

LESSONS FOR USE IN THE  
**MOONLIGHT  
SCHOOLS**  
IN NORTH CAROLINA

**LESSON NUMBER TEN.**

READING AND WRITING.

well bodies cleanliness  
long eat next  
be food godliness  
happy

Keep well and you will live long.  
Keep well and you will be happy.  
Keep clean and you will keep well.  
To keep well:

we must keep our bodies clean,  
we must keep our homes clean,  
we must keep our community  
clean,  
we must eat clean food.  
"Cleanliness is next to godliness."  
*Cleanliness is next to godliness.*

ARITHMETIC.

- Review of "carrying" in addition.
- Review "borrowing" in subtraction.
- Review multiplying quantities by units or units and tens.
- Review last night's lesson in short division.
- Short Division. Dividing quantities by one figure using both even and odd numbers, and dividends that will show remainders.

Problems.

- Mr. Jones sowed 75 bushels of oats, sowing 2 bushels to the acre. How many acres did he sow?
- Last year 8 tomato club girls put up 5,768 cans of tomatoes. If each girl put up the same number of cans, how many did each save?
- Mr. Gray is a farmer. He owns 4 horses and buys hay to feed them. It requires \$125 pounds a year. How many pounds does one horse eat? Find the cost of hay for one horse at local prices; for four horses.
- My neighbor has a young peach orchard of 464 trees in 8 rows. How many trees in each row? He sold his peaches for \$684. What were the peaches on each row worth?
- Drill. (Similar to that at close of last lesson.)

**LESSON NO. ELEVEN**

READING AND WRITING.

citizen its thee  
also flag liberty  
State of sing  
country

I must be a good citizen.  
A good citizen loves his community.  
He also loves his State.  
A good citizen loves his country and respects its flag.

"My Country, 'tis of thee,  
Sweet land of liberty,  
Of thee I sing."  
A good citizen loves his country.

ARITHMETIC.

- Review again briefly and rapidly "carrying" in addition and "borrowing" in subtraction.
- Drill on problems illustrating the two principles in short division as given in lessons nine and ten.
- Drill on dividing quantities by 10 and multiples of 10.
- Long Division. Dividing by units and tens.

Problems.

- If 21 members of a Farmers' Union sold their potatoes together for \$2,583, how much was the equal share of each?
- In Person County the rural white school population is 3,2008, and there are 54 rural school teachers. What is the average number of children for each teacher?
- Find these school facts for your county. Ought you to have more more teachers in your county?
- In one season 69,750 crates of strawberries were shipped from one county in a certain State. Find the number of car loads shipped, considering 225 crates as a car load.
- According to the University News Letter country dwellers in Iowa on an average possess wealth amounting to \$3,386. In North Carolina this average is \$322. On this basis the average wealth of a country dweller in Iowa is equal to how many times that of one in North Carolina? (NOTE—Shall we raise our average wealth in rural North Carolina?)
- Drill: 8544+24; 7196+78; 1722+42; 365+28; 950+10; 7241+12; 1862+16.

THE FUNDAMENTAL CALLING.

Agriculture is the foundation of all other occupations—mining, manufacture, commerce, etc. If we cease to plow, the miner will lay down his pick; the factory wheels will stop; locomotives will stand cold and lifeless upon the tracks; abandoned ships will decay in the harbors; school children will come home to stay; church bells will cease to ring; and, very soon, savages will again roam over the face of the earth.

**CARELESSNESS IN HOMES**

One-Third of Number of Fires in Large Communities is in Dwellings—Greater Suburban Proportion

A fire loss of \$3 per year for every man, woman and child in the United States, as against 33 cents per capita in European countries, was cited as the chief reason why greater care should be taken to prevent fires, in an address by Fire Marshal George W. Elliott, before a meeting of the Union Fire Association of Lower Merion in Fire Association Hall, Cynwyd.

"Despite all efforts to fight fire after it has started, America is burning \$250,000,000 worth of physical property every year, or \$3 per capita," he said. "The three dollars represent the price paid for carelessness by every man, woman and child in the United States."

**PRIMARY SCHOOL EX'TS.**

Our feeling is that the most reliable, efficient and satisfactory means of exit from a primary school building are stairways enclosed where possible. Stairways to be used almost exclusively by small children should, of course, be adapted to their stature. The Ohio State building code requires that in primary schools the rise of steps shall not exceed six inches, and he width of tread shall be not less than eleven inches. This proportion would give an easy and safe footing for both ascent and descent. Winders in such stairways should be prohibited, and hand-rails should be provided on each side. School buildings should be provided with at least two such means of exit. In our judgment the ordinary fire escape should not be permitted.—Ira H. Woodson.

**LAND AND LOAN ASSOCIATIONS.**

Ambassador Herrick says: "A mortgage on the farm will cease to be an object of dread."

By means of a system of amortized loans, America can with truth say: "The American Home, the Safeguard of American Liberties," and our friends of the city as well as on the farm, will be able to permanently finance their own real estate loans. The farmer can pay his annuity from the earnings of the soil and have a fair balance for the comforts and luxuries of life and contemplate with complacency the leaving of the farm to his children, who could in the same easy manner continue to pay the annuity until the debt was finally conquered.

**WELL SAID.**

It is true, for the past eight or ten years, we have seen more waste and extravagance in the United States than any one ever saw before. As a Nation we have simply run rampant in waste and unnecessary expenditure of money. The industrial depression now prevailing in many sections of our land will tend to check this mania, but this is not sufficient to cure the disease itself. Inherent ideas of thrift and economy should be made to get hold of the minds and hearts of our people, if we hope to do the most lasting good to them and to our Nation.—L. L. Rankin.

**WASTE AND PACKING.**

(Insurance Engineering.)  
Always the chief source of fires, waste paper and packing materials are not less so as Christmas draws near. This inflammable stuff is scattered about in the reserve stock, behind counters, in the packing room and elsewhere. A match is dropped stepped on, and then—Nothing but the systematic and uninterrupted disposal of waste paper and the careful storage of packing material will minimize this hazard.

**WHY YOU ARE NERVOUS**

The nervous system is the alarm system of the human body.  
In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.  
To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

**\$100 Reward, \$100**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.
