RUSSIA WILL DO HER BIT IN THE STRUGGLE

AMERICAN AID ESSENTIAL

Root and Associates Make Optimistic Report at White House on Situation.

Washington, Aug. 9.—Russia, newest of democracies, grows stronger of heart and purpose daily, and with aid from the United States, can be depended upon to do her part in the great war and emerge a powerful state. This was the message brought to President Wilson and Secretary Lansing today by Elihu Root and his fellow members of the American mission sent to Russia three months ago.

Unqualified encouragement from the United States, moral and financial is absolutely necessary to keeping life in the new government, the commissioners agreed. A separate peace with Germany obviously is their greatest fear. Left to fight along with her present government in control, the President was told, Russia will emerge triumphant and strong but if either by great masses of troops or clever propaganda, Germany should accomplish the overthrow of the Kerensky government the outlook would be dark indeed.

Only one written report, it is understood, was submitted to Secretary Lansing. It was not made public and may not be.

From high sources, it is known, however, that the commission was agreed on virtually all essentials. There may have been differences of opinion as to the best method for obtaining results, but the opinion of present conditions and high hopes for the future was unanimous.

None was stronger in his conviction that there is the greatest hope for Russia than Mr. Root himself. Though conservative by virtue of long diplomatic and political experience, it was with difficulty that he members of the party who shared his optimism and discussed their views were Charles Edward Russell, a former socialist, James Duncan, a labor leader, and Major Stanley Washburn, a man of long experience in Russian affairs. The latter two were agreed that one great need of Russia is publicity regarding America's intention in the war.

Mr. Russell went a little further than the others by declaring emphatically in favor of sending American troops to the Eastern front immediately. He said their presence would be of the greatest value in strengthening the morale of the Russians.

The military members of the mission, headed by Major Gen. Hugh Scott, had a thrilling story to tell of experiences on the Russian firing line. They were under fire during one of the great offensive launched after the new government took the reigns.

The return and reports of the mission were about as informal and as devoid of secrecy and red tape as anything Washington has witnessed in a long time. The members arrived this morning on a regular train answered inquiries and seemed anxious to help in every way to disseminate the information they had acquired. Final work on the report and it was ready early this afternoon.

The mission headed by Mr. Root, called at the White House at 4 o'clock in the afternoon and remained with the President about an hour. Members of the national woman's party made futile attempts to use a banner addressed to Mr. Root, but he entered and left the White House yard by a side gate while the women waited for him out in front.

The work of the commission now is virtually ended. Its members will remain here a few days and, with the exceptions of the army officers, will then return to their homes.

Victims of Submarine Reach American Port.

An Atlantic Port, Aug. 12.—The captain and six members of the crew of the American schooner John Hays Hammond, victim of a German submarine July 27, while on a voyage from England to Iceland arrived here today on an American steamship. Cable dispatches telling of the loss of the schooner had said nothing of the fate of the crew. The men said they were picked up by a British destroyer, 360 miles northeast of the Irish coast after being 24 hours in the water.

FIRST INCREMENT OF DRAFTED MEN EXPECTED TO BE UNDER TRAINING EARLY IN OCTOBER

ORDERS ISSUED MONDAY PROVIDE FOR MOVEMENT OF 90 PER CENT OF MEN IN SEPTEMBER.

Twelve Thousand Will Reach Each of the Sixteen Cantonments Soon After September 5.

Washington Aug. 13.—The entire 687,000 men composing the first increment of the army draft forces will be under training early in October. Under orders issued Monday, the first 30 per cent of the quota of each district will begin entrainment for cantonments September 5; the next 30 per cent, September 15; and another 30 per cent, September 30. The remaining 10 per cent will be mobilized as soon after that date as possible.

The plan to assemble the new forces in three increments distributes the task of furnishing supplies and equipment through September. It will also prevent serious shortages in any camp, and will give the new officers from the training camps time to familiarize themselves with their duties as a great body of men falls on them.

The order, issued Monday, means that about 12,000 men will reach each of the sixteen cantonments soon after September 5. They will first be examined physically by army doctors, and finally accepted or rejected. This will take some time, and the men will have to be furnished with temporary quarters and rationed while awaiting examination. If the full quota were assembled at one time, great confusion would result.

Presumably the first increment will have been organized into skeleton companies, battalion, or regiments, before the second arrives.

In farming communities, local boards now will arrange the list of those to fill the first increment with local crop conditions in mind. Men engaged in harvesting work and who otherwise would go with the first third of the district quota will be passed over to the second or third as may be necessary.

Ruling on Discharges. Reviewing the question of discharge for dependent relatives, General Crowder issued a supplemental ruling Monday holding that persons should not be discharged because of dependent residents abroad.

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati Authority. Tells How To Dry up a Corn or Callus so it lifts Off With Fingers.

You corn pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out root and all, without pain.

A small bottle of freezone cost very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time.
