"Meet Me at the Fair."

Special Rates on all Railroads

We reorganized our business and enlarged same by adding a full line of building material and supplies about the middle of July.

Everywhere else, the prices on building material is advancing.

On our market, SINCE THE MIDDLE OF JULY, prices have been declining steadily until now lumber and building material is cheaper than it has been for a number of years.

There must be a reason why prices began to drop about the MIDDLE OF JULY.

ASK YOURSELF WHY.
