ROXBORO TOBACCO MARKET

Largest Brakes For Entire Week this Season—Prices Continue High—Full Report Below.

Our sales for the past week have been the largest for any week for several years past, sales lasting until late in the afternoon every day.

Notwithstanding that fact the market made the highest average for any week so far this year. Prices have been maintained on all grades throughout the week, the last pile Friday afternoon selling as high and readily as the first pile Monday morning, at no time during the week did the buyers show any disposition to slack up on their purchases all showing an eagerness for the weed. Very little tobacco in high order was offered and it is earnestly hoped by our buyers that our patrons will watch the order very closely as wet tobacco does not bring market price at any time. Our average for the week was \$19.12 and \$19.03 for October 1916, against 18.80 for 1913.

Back Home

We are now back in our old stand with a new store that is well arranged, well equipped and well stocked with a class of merchandise suited to the needs and wishes of the people of this community. We moved almost before the public knew we had started to. There was no interruption in our business and we served our customers with almost the same efficiency as if nothing unusual was going on and had good sales each day. It was a big job but so quickly and easily was it done, all by our regular force, that even we were surprised at the efficiency of our force and their willingness to do extra work and extra hours. We have an excellent force of experienced and capable salespeople who are always pleased to give you the best possible service as well as having such a splendid building to serve you in.
