ADMINISTRATOR'S NOTICE
Having qualified as administrator of the estate of T. H. Hobgood, deceased, late of Rowan County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned on or before the 15th day of March, 1923, or this notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate payment.

This 15th day of March, 1922
J. T. Newton, Adm.

ARE THE CROP YIELDS OF PERSON COUNTY PROFITABLE

By David D. Long, Soil Specialist, Soil Improvement Committee
Atlanta, Ga.

In this time of stress when all farmers are trying to work out of a depression, it is essential that farming as a business should be looked upon from a business basis. It is necessary to diversify, for diversification always has been a paying proposition even before the boom came and especially so in relation to the production of home supplies.

Diversification, however, is not the whole solution unless the yields of the crops are profitable. It cannot be expected that a farm operator can just diversify and expect to work out of this serious situation. It requires more than that. It requires that the yields shall be sufficiently high to pay costs of production and leave a profit. Low yields are very often the cause of complaints that prices do not pay costs of production.

Cost surveys as conducted by the United States Department of Agriculture as well as the North Carolina College of Agriculture show that with increased yields the cost of production per bushel or pound of a product decreases and that the profits per acre increase. It is necessary therefore to look well to your yields to determine whether or not they are profitable.

Taking for a basis the average cost of production per acre of the leading crops of the state for 1922, as estimated by Dean C. B. Williams of the North Carolina State College of Agriculture and the average yields of the county as given by the census of 1920, a fair approximation can be made as to whether or not the yields are profitable.

The average cost of production as determined by Dean Williams includes rent of land, fertilizers man and horse labor for preparing ground, cultivating, harvesting and marketing or storing the crops.

Fertilizer allowances were as follows:

Corn and oats, 300 lbs. of a 7-3-1	1.2
Cotton, 500 lbs. of an 8-3-3	14.20
Tobacco, 800 lbs. of an 8-3-3	30.70
Peanuts, 400 lbs. of land plaster	73.00

Deductions for by-products were made from the total costs. Such deductions included fodder from corn, cotton seed, oats straw, and peaput hay.

After these deductions were made the average net costs of production for the various crops per acre are as follows:

Corn	19.16
Oats	14.20
Peanuts	30.70
Tobacco	73.00
Cotton	\$82.15

CORN

The census reports an average of 15.2 bushels of corn per Person Co. At the average production cost of \$19.16 per acre, the cost per bushel for the county would be 1.26. This cost of production per bushel should be reduced by all methods of increasing the average yield per acre.

OATS

The average yield of oats for Person county was 9.3 bushel per acre according to the 1920 census. With the average average cost of production at \$14.20, the cost per bushel would be 1.52 a bushel.

TOBACCO

The census of 1920 reports an average yield of 482 lbs. of tobacco per acre for Person county. With the cost of production as determined by Dean Williams at 73.00 per acre the cost per pound would be 19.1 cents as against 10.5 cents for the state average. It is well understood, however, that tobacco is a crop of quality rather than one of yield.

SWEET POTATOES

The average yield of sweet potatoes for Person County in 1919 as shown by the census report of 1920 was 62.5 bushels per acre. The analysis of cost of production by the Government

Great Reduction IN PRICES OF Buggies and Surries

Vitality! Vitality! Vitality!

You Must Have It to Keep Your Job, Your Friends, Your Happiness

Thousands of thoughtless people needlessly let themselves run down in health. The day comes when, with a terrible shock they suddenly realize that they are permanently broken in health. For your own sake keep well. If you feel weak or run down or do not sleep well or are nervous and have a poor color, don't wait until it is too late. Gude's Pepto-Mangan taken with your meals for a few weeks will restore your good health, give you renewed strength and vitality for your daily work. The healthy life is the only happy life. Do not let it slip from you. For thirty years Gude's Pepto-Mangan has been helping people who were run down back to good health. It was made famous by the medical profession. Sold by druggists in both liquid and tablet form.

Dr. S. Rapport
OF DURHAM, N. C.
WILL BE AT ROXBORO, AT THE HOTEL EVERY FIRST WEDNESDAY

in each month to examine eyes and fit glasses. Glasses fitted that are easy and restful to the eyes. Headaches caused by eye strain relieved. My next visit will be Wednesday, APRIL 5th, 1922.

And There Wasn't the Slightest Smell from Dead Rats!

Writes John Simpkins, farmer of Anandale, N. J. "Rats were costing me hundreds yearly, tried dogs, ferrets, poison, could not get rid of them. Bought \$1.25 pkg. of RAT-SNAP (5 cakes). Used half, not a live rat since. Dead one a plenty. I like RAT-SNAP because after killing rats it dries them up—leaves no smell." Three sizes 35c, 65c, \$1.25. Sold and guaranteed by

LONG BRADSHAW & COMPANY
Roxboro, N. C.

BICKETT'S EPITAPH

Could former Governor Thomas Walter Bickett have selected his epitaph he would no doubt have agreed with Roland F. Deasley, who was his devoted friend for 40 years, that the following from one of his war speeches most fittingly expressed the highest aspiration of his mind and heart.

"The time shall come when a woman's little finger shall lift more than a knight's falchion in the world, and the cry of a little child shall be heard farther than the loudest cannon's roar."

In this sentence he summed up his argument for a League of Nations. In the midst of bloody war, he looked beyond to the day when there should be peace in the world. He rightly held that the great conflict of world forces that came during his administration was a war to end war.

EARLY HOGS GET THE MONEY

Producing Hard Hogs and Having them Ready Before Prices Break is Profitable

That it pays to feed hogs so they can be sold early as their pork is shown by the results of demonstrations conducted by W. W. Shay of the N. C. Agricultural Extension Service. "Remember," he says, "that a drop of two cents a pound in market price means \$4 on a 200 pound hog."

Figures from a recent demonstration on a freight county farm show by proper feeding a lot of 27 hogs gained 1264 pounds in 48 days. These hogs were pastured on oats and soybeans for 21 days and on alfalfa for 27 days. They consumed 589 bushels of corn and 214 pounds of tankage during the demonstration. The owner was offered 13 cents a pound and sold by a local butcher, which is equivalent to 13 cents a pound on foot.

The Halifax Farms, Inc. sold July farrowed pigs as hard hogs, averaging 220 pounds on March 1, at eleven and three-quarters cents a pound, topping the Richmond market on that day. These 43 hogs, which were taken from pasture fields on January 3, and fed on corn and tankage until shipped on February 28, showed a gain in value of \$818.25 in 51 days.

Studebaker

LAW JOY

\$1475

SPECIAL SIX
Five-passenger, 50-horsepower, 118-inch wheelbase, Cord Tires Standard Equipment

In buying a motor car, you either buy satisfaction—or you had. You buy positive satisfaction when you select the Studebaker SPECIAL SIX. Here's why:

Its 50-horsepower motor gives you ample power and speed.

Its roomy body is as handsome as it is well built. It is made complete in Studebaker's own shops where fine coach work has been in progress for 70 years.

Its 119-inch wheelbase insures utmost comfort for five passengers because it provides room enough for the passengers to relax without crowding in deep, restful, genuine leather upholstery.

Its dependability has been proved in the hands of thousands of owners.

And when you compare it with other cars, keep in mind these features of equipment and remember the price of the SPECIAL SIX is \$1475 f.o.b. factory.

Jeweled eight-day clock on instrument board.
Cowl ventilator controlled from instrument board.
Tonneau lamp with extension cord.
Parking lights in lower corners of windshield base.
One-piece rain-proof windshield and windshield wiper.
Large rectangular plate glass rear window—74 x 23 in.
Tool compartment in left-hand front door with lock.
Transmission lock which reduces cost of insurance to owner 15% to 20%.
One key operates the Yale lock on ignition switch, transmission and tool compartment.

We shall be glad to tell you of many other important points of superiority of the SPECIAL SIX. You owe it to yourself to see a Studebaker before you buy any car.

touring, \$1475; 5-Pass. Roadster, \$1425; 5-Pass. Roadster, \$1475; Coupe, \$2150; Sedan, \$2250. All prices f. o. b. factory.
