THE PRESENT ATTITUDE OF THE FARMERS IN ROCKINGHAM COUNTY OUGHT TO BE REVISED.

During a recent trip from Reidsville to Stoneville by automobile there was not in evidence along the whole route one single field of grass.

The absence of grazing necessarily means absence of stock. It follows that the absence of stock means a steadily decreasing farm value, and the purchase from other sections of necessities for the home, as well as for the support of our meagre farm stock. This means sending our dollars to enrich the wide-awake farmer in other States. There is no condition under which such a course is justifiable. Were we even in the position of accumulating great wealth from our tobacco crops we would not be justified in treating our lands as though they were mines, to be abandoned as soon as we have extracted the gold. But we are not getting wealthy raising tobacco.

Rockingham county will raise tobacco probably as long as there is a demand for tobacco, and in all probability that will be for a longer time than our limited vision can compass. Every farm in our county has on it a certain area suited to the growing of the bright leaf. It is a crop, the cultivation of which insures our farmers a bunch of money at the end of the year—sometimes more, sometimes less, and this area suited to the growth of a high class leaf should alone be devoted to the purpose, leaving the remainder of the farm for diversified cropping and grazing, etc.

But the present attitude of the farmers of Rockingham County in this matter ought to be reversed, and tobacco made a side issue, and grass and grain the principal crop on every farm in the county.

The State of North Carolina buys annually about seventy million dollars worth of hog products. The State of Iowa sells annually a solid billion dollars worth of hog products. We can raise hogs more cheaply in North Carolina, and with less handicap from disease, than they can in Iowa, yet we do not raise enough to supply our own needs.

We are frequently met with the statement that there is no market for hogs raised at home. Well, there was a time when there was no market for home raised hogs in Iowa, but the Chicago packers soon found that the lard hog raised in Iowa was just what they needed, and the market was created. The Richmond packers have expressed the hope that Rockingham county will raise all the hogs they can buy this year. Are we going to do it?

Most any farmer in our county can raise his meat on one acre of alfalfa. Ten acres of alfalfa means wealth to the average farmer. Sow alfalfa; if you don't get a good stand the first season, turn your hogs into it, and sow it again next season. The first season's crop will inoculate the ground, and you will be assured of a good stand. Let us all sell the air and not the land. We have been selling the land for years, and there is only just so much land—you cannot make a handsbreadth yourself. But we have an unlimited amount of air; and by utilizing it in the growing of soil—making crops we can sell the produce of

these crops—and make our land better at the same time; our homes happier, and ourselves contented—because we are enriching ourselves and our loved ones, and making no one to suffer thereby.

Rockingham county farmers are selling their poultry and truck now in Reidsville for cash. We have but one buyer here now. Raise more poultry and truck and you will have more buyers in Reidsville.

No farm in Rockingham County should be without at least 50 thirty hens.

They will furnish for your table everything that you cannot raise yourself on your own land. That is, if you give them proper care and attention. Why not interest your children in the scientific raising of poultry on a profit-sharing basis?

Every farm in Rockingham county should have its home garden patch, carefully wired to prevent encroachment by hog or poultry. On this patch, richly manured from your compost pile, you should raise all, and every variety of vegetable necessary to maintain your family in the best of health—were you never to purchase a pound of meat. Don't be afraid of raising too much—you can sell all you cannot use at home, or can for future use, in Reidsville. An acre of garden patch, well manured, and carefully tended, can be made to produce \$1,000 worth of truck in the season, and the garden will be left in better shape for future cultivation than it was before you began. Do you want to try? We will be glad to secure literature for you on the subject. Put the young folks to it; they will grow to love it, and through it will acquire a greater love for the farm, and the lure of the city will vanish.

Colds Need Attention

Internal throat and chest troubles produce inflammation, irritation, swelling or soreness and unless checked at once, are likely to lead to serious trouble. Caught in time Dr. Bell's Pine-Tar-Honey loosens the phlegm and destroys the germs which have settled in the throat or nose. It is soothing and healing. Pine is antiseptic; honey is soothing—both together possess excellent medicinal qualities for fighting cold germs. Insist on Dr. Bell's Pine-Tar-Honey, 25c. all Druggists.

It doesn't necessarily follow that a man ought to have a keeper just because he is guarded in his remarks.

Now Feels Entirely Well.

Those who have backache, rheumatism, stiff and swollen joints or other symptoms of kidney trouble will be interested in a statement from A. H. Francis, Zenith, Kas., who writes: "I had a severe pain in my back and could hardly move. I tried several remedies with no results. I took about two-thirds of a 50c box of Foley Kidney Pills and now feel entirely well." Middle-aged and older men and women whose kidneys are weakened find these safe pills give relief from sleep-disturbing bladder ailments. Sold Everywhere.

There isn't a whole lot of difference between the men who are on top and those who are on the ground floor.

The Best Recommendation.

The strongest recommendation any article may receive is a favorable word from the user. It is the recommendations of those who have used it that makes Chamberlain's Cough Remedy so popular. Mrs. Amanda Gierhart, Waynesfield, Ohio, writes, "Chamberlain's Cough Remedy has been used in my family off and on for twenty years and it has never failed to cure a cough or cold." Obtainable everywhere.

When a girl tells a fellow he is the last man in the world she would marry, he hopes the first shall be last.

CALOMEL TODAY, SICK TOMORROW

DOSE OF NASTY CALOMEL MAKES YOU SICK AND YOU LOSE A DAY'S WORK.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all 'knocked out,' just go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.

A good listener is a man to whom you can tell a funny story that doesn't remind him of one of his own.

Severe Cold Quickly Cured.

"On December first I had a very severe cold or attack of the grip as it may be, and was nearly down sick in bed," writes O. J. Metcalf, Weatherby, Mo. "I bought two bottles of Chamberlain's Cough Remedy and it was only a few days until I was completely restored to health. I firmly believe that Chamberlain's Cough Remedy is one of the very best medicines and will know what to do when I have another cold." Obtainable everywhere.

Life is a cocktail in which the pleasures of anticipation are blended with regrets for the past.

What Children Need Now.

In spite of the best care mothers can give them this weather brings sickness to many children. Safe, reliable family medicines are in demand. Mrs. T. Neureuer, Eau Claire, Wis., writes: "Foley's Honey and Tar cured my boy of a severe attack of croup after other remedies had failed. I recommend it to everyone as we know from our experience that it is a wonderful remedy for coughs, colds, croup and whooping cough." It stops the coughs that hang on and weaken after the laprippe. Sold Everywhere.

Inactive Kidneys Cause Disease

"I shall not soon forget the benefits I derived from the use of Foley Kidney Pills."—AL A. Godfrey, Forest Grove, Oregon.

Too much work and too little work seem to have about the same effect on persons past middle age. Protection of the kidneys is necessary for good health. They act as a filter and remove from the blood poisonous waste matter which if permitted to remain in the system leads to many complications.

Many nervous, tired, run-down men and women suffer from pains in the back and sides, dizzy spells, bladder weakness, sore muscles and stiff joints and fail to realize that rheumatism, diabetes or even Bright's disease may result.

If you have cause to believe that your kidneys are weak, disordered or inactive you should act immediately. Foley Kidney Pills have been used by young, middle aged and old with complete satisfaction. They act quickly and surely and have given relief in cases of ten years' standing.

The Farmer is a Business Man

HE needs a typewriter for the same reasons that every business man needs one. Because it saves time, it saves labor, it enables you to keep carbon copies of all your correspondence, it is the up-to-date business like method of writing.

And that isn't all. Every farm is a home and the farmer's typewriter is a home machine to be used by every member of the family. The school, the home, the farm all have their own writing to be done, and the typewriter provides the modern time saving way to do it. Our new

REMINGTON Junior Typewriter

is the ideal farm typewriter. Just the model, just the size, just the price. It is half the size of the standard Remingtons and half the price, but it writes with standard type on paper of standard size.

It is so simple that any one can operate it, and as for its quality, the name "Remington" is the answer. The price of the Remington Junior is \$50.00.

Tear out this advertisement and send to us with your name and address and we will send you an illustrated booklet.
