TELLS HOW TO BUILD SYSTEM UP

If Kidneys, Stomach, Appetite and Strength Need Building Up, Lumberman Tells How To Gain Back Health.

MANY FRIENDS OF HIS, ENDORSE WHAT HE SAYS

"I want to tell folks who wake up in the mornings with aches across their back, weak kidneys, and lost appetite and energy, how to get relief," declared Clyde Lafon, a well known lumberman of Waiteville, W. Va.
"I suffered that way for months and my back would feel so stiff on waking up and pain me so much I suffered awfully. My kidneys bothered me and urinating was painful. I was weak and thin and would often get real sick at my stomach. My appetite wasn't much either, but I want to say that Acid Iron Mineral is the thing for people troubled like that. I took some of it and it did more good than any medicine I ever used and I always keep it in my home. Lots of people I know have also been helped. It builds your system up and makes anyone hearty and stout," continued Mr. Lafon.
Acid Iron Mineral is the highly concentrated product of a natural medicinal iron deposit. There is no alcohol or narcotics added and it does not affect the bowels or liver, upsetting the system.
It is stronger, much cheaper, better iron medicine. A few drops to a teaspoonful mixed in a glass of water makes a wonderful tonic and iron medicine for blood, rheumatism, kidneys, digestion, and whole system generally. Lots of people in this state recommend it. Get a bottle today.

Card of Thanks
Many, many thanks to our host of friends who came to our parsonage home last Friday night and gave us such a happy surprise in a most generous pouring of good things.
It was a piece of very great kindness, and wisdom in planning and in execution. Our friend, S. G. Winstead was at his best in the beautiful presentation speech which he made and Bro. Dailey seemed inspired with the Christmas spirit as he offered the prayer. We had been informed by two of our kind officials, Bro. Hambrick and Henderson, that they were coming to see us that evening, but did not know the immediate purpose of their call.
We thank them one and all—those who came and those who sent gifts.
A Merry Christmas and a Happy New Year and a God Bless You All.
Mr. and Mrs. O. W. Dowd

THE NEED OF ECONOMY AND SAVING.

When we put a million and a half soldiers in the field, we withdraw those men from productive enterprises. They do not while they are actually in training or in service produce anything. They do, on the other hand, consume much. There is nothing more expensive on earth than to support and maintain a great army in the field, especially if it is on the fighting line. The attrition of supplies and everything else is tremendously great when we have a fighting army in the field.

America is the one great remaining storehouse in the world of supplies and credit. We must maintain and make effective as possible our own soldiers and the soldiers of those nations who are fighting for us. We must therefore draw as little as possible upon our common store of supplies and money. The more we lessen our domestic demand, the more we can contribute to the support and effectiveness of our allied armies.

Economy is now a national duty, such a duty upon the people at home as fighting is upon these Americans who are bravely offering their lives for the honor of America and the preservation of liberty and justice.
