VOL. XXXVIV

TO WHOM IT MAY CONCERN.

Sine and elec. to increase local tax rat for school purposes in Be High School district has is m in Rethel Hil I tleshe to put the facts before the public so that an intelligent ballot nny be cast.

It has been the 'earnest desire o those in control of the school to make equal to the best in the county and meet the state requirements for accredited solicol as soon as possible: With the parents, teachers and pupils co-operating we have met these requirements for the most part. We have the required library and teach-ing force. Our laboratory for Science stional Agriculture has been accepted for the first year to be sup plemented as we go further. The state requires 45 pupils in this high school, this year we have enrolled . 43 and 22 in the seventh grade to enter high school next year and only 12 finishing the Eleventh grade, Our total school enrollment for this year is 168. Our average Has been greatly cut down by the epidemic that we had in school last fall and by the bad weather this spring. We have on the census in our district nearly 200 of school age and if the parents will co operate we should make an average of more thim 150 easily. I am pleas ed to bring these facts to the atten tion of those interested. Now another point arises that must

be met or we shall lose not only what we have gained, but will fall even is the lowest that any local tax dis-trict in the state levies. There are num ber of places that the tax rate is \$1.00 while ours is 10c. The state will not help a district without a tax REV, R. E. WHITE HERE rate equal to the average of the state. Furthermore the income from our present rate will not pay the interest and sinking fund on our pres-ent indebtedness. Under these circumstances the state will not lend us any more money and will not conr giving us any. Therefore with the increase of taxation we shall at the in have to pay the present rate for more than two generations and cut our school term to that which is required by the constitution with no high achiol work at all-being done. On the other hand, with the indreased taxation asked for the state has promised to give us a nice sum and to lend us enough to take up the notes that we have in the bank and willch have to be Fenewed every six months. We have Dr. Highsmith's The State High School Inspector) word and two letstands ready to help as became an accredited school as, soon as we do ation of Sheriff for Person County, our part as other schools have done. subject to the Democratic primaries This will admit our graduates to the I have been connected with the Sher-best colleges without examination iff's office for some time and how

without examination. In my opinion it is not necessary for this tax to run at the maximum rate of thirty cents long. for with you think so, I will appreciate your pot Street. the help promised by the state and with the decrease of the indebtedness the state stical page and hier indebtedness With the right num teemen it will decrease.

Now to express it briefly, it seems

Ach.

21

we must give them the best possi-<u>ble advantages</u> along with these oth-DRED THOUSAND POUN r conditions, which will be the chose or, which the better business propo sition, to continue the pres nt rate o ixation without a high school, the to be used in settling th resent indebtedness, or to increase he rate and have nearly half our debt given to us, have the advantages

for the children of our community acroased by giving them a better school, and especially giving to those boys and girls who can not go away from home to school opportunities they could never hope to realize in

any other way? Is there any man or woman in our district who thinks that he can afford to vote against an increase tax rate and by so doing say to the public that he does not want the mass iès to have the opportunity of a high school education if it should cost him a few dollars? Can any one afford to throw away the social and moral influence of high school for a few pairry dol-lars? If there anyone who wishes to destroy what a number of our substantial citizens have been building for years? On April 15 at the high building an oppotunity to an sello swer these questions by casting your ballot will be given all the qualified voters of the district.

A. C. Gentry,

MARRIED AT JALONG.

On last Sunday morning, immed ow what our school has been for a lately after the sermon Mr. Calvin mber of years. Our local tax rate O'Briant and Miss Sallie Clayton were iately after the sermon Mr. Calvin married, Rev. S. J., Stranes, pastor of the Methodist Clinch,, performing the ceremony
