

SEVERE BRONCHIAL COUGH

Doctors Feared Lung Trouble, Restored to Health by Vinol.

The medical profession does not believe that lung troubles are inherited, but a person may inherit a weakness or tendency to them.

Mrs. Kate Heckman, Springfield, Ohio, says: "A few years ago I was in a very bad run-down condition, and the physician told me I had consumption. I tried another physician, and he told me I had ulcers on my right lung. I quit the physicians and started on 'Vinol.' Today I am perfectly healthy, and that is why I recommend 'Vinol.'"

Vinol soothes and heals the inflamed surfaces and allays the cough, Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you.

P. S.—For any skin trouble try our Saxo Salve. We guarantee it. Hambrick A Austin Druggists.

Notice—Sale of Valuable Farm Lands.

I will offer for sale at public auction to the highest bidder on the premises on

Saturday February 28, 1914

at 12 o'clock noon the following described tracts of land in Olive Hill Township Person County North Carolina.

1. My home tract of land containing 46 1-2 acres, bounded on the North by W. P. Terrell, East by S. J. Dickens and on the South by S. J. Dickens and the public road leading from Roxboro to Concord, and on the West by the public road leading from Roxboro to Concord. There is a five room dwelling house, two tenant houses, store house, two pack barns, six curing barns, stables and other outhouses on this farm, all being in good condition. Also well watered, having good well and spring on same. This is a very fine tobacco farm and an ideal home in a good community, same being in one mile of a good school and about two and one-half miles to church, and four miles from the town of Roxboro.

2. A tract of land, containing 81 1-4 acres, in same Township, County and State, as above mentioned, bounded on the East by Ruth Clayton and C. E. Winstead on the South by public road from Roxboro to Olive Hill, on the West by the estate of J. T. Nelson and on the North by Ruth Clayton, same being a part of the Mrs. T. J. Jones tract of land. There are no buildings on this farm, but about two-thirds of same in cultivation and one-third in timber and wood.

This is a very fine tobacco farm and well watered. This farm lies about a quarter of a mile from the first farm herein mentioned, and cultivated by me in connection said farm.

These farms will first be offered for sale separately and then as a whole, and if they bring more as a whole then bidder will get both places, but if they bring more separately then they will be sold separately. I reserve the right to reject any and all bids.

Terms of sale: One-third cash, and the balance in twelve months, deferred payments to bear six per cent. interest from date of sale.

I will execute deeds to purchasers, and purchasers will give bonds for deferred payments, bearing six per cent. interest, and execute deed of trusts on said lands to secure payments of said bonds. This Jan. 26th 1914 E. C. Brooks

MONEY WILLED FOR PROHIBITION CAUSE.

Heirs So To Spend \$10 Each for Twenty Years—Involved In Many Suits.

Stranton, Pa.—The will of the late William H. Hull, of this city, was offered in probate today and at the same time the heir filed a caveat protesting against the bequests of one thousand dollars each to the Green Ridge Baptist Church.

The estate is valued at more than \$75,000 and among the bequests are two of ten dollars each per year for twenty years to each of his nephews, Robert and Arthur Hull, who under the terms of document are to use the money in promoting the interests of the Prohibition party.

Hull, who was over seventy years of age when he died, was the central figure in a number of cases started by members of his family, who vainly attempted to have him declared insane, and incapable of managing his affairs.

The heirs in the action filed did not give any reason for the protests against the churches.—News and Observer.

Feel Miserable?

Out of sorts, depressed, pain in the back Electric Bitters renews your health and strength. A guaranteed Liver and Kidney remedy. Money back if not satisfied. Spring Preparation on Southern Farms.

In no section of the country does a well-prepared seed bed give better returns than in the southern States. The best spring preparation of the soil is practically impossible unless it has been properly turned and deeply broken during the previous summer or fall. The necessity for deep plowing in the South is probably not realized by those who are not familiar with the heavy rainfall in this section, which frequently packs and runs the particles of soil together so as to exclude air and sunshine. The absence of freezing prevents any loosening up of the particles; besides in many places there is an almost imperious harpman of subsoil, either natural or brought about from a continuous custom of shallow plowing. In other sections this deepening and loosening of the soil is done partly at least by the forces of nature, but it can only be accomplished by the plow in the South.

The best implement for deep

breaking of the soil is the disk plow which turns, pulverizes, and mixes at the same time. When properly adjusted the disk breaks the land deeply and thoroughly loosens it, mixing this soil and the subsoil to some extent, but does not turn to the surface enough of the inert subsoil to injure the succeeding crop. The next best method for deep breaking is moldboard plowing, set to turn furrows on edge, and this is followed by a subsoil plow in the same furrow as deeply as desired.

If the cover crop is to follow the fall breaking a thorough preparation of the seed bed should be made before planting the seed. If no cover crop is sown the disk harrow or spring-tooth harrow should be run over occasionally to crush clods and keep surface crust broken for the admission of air and sunlight. The usual method is to flat break, and where this is done it is best to throw up into beds before planting. Planting may be done with small plows, or just as effectively and much faster with a disk cultivator set at the proper angle. Should there be clods a roller may be used, and this is followed with a section harrow.

With nearly all field crops a firm seed bed is preferable. Only the first few inches need to be freshened and pulverized at planting time.

Where there has been no fall and winter breaking done, as is the rule in some sections, it is not advisable to break as deeply in the spring as in the fall. It is found more necessary to get spring-broken land finely pulverized and thoroughly prepared before planting. It is better to delay planting several days rather than put the seed in a poorly prepared bed.

NOTICE! NOTICE! —Sale Of Lot—

The bill carries an appropriation of \$25,000 for hospitals and \$10,000 for the use of a commission of not less than three physicians.

No Doubt About It Now.

After the almost unrestrained praise of the Wilson administration by the Kansas City Star and Cellier's Weekly, both of which were once followers of the meek and humble Roosevelt, nothing more was necessary to prove the righteousness and intelligence of that administrator except denunciation by "Uncle Joe" Cannon and one Senator Bailey. And behold! that came along also.—Baltimore Evening Sun.
