I could add a great many other worthy names to the list, but fear I might trespass on your space and patience, these have all passed away to their reward, the most of them served in the Confederate Army and made a good record for valor, of which their descendants may be proud, my next letter will treat of the period from about 1885 to 1900.

Roxboro, N. C.
Nov. 10th 1914.

Prospect Hill News.

It has been quite a while since I have seen anything in your valuable paper from our little city so here comes a few items your way that I hope you will give space if you think worthy of print if not cast in the waste basket and all will be well.

First, I must say our city is on quite a boom, the wedding bells have been ringing now, the melody of the carpenters saw and hammers keeps the woods in a regular echo. Mr. J. M. Williams is having quite a handsome feed barn and stalls erected at Prospect Hill where is to be his future home and it will only be a question of time before he will have a beautiful mansion going up that will be well equipped with town advantages such as lights and water works.

Mr. R. L. Wrenn is also very busy cutting logs and hauling to have him a dwelling house on his new farm and Mr. F. R. Warren has already had a very nice little house put up for our famous black smith, Mr. B. F. Pettigrew. There has also been other improvements made too tedious to mention so all we can say if the people keep on hustling and improving in such a manner we have the promise of quite a little town in the near future so hurrah for Prospect Hill.

There was a sale of the household and kitchen property of Mr. M. A. Warren, Saturday Nov. 28th. Quite a large crowd out and every thing sold high.

Mr. C. B. Smith will sell out tomorrow, Nov. 30th and leave for his new home near Danville, Va. While we are to lose this family as neighbors, we are to gain Mr. Dave Smith's family in return.

I think there are to be right many changes made but while some are moving out others are moving in.

Well the war is still raging but our most popular tobacco man, Mr. D. D. Satterfield is at home with the good news of tobacco selling high on his prosperous market in the town of Roxboro.

Mr. J. A. Warren one of the leading proprietors of the Banner Warehouse of Durham, was also out at his old home with the glad tidings of the weed selling high. I can only hope they will continue to have good sales with favorable prices.

Now just a few words in regard to our public roads. Wonder what has become of our road trustees or road supervisors or whatever they may be so called. I think they must be gone into winter quarters or asleep for what would sane or intelligent people say about a farmer who would cultivate his land, work and make a crop of tobacco ready to be cut, then let it stand and go to a loss, I should think they would say that man was a crank or asleep or perhaps something worse. Why won't the same rule work with other duties or in other words why won't the same cap fit other men that spend so much money then let it all go to a loss for the want of just a few more days work done. I have often been asked the question, what county I live in? I would very often reply, not any, as I would not own Caswell County on account of her bad roads, when lo and behold to my surprise here in the midst of the summer, right in the hottest and driest season of this year when our roads were at their best here come a little band of road workers with a tractor engine and a road scraper to work and scrape up our public roads. They did some nice work from Person County line to Prospect Hill, and left the roads in fine shape with the exception of a few trunks to be put in and two terra cotta bridges, and do you know that work is still undone and the road is all getting in a bad shape for the want of it, worst of all they have \$100.00 extra to have this work done, for after giving the land a much better road bed from 18 to 20 feet wide, a much straighter and nearer way, boarded six men, three horses and furnished the wood to fire the engine. Mr. R. L. Warren and his sister gave \$100.00 extra to help build the road nearer their home about 1-4 of a mile or less. They have often been asked what it cost them to get the road changed, when told the ones would reply that it seemed like a case of highway robbery to them. So think if there is not something done soon they will wonder what has become of the robbers, for there is one place between Mr. R. L. Warren's and Prospect Hill that just simply never gets dry, and when a big rain comes it looks almost like some river for there is no way for the water to drain off and it can't be healthy.

Now it is not long until the Holidays, hoping Santa Claus will come to see you all and wishing you all a merry Christmas and a happy and prosperous New Year, I remain your little friend,

we were bound to admit defeat. Miss Laura Edwards was with us and she asked permission to let her school class sing a song, and it was delightful, there being few better features during the day. Then followed R. P. Early with his masterpiece on "How to Conduct a Sunday School," followed by A. H. Gentry in his happy style, and he was followed by C. T. Davis on "Education, Morally and Spiritually." He handled these deep subjects most skillfully.

It was a great pleasure to have my brother in the flesh with us on this day, and while he is a Baptist and I a Methodist no one seemed to enjoy the preaching better than he did.

No one who was on the scene of action on this day will attempt to say Allensville church and Allensville people can't do things.—Poor Richard.

Cabbage Plants for Sale

I am now ready to deliver cabbage plants for fall planting. My plants have stood the test, they are good. Send me your order. J. W. Brooks, Roxboro, N. C.

Groceries

We believe we can save you money on most anything in the Grocery line. We have just received a car of Valley flour and we ask you to get our price before you buy. It will mean money saved to you.
