napoleon, he
balk down here on Broad
Street, sir."

"Bout a hour, sir."

"Yessir, I bus' him in de
head."

"I dun wear de whip handle
out on him, sir."

"Yessir, I dun kick him 'bout
eighty times, sir."

"Marse Henry, I would ha'
kickum some mo' bar I hu' me
big 'tue on um de last' time I
kick um."

"'Twis' his tale? No, sir, not
dis nigger. A gemman from New
York, he twis' his tail."

"No, sir, I don't think he dead.
De doctor take him 'way in de
ambulance."

"Yessir, it was sure foolish."

"Yes, Marse Henry, dun set
fire uner Napoleon."

"De harness? Dun bu'n de
harness clean off um."

"De cart? Yessir, dun bu'n de
cart, too, sir, all 'cep one wheel
sir."

"Yessir, I git de feed out fust,
sir."

"Marse Henry, is you want me
to come back to de store and go
to wo'k or mus' I wait for Na-
poleon to move?"—Exchange.

Foleys Kidney Remedy (Liquid)

Is a great medicine of proven
value for both acute and chronic
kidney and bladder ailments. It is
especially recommended to elderly
people for its wonderful tonic and

Ancient Egyptian Mortgages.

Of all the numerous Egyptian papyri
dating from the Greco-Roman period
and preserved in the British museum,
none can be said to be of greater inter-
est than those throwing light on the
social conditions and manners and cus-
toms of the period. Many of these doc-
uments are mortgages, bills of sale
and marriage contracts. Of the first
named class a very interesting one is
dated in the twentieth year of Cleop-
atra and Ptolemy. It appears that a
shepherd named Menthu and his moth-
er, Tausir, finding themselves in diffi-
culties, mortgaged their field to a wo-
man named Eto for the sum of 600
pieces of silver, which they promised
to repay in eight months' time with
interest. In case of failure of this con-
dition they were willing to forfeit the
field without further trouble or litiga-
tion. After giving the measurements
of the land and particulars of its bound-
aries the document is attested by
Hieru-se-asi, scribe of Usir-ur, alias
Amenhetep.—London Globe.

Preserving Spiders' Webs.

Naturalists employ an interesting
method to preserve all kinds of spi-
ders' webs. The webs are first sprayed
with an atomizer with artist's shellac,
and then, should they be of the ordi-
nary geometric form, they are pressed
carefully against a glass plate, the
supporting strands being at the same
time severed. After the shellac has
dried the plates carrying the webs can
be stored away in a cabinet. Even
dome shaped webs may be preserved
in their original form by spraying
them with shellac and then allowing
them to dry before removal from their
supports. Many spiders' webs are
very beautiful, and all are character-
istic of the species to which they be-
long, so that, from a scientific stand-
point, their permanent preservation is
very desirable.—Harper's Weekly

State Lines.

Oklahoma has the greatest Indian
population of any of the states.
In the number of its mineral species
North Carolina is said to exceed any
other state in the Union.

It is only thirty years since Cali-
fornia fruit began to be sent east.
Last year 35,000 carloads were sent.
In the state of Washington 27 per
cent of the area is still in reservations,
the greater extent being of forestry
reserves.

Tales of Cities.

A new sewer at Baltimore is so large
that an automobile has been run
through it.

There were fewer deaths to the thou-
sand of population in Philadelphia last
year than ever before in the city's his-
tory.

New York is making a rapid growth
from its internal increase of population
alone. Recent statistics show the
death rate to be 73,000 a year, while
the birth rate is 126,800. That means
an increase of 53,800.

Drugged Through a Keyhole.

By pumping sleep inducing fumes
through the keyhole of a locked door
Belgian burglars were able to stupefy
the guardian of a jeweler's shop in
Brussels and to steal jewels worth
\$50,000.

The Microtome.

Splitting a hair is bungling work
compared with what can be accom-
plished by the microtome, a remark-
able instrument which cuts a section
one twenty-five-thousandth of an inch
in thickness.

Forests of Quebec.

Quebec's forest lands cover an area
of over a hundred million acres.

DAMES AND DAUGHTERS.

Mrs. W. J. Beggs of Seattle, Wash.,
has succeeded in producing the first
rose ever grown without a thorn.

The ex-Empress Eugenie, widow of
the Emperor Napoleon III., who is still
active, is a daughter of Count Cyprien
de Montijo, a Spanish grandee, and
was born May 5, 1826.

Mrs. Ursula Leser, mother of Jacob
Leser, president of the board of pub-
lic service, Sandusky, O., celebrated
her eighty-third birthday anniversary
by dancing several waltzes.

Cecile Carieu, aged nineteen, living
at Molene, France, is in an awkward
predicament. On going to the mairie
to have her marriage bans published
she was told that legally she has no
existence. Her parents had forgotten
to have her inscribed at her birth.

Miss Lillian Close, who last year
won the beauty prize offered by the
London Mirror, is said to be the most
photographed woman in England. Her
pictures are on sale in hundreds of
shops, and the demand is still so great
for new ones that she spends an hour
every day posing before the camera.

Mrs. Ernest Biederstadt of Syra-
cuse, N. Y., makes the little gold let-
ters worn on the caps of the sailors
and soldiers of the United States army
and United States navy. The letters
are made with bullion and embroide-
red over with gold thread, and while
it looks easy it is, indeed, rather diffi-
cult.

Household Hints.

Old pie pans that are too battered
for ordinary use can be stood in the
bottom of the kettle closet to hold the
kettles. This prevents blackening of
the floor.

If separate day and night pillows are
not used, as is now generally done, the
bed will look neater if special pillow
slips are kept to put on over the wrink-
led pillowcases by day.

In putting down linoleum or oilcloth
have strips of molding nailed above
the linoleum where it comes to the
baseboard. This prevents dust from
getting underneath and also preserves
the edges from moisture under the
floor covering.

White curtains may be made a beau-
tiful ecru tint by following these di-
rections: Dissolve tumeric powder, one
tablespoonful to a gallon of water.
After the white curtains have been
thoroughly cleansed, boil in this solu-
tion for a few minutes.

Facts From France.

A good glove cutter in Paris can
make nearly \$100 a week.

In France there is a society for the
suppression of big game hunting called
the Friends of the Elephant.

The French academy has not yet de-
cided on the gender of the word radio-
activity, but it is settled that automo-
bile is masculine.

In the whole of France there are
only two official guillotines. Both are
kept in Paris, but one is reserved for
executions in the provinces.

Flower and Tree.

The cultivated hyacinth is a native
of Persia and Asia Minor.

The trees which are used in the gov-
ernment work of reforestation are
grown at eight government nurseries
in the western forest reserves.

From New Guinea comes a new or-
chid shaped like a cradle and found
in a recent orchid hunting expedition
in the island. The flower has a white
margin, with reddish chocolate mark-
ings and a yellow lip.
