Administrators Notice

Having qualified as Administrator of J. W Dunn, deceased, late of Person ounty, this is to notify all persons leceased to present same to the undersigned administrator, on or before the

Notice of Land Sale.

Under and by virtue of authority conferred on me by a certain Wilkerson to secure a certain note to R. I. Featherston, the said deed of trust being of record in the Register of deed's office for Person County in book "1", page 309, fields. It conserves moisture. It in. dispense with them for a time, or pipe on the lip.

Additional Water May Be Secured From Deep Wells by Inserting Check Valve in Pipe.

cii . is sum of

(By W. BYORTON.) A good many farmers are troubled with the common suction pumps used in deep wells-pumps that work hard and draw but very little water. These can be made to work much better by uncoupling the pipe as near the joint as possible. Then place an old cylinder with a check valve in it at the bottom. This will hold the pressure of the water and will lessen the strain on the lift valve. I have used this in of results.

Layer in Demand.

The high price of eggs the past several years, with every indication of the prices remaining the same for some time to come, has caused a demand for the layer. By that is meant that, no matter what breed, it must possess egg producing qualities, and this class of breeders is the one to reap the benefit in sale of eggs, indebted or holding claims against said chicks or stock. Any show strain in your case or if you are not satwithout good egg-producing qualities isfied. will not long remain the favorite among the masses.

Success With Poultry.

The better conditions as to soil and climate the better the success with poultry. While poultry can be sucany place, conditions play an important part, and where the soil and climatic conditions are good the profits deed of trust, executed by Robert | are sure to be greater than where conditions are not so favorable.

Renovate Alfalfa.

It pays to renovate the alfalfa

concentrated his mind, as it were, on his feet, and willed them warm. Presently there was a sensation of tingling in his calves, and then his meels begin to glow. The last night or two I have tried this method, with some success. When I get more accustomed to it I hope to succeed perfectly. And there is this advantage about it, while you are willing your feet warm you can't be worrying about anything else. It's a great idea.-London Chronicle.
