**Indigestion**

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

**Thedford's BLACK-DRAUGHT**

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive.

Get a package from your druggist today—Ask for and insist upon Thedford's—the only genuine.

Get it today.

**ADMINISTRATOR'S NOTICE.**

Having qualified as administrator of the estate of J. W. Winstead, deceased, late of Person County, North Carolina; this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned on or before the 25th day of April, 1923, or this notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate payment. This 25th day of April 1922.

J. D. Winstead,  
K. C. Wagstaff,  
Administrators.

**Gagner H.H., Gladstone, N. J., Sells Rat-Snap. He Says:**

"I sell and use RAT-SNAP. Like to look any man in the face and tell it's the best. It's good." People like RAT-SNAP, because it "does" kill rats. Petrifies carcass—leaves no smell. Comes in cakes—no mixing to do. Cats or dogs won't touch it. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by

**LONG BRADSHAW & COMPANY,**  
Roxboro, N. C.

**LAND SALE.**

By virtue of two trusts executed to me by Alex Sanford, duly registered in Person County, in books 23, page 393 and 2 page 352. I will on the

**30TH DAY OF MAY** at 12 o'clock (1922), sell on the premises for cash all that certain tract of land, lying in Holloway township, Person County, N. C., adjoining the lands of W. A. Tuck on the North Mrs. Susie Neal on the East; W. N. Haskins on the west; and J. J. Thaxton on the South; containing 46 1-2 acres more or less. See deed from John F. Woody to said Alex Sanford. This April 25th 1922.

H. W. Ashby, trustee.  
T. C. Brooks, Attorney.

Did you ever hear of so many cy clones? A storm policy will cost you but a trifle. See SATTERFIELD. Do It Now.

**PROGRESS MADE IN AVIATION**

Records Show That the United States is More Than Holding Its Own in Aerial Travel.

During the year 1921 the use of aircraft for civilian transportation increased 20 per cent over the previous year, according to a report forwarded to the Department of Commerce by the Aeronautical Clubber of Commerce of America.

The reports show that throughout the country 1,200 civilian airplanes were in operation during the year, and they carried approximately 275,000 passengers a total distance of 6,500,000 miles. These figures, according to the report, are based upon authenticated returns received by the aeronautical chamber from all sections of the country "and tend to prove that America is holding her own in the air, as far as individual effort and accomplishment are concerned."

Every phase of aviation is covered in the report, including the various records made during the year. Among the outstanding civilian achievements is that of the aerial mail, which "in 1921 made such a record for efficiency on the transcontinental route that it is recognized as a model for civilian aerial transport the world over," the report says. "Letters have been delivered in New York two days after casual mailing on the Pacific coast," it continues. "The service has an average of 38.82 per cent efficiency, that is, in completed trips on scheduled time since it was started in May, 1918. "The air mail has during the last year completed its wireless communication system, the 14 stations now having radio plants (three operated by the navy department and the others by the air mail service."

**LAND ADAPTED FOR REINDEER**

Northern Canada, It is Estimated, Could Support Enormous Herds of Good Food Cattle.

Canada is a roomy land, and its back region can never be used for agricultural purposes and where neither sheep nor cattle can be raised profitably, comprises about 1,500,000 square miles. If we may accept as fairly accurate the statement of Alaska reindeer men that a reindeer requires about 80 acres for grazing in the sub-Arctic and Arctic regions of North America, then Northern Canada can support between 30,000,000 and 40,000,000 animals.

Viljalmar Stefansson, the Canadian explorer, who has been trying to convert his countrymen to reindeer culture for several years and has given the subject a great deal of study, thinks that the Canadian mainland north of the so-called habitable line and the great Canadian archipelago can support 50,000,000 reindeer and musk-ox, another sub-Arctic animal which he thinks may in the near future furnish the world with an appreciable supply of good, wholesome meat.—John G. Holme in Leslie's Weekly.

**Mirror in Man's Hat.**

A man can manage somehow, to get along without a powder rag, but there are occasions when he does need a mirror and a comb for emergency use. To meet this demand, Gustav Peszernack, of Tranton, N. J., has contrived a holder for both articles which may be conveniently fastened inside of a hat. It is sewn in, being made of cloth, a rectangular piece of which is attached to the inside of the hat by snap fasteners at the corners. This makes the back of the holder; the front is provided by a second piece, of like size, secured to the first one by stitching. The two thus form a pocket. A horizontal line of stitching divides the pocket into two compartments, an upper one to receive the mirror and a lower one to hold the comb. One end of the pocket is left open to permit insertion of comb and glass. A slidable catch engaging the end tooth of the comb retains it in place, and the safety of the mirror is obtained by a flap which snap fastens over it.

**Woman in Finland.**

Woman in Finland enjoys almost equal rights with the man. In school she has, in the common instruction with the male youth, opportunity to contend with them and to acquire the same knowledge. After completing the school education, almost all vocations are open to her, and she is found in all branches of industry, but especially in business, houses, in public offices, and similar institutions. She cannot occupy the office of minister, however, and some high appointive posts. Practically, woman is the equal of man. She has the right of suffrage and she herself is eligible to all elective offices. The Finnish diet actually counts 20 female deputies among its members.—New York Tribune.

**Ambassador of the Air.**

For some time France has had a new diplomatic function, that of ambassador of the air. And for that delicate function, for which not every one is fit, a woman, Mlle. Adrienne Bolland, has been nominated. This intrepid aviatrix was the first, it will be remembered, who flew over the Cordilleras of the Andes. This feat made her famous in South America. This renown incited the French government to accredit Mlle. Bolland to the Republic of Argentina, where she will represent France in all matters concerning aviation. Mlle. Bolland has left for Buenos Ayres, equipped with all diplomatic powers.—New York Tribune.

**JONES MELTON**

The message, "The Master calls for thee," came to this beloved one April 2nd. Jones completed at the age of 34 years a righteous pilgrimage begun in early manhood, having been a constant member of the Baptist Church for a number of years. Olive Branch has lost one of its most faithful members for it was his great delight to engage in his church work, and to lend a helping hand to those in need. He was ever ready to assert his faith in and love for his Savior.

He was married to Annie Downey about 30 years ago. They lived near Red Bank, Va., for several years then moved to Kentucky and lived there 20 years. His wife being stricken with paralysis which has rendered her helpless for about nine years, he decided to move back to North Carolina to be with his people. A more devoted husband could not be found, he never tired of waiting on his companion. Although his health was failing for several months he was ever ready to do all he could for her even unto the last.

He came to my home Sunday morning before he was taken in the afternoon, he seemed as cheerful as he could be, but his soul soon took its flight to be with loved ones gone before. He leaves his wife, 2 brother, 2 sisters to mourn, his loss Mrs. J. E. and J. H. Melton, Mrs. Pattie Oakley and Miss Victoria Melton, 2 nephews and 1 niece, G. F. and S. W. Melton and Miss Corinna Hayes, besides a host of friends and relatives.

He was ready to obey the summons that called him to the beautiful shore and heavenly home. We miss him so much, for we loved him and did all we could for him until the end. He was laid to rest in the family cemetery at Mr. Brad Gentry's funeral services were conducted by his pastor, Bro. Uary. May we all meet him in Heaven where we will meet to part no more.—LULA M.

**IN MEMORY OF**

**MRS. MAGGIE KIDD.**

In sad loving remembrance of Mrs. Maggie Kidd, Moxley, N. C., who died Wednesday morning at 8 o'clock I write this of one who was so dear to all who knew her. She leaves three sister to mourn for her. She was well known to many friends everywhere she went, and was good and kind to all of her neighbors. On May 16th,

1922, God saw fit to take her to Heaven with him. She was sick only a few days and patiently and peacefully awaited the end. She was forty one years old.

We loved her but God loved her best, so let us mourn not at God's will but bow in humble submission to Him who doeth all things well, for blessed are they who die in the hands of the Lord. We miss her sweet face and kind disposition, and those kind and cheerful comforting words. She was laid to rest in the old family burying ground Thursday evening. She was always bright and cheerful with a word of comfort for all of her friends. She leaves to mourn her sad death a good, kind and devoted husband and seven sweet little boys and girls, and a host of friends and loved ones. Weep not dear loved one, but rest in the arms of Jesus in a better land we will read the meaning of our tears and there we will understand. We do not feel that she is dead but asleep in Jesus to await the resurrection morn. So sleep on dear Maggie for blessed are they who die in the Lord. Written by one who loved her.—Evelyn Peed.

**10¢**

A sweeping verdict for QUALITY

**DOES YOUR BACK ACHE?**

Its usually a sign of sick kidneys especially if the kidney action is disordered, passages scanty or too frequent. Don't wait for more serious troubles. Begin using Doan's Kidney Pills. Read this Roxboro testimony.

R. L. Laws, carpenter says: "My kidneys acted too freely and I had to get up several times at night because of their weakness. The secretions burned in passage and were highly colored. My back got to hurting right bad and when I bent it was an effort to straighten back again. Sharp twinges shot through my kidneys and morning my back was stiff and lame. I procured Doan's Kidney Pills at the Davis Drug Co., and they fixed me up in 'A-1' shape. I haven't been troubled with my kidneys in a number of years."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Laws had. Foster-Milburn Co., mfrs., Buffalo, N. Y.

**HAVE** you ever wondered why quick fortunes are never made by funeral directors and why you never hear of millionaire undertakers?

Public need for broader service and improved facilities have resulted in large investments in motor cars, scientific equipment, funeral homes and chapels. These bring about a heavy and continuous operating expense.

Another reason is that the funeral director has taken over all the tasks formerly looked after by neighbors and friends. He also performs scores of additional services which modern conditions and modern sensibilities demand.

In the funeral director's bill, the cost of this service and overhead (often a large proportion of the total cost) usually is included in the charge for better understood items. Such charges should be charged with this fact in mind.

**Prices Down**

**Caloric PIPELESS FURNACE**

Radical price reduction puts the cost of a Caloric so low that no family with a home to heat can afford to be without this modern heating plant.

At the new low prices the Caloric costs less than stoves necessary to heat the building. Costs less than a good piano. Costs less than a good home water system. Costs less than twice the price of a good washing machine. Costs less than twice the price of a phonograph.

Order a Caloric now because it is the greatest comfort and convenience you can have in your home. Because it protects the family's health and thereby the family's pocketbook. Because it pays every dollar of its cost in the fuel it saves.

Order now because prices cannot be lower—and by ordering now you will enjoy the comfort and save a good percentage of its cost this winter.

Do not delay. Winter is here in earnest. Every blizzard is an argument for Caloric comfort now. You take no risk. Our guarantee—your satisfaction or money back.

**More than a Gasoline— a Scientifically Balanced Fuel for Your Motor**

**WHEN** we introduced our improved, balanced gasoline last year the response of motorists was enthusiastic. It needed but a brief trial to become established with thousands of new friends. They have stayed with "STANDARD"

In the manufacture of this gasoline we combine the most desired properties from the crudes to give you quick starting and maximum mileage.

**When your gasoline is right—and lubrication properly cared for by Polarine—you should not find**

1. Chronic overheating
2. Valve seats pitted with carbon
3. Gummed valve stems
4. Uneven running, caused by cylinders missing
5. Contamination of the lubricating oil in the crank case
6. Necessity for frequent carburetor adjustment
7. Vile odor from the exhaust caused by incomplete combustion or wasted power
8. Spark plugs fouled.

Look out for these symptoms. "STANDARD" MOTOR GASOLINE will help you in avoiding them. Use a good oil—Polarine.
