Roxboro, N. C., Dec. 2, 1914

If you have any doubt as to this war tax being unpopular just mention it to a few of our citizens who are touched by it—and especially those who forwarded their personal check to the Collector for stamps and had said check returned.

County Superintendent, Rev. J. A. Beam, who never goes at anything halfhearted, is taking much interest in Community Service Week, and what promises to be a very successful day has been planned for next Saturday.

The close vote in many of the Democratic counties in this State at the last election will cause our legislators to go very slow in enacting many radical measures. If it gives them cold feet as to bonds and appropriations it will be a good thing.

Miss Mary Graham of Charlotte has been elected president of the North Carolina Teachers Association. Good, we are proud to see the men in at least one profession showing such good sense. From all accounts this was a wise selection, made from merit and not sentiment.

If you have any doubt as to North Carolina being a great and rich commonwealth just purchase one of Turners North Carolina almanacs and read the list of officers and the salary of each. You will doubtless be surprised to find how many men, and women, it takes to look after the various departments. We are proud of the Old North State and are glad that she is able to do things on such a large scale, even if she does have to issue bonds ever and anon.

One of the best farmers in the County, none other than Mr. John E. Harris, said to us the other day that this was really one of the best counties in the State and was making rapid progress along all lines, save good roads, but, said he, we will have them because we will be compelled to if we keep up with the others, and that it was only a question of time until the farmer would see his mistake and vote for bonds. For, said he, in no other way can we build good roads. And he was everlastingly right.

What about that night school which we discussed last summer? Some of those who were sounded on this subject said it was too late then to begin it, but it would be remembered next year. There are many more illiterate adults in this town than the most of you dream about, and a night school would go far towards eliminating it. Dont expect the teachers to take the lead and do all of this work, but let some philanthropic gentleman take a hand. We guarantee the teachers will not be found wanting.

It is no use to talk bonds just now, for our people are in no condition to increase taxes, but it would be wise to think about such a bill as will meet with the approval of the people and have such legislation enacted as will enable you to use when you want it. There is hardly a man in the County but what wants good roads, but nearly all of us want them in different ways. So the thing to do is to get together and find the best way. If you have an idea as to what is the best way tell our readers about it,

send in your views, we will be glad to publish them.

If we were a member of the Farmers Union we would talk, and talk, and talk in the lodges until we got others to our way of thinking and then at some County meeting would talk some more and get others to talking, and then there would be some resolutions adopted and a committee appointed to go before the County Commissioners with facts and figures concerning the desirability of having a County Demonstration Agent. It would not cost the people of the County a penny and would be worth more to the farmers than any one act the Commissioners could do, at the same price. But if we are to have such an officer some one must take the initiative. Who will do it.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.
