### Passage of Webb Bill Brings Old Avery Measure into Force.

Morganton, March 7.—The passage of the Webb liquor bill has brought about a peculiar situation in Burke County and one which is presented in only two other counties in the State, Rutherford and Anson.

In 1907 I. T. Avery of Burke introduced a bill, which was passed, prohibiting the delivery of liquors in Burke County and the Representatives of Rutherford and Anson Counties fell in line, also, and had their counties added to the bill.

The State Courts declared the bill unconstitutional but the passage of the Webb bill put Avery's bill back into effect and the Southern Express Company's agents have been notified to deliver no more liquor and as a consequence the express office has taken on the appearance of a warehouse.

Under the Avery bill only hospitals and drug stores could receive liquor, and as the town law forbids drug stores handling it, Morganton now has its first touch of absolute prohibition. The Express Company will not deliver whiskey in any size packages to any one.

### Federal Income Tax.

Washington, March 7.—A Federal income tax, probably of one per cent, and a free sugar tariff schedule practically were agreed upon today by the Democrats who are to compose the majority of the House Ways and Means Committee in the Sixty-third Congress. The Democrats will meet every day from now on to perfect their bill before the extra session begins April 1.

Representatives Garner of Texas, Seanley of Kentucky and Cullier of Mississippi, chosen as the three new Democratic members, met with the committee today for the first time.

The minimum income to which the proposed tax would apply was not agreed upon.

## Thought Promises Old South Made Good.

Goldsboro, March 7.—Some negroes of Goldsboro seem to have the idea that under a Democratic Administration paper money issued by the Confederate Government was good and could be spent. Some time yesterday Will Dove approached Lonnie White, who works as a bell boy for the Kennon Hotel, on the street and asked him to change \$10 for him. Later in the day Lonnie tried to use the note given him for the change and was told that it was a worthless Confederate note.

He hunted up Dove and demanded his money back, which Dove refused, claiming that he was getting the change for a negro woman, and that she had the money. Lonnie had Dove arrested, and the policeman turned his prisoner over to Deputy Marshal Smith who carried him before Commissioner Peterson for trial. Dove produced the woman that he claimed he got the change for, and she stated that she found the money and thought it was now good, as Mr. Wilson was President. When informed by the Commissioner that the money was worthless, she produced \$10 and offered to return it.

This was done, and the Commissioner dismissed the case against the Dove negro, but he and the woman are still puzzled to know why it is that if a Southern man is President that the old money of the South is not good.

### Floyd Allen And His Son, Claude, Must Die.

Richmond, Va., March 6.—Floyd Allen, leader of the outlaw band in Carroll county, and his son, Claude Swanson Allen, will be executed in the State penitentiary on March 28 for their part in the Hillsville court murder on March 14, 1912, Governor Mann tonight having refused to commute the sentence to life imprisonment. The prisoners were to have died tomorrow, although the Governor yesterday granted a respite of three weeks. The respite was accepted by the Allens as an indication that the Governor would extend mercy. The rejection of the petition, however, means that the case is officially closed, as there is no way by which it can be again opened.

### Free Lumber, Sugar, Farm Machinery are Certainities.

Washington, March 10.—Free lumber, sugar, machinery and implements are tariff revision certainties according to information received from the members of the House ways and means committee. Placing raw wool upon the free list is undetermined with prospects of twenty per cent. advalorem tariff. Senator Simmons, of North Carolina, is opposing the free lumber programme. Representative Bousard, of Louisiana, is fighting to place sugar on the free list. The Democratic programme is to place articles of use to farmers on the free list.

## \$2,000,000 Dam For Whitney Development.

Salisbury, March 7.—A contract was awarded last night to H. B. Hardaway & Co. of Atlanta to erect a mammoth dam across the Yadkin River, near Whitney, for the Southern Aluminum Company, which recently acquired the Whitney property. The dam will be of concrete, instead of stone as formerly planned, will be located seven miles below the old Whitney stone dam.

It will be about 1,000 feet long and 145 feet high. It will back water two feet over the top of the old dam, seven miles up the river and will produce nine square miles of water, reaching a depth of 135 feet. More than 45,000 horsepower will be developed at the plant now being constructed by the Southern Aluminum Company. The old dam and other works at Whitney, built four years ago at a cost of about \$5,000,000, will be discarded and the power will be generated seven miles below.

### Sailors Perish.

Baltimore, March 7.—Three hundred tons of dynamite being loaded in the British tramp steamer Alum Chine in the lower harbor of Fort Howard, exploded about 10:30 o'clock this morning instantly killing from 40 to 50 men, wounding and maiming three score more, some of whom may die and dealing destruction to half a million dollars worth of property.

The Alum Chine and a loading scow alongside her were annihilated, the tug Atlantic, which twice went to the rescue of the imperiled seamen, was set on fire and later sank; the United States collier Jason, just completed and ready for trial was raked to her deck and her armor riddled and buildings in Baltimore and towns many miles away were rocked by the force of the terrific explosion.

### Special Session for Tariff Alone.

Washington March 7.—President Wilson had settled enough in office today to indicate pretty clearly some of the things that may be expected of him in the future. He made no public announcements of policy, but there were a few developments that seemed to show the trend of the first days of his Administration. The President told the visitors he was inclined to favor the plan of House leaders to confine the special session of Congress to tariff revision.
