**The Times Demand**

That every individual should lend assistance to his country.

**FIRST:** By conserving the material resources of the Nation, the unit upon which its wealth is based. If it is property that will burn, protect it with one of our Fire Insurance policies.

**SECOND:** By relieving the State of the expense of caring for those who are dependent. A good life insurance policy will meet the demand. See ours, none better.

**"BACK IN SCHOOL"**

"Well, the children are back in school, and it's such a relief!"

You say it, perhaps, with a sigh of satisfaction. All summer you have had them with you much of the day, and it has been, "Mother, may I do this, and 'Mother, may I go' there, and the noise has seemed never to cease. Now they are at home only a part of the day, and of that part they must give a good deal to study. Of course it is a relief.

But is that the end of the matter? Going back to school means change for the young people—different teachers, another schoolroom, perhaps in a very different locality, and new classmates and companions. Your little fleet has rounded another headland and is pushing out into deeper waters where the breeze is stiffer and where more dangerous rocks lie hidden. Are you going to keep your eye on it, or are you going to leave it wholly in the hands of the new commander to whom the township or the city has entrusted it?

More and more the public schools have taken over tasks that once belonged to the home. They teach boys how to use a saw and a plane, and girls how to sew and to cook. But there are things that they cannot do—things that only you can do, at home. They cannot much influence your boy's choice of companions, or your girl's tendency to slang, or the kind of English that either of them uses, or the modulation of their voices, or their views on life and conduct, or any of those little personal habits that so soon harden into the rock of manners. These things are your job and yours alone.

The children going back to school ought to be the occasion, not for a quieter home, but for a noisier one and a larger and more varied family. That wonderful quarter back of whom your son has so much to say is a person whose acquaintance you cannot afford to miss; and you must learn to know the girl who your daughter so greatly admires because of her cleverness and charm, if you hope to keep your hold on your daughter's heart.

Do not think the job is easy. Nothing on earth requires more patience and tact and wisdom; but nothing on earth pays half so well or is better fun. You will not only do for the children what no one else could do, but you will catch something of their youth and enthusiasm, and so keep young yourself.

When placer miners, panning a stream for gold, find "color," they work toward the hills in the hope of discovering the mother lode—the great quartz ledges from which, particle by particle, the shinning dust has drifted down. There are little towns, in which, if you could trace the streams of golden deeds, of shinning inspirations, of them leading back to some sweet-natured, cultivated woman who did not feel that her duty toward life was accomplished when her children were solid and noble ideals, you would find "back in school," but who made her home a happy centre for all the young people of the community. Is there any better job than being a "mother lode"?—Youth's Companion.

**WONDERFUL STUFF! LIFT OUT YOUR CORNS**

Apply a few drops then lift corns or calluses off with fingers—No pain.

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without This drug is called freezone and is a particle of pain or soreness. A compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness or callus will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or callus but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.

**GERMANS TAKING ALL MACHINERY**

Interpretation of Possible Evacuation is, However, Discredited.

**SEND IT TO GERMANY**

Washington, Sept. 30.—Official dispatches received here confirm reports that Belgium and northern France that the Germans are stripping textile mills of their machinery, destroying it or sending it to Germany. Actual removal of machinery has been reported from Roubaix, Tourcoign and near Courtrai, and the purpose of the conquerors to carry out this policy through Flanders is forecasted by an order to all mills to furnish inventories of their equipment.

In some quarters these reports have been interpreted as a possible sign of an approaching evacuation of a large section of Belgium territory. It was pointed out tonight, however, that reports from the same sources tell of the importation of children from 10 to 15 years of age from Germany for office work in the larger occupied cities apparently discredits the evacuation theory.

Requisitioning by the Germans of wine, textile in retail stores and blankets in private houses is described by the dispatches.

Both Heflin and Norton struck at each other, clinched and fell to the floor and rolled around until separated.

It is not known who was the victor, but when the dust cleared away so that members of the press gallery could see, the North Dakota gentleman was riding the frame of the Alabama statesman. Neither was seriously hurt, according to the referees for both sides.

The house worked today at high tension. Soon after Speaker Clark called the members together at noon Representative Pou, chairman of the committee, announced that his any action on the Fordney resolution which lalled for an investigation of the Heflin charges against members of the house and senate.

Mr. Pou made a brief statement in which he said that acting upon the advice of the department of justice that his committee, both Republicans and Democrats, had considered an investigation at this time would be unwise and would probably result in hindering the department in its own investigations which Mr. Pou declared are the most gigantic ever attempted by the government and that they extend from the Atlantic to the Pacific.
