**POLITICS TO THE FRONT.**

The political ball was started to rolling here last night when Mrs. Lindsay Patterson addressed the citizens in the court house. She was greeted by a large audience and was introduced by Mr. W. D. Merritt. Her speech was listened to by an attentive audience, many of them being of the opposite political faith and were anxious to know what was going to be the plea for the Republican party, but in this they were disappointed for the Republican candidate for Congress did not touch on politics but slightly.

Mrs. Patterson is a splendid talker, with a sweet, mellow voice and beautiful in appearance. Standing on a chair, from which she delivered her speech, under a bright electric light—as the ladies would say, beautifully gowned—with diamonds sparkling with each turn of the head she was indeed a beautiful woman. Really, her speech could hardly be termed a political speech for she did not touch upon any of the great issues. As to the tariff and the bonus she was silent in seven languages. Her reference to the League of Nations was amusing, for the audience thought from her introductory remarks on this subject that she was in sympathy with it and the audience cheered her with deafening cheers, being the loudest applause during her speech, but before concluding she turned the tables and gloried the Republican party for causing the defeat of this measure.

**BOARD OF EDUCATION MEETS IN REGULAR SESSION NEXT MONDAY.**

As a citizen what do I mean to my County?  
Every citizen of Person County ought to be proud of his county and deeply interested in all matters that tend to make his or her county a better place in which to live. We are glad that nearly all our citizens are of this type. We have a right to be proud of our citizenship. Surely Person County people rank among the best in the state. They are thrifty, kindhearted, noble, and true.  
**Person County's Greatest Need.**  
What does Person County really need most of all things? Let each who reads this think, pray and answer. Surely the answer will be school-buildings—more and better equipped school-buildings. It is a shame that our boys and girls have such poor accommodations in the way of buildings and equipment. Nearly every school is crowded beyond comfort or reason. Three other High Schools are sorely needed in the rural districts, and Roxboro is simply compelled to have a High School building if her people are to be accommodated. Let all the people of the county center their thoughts and prayers on this one thing—better buildings and better equipment for our boys and girls.  
J. A. Beam, Supt.

**CHILD RUN OVER BY AUTOMOBILE.**

Last Friday evening there came near being a serious accident on Main Street. From what we can gather it seems that the little five year old son of Mr. and Mrs. Lester Hall started to cross the street just as big car drove up, the car hit the child knocking it down. There is a difference of opinion with those who witnessed the accident, some say the front wheel ran over the body while others say it did not. However, Mrs. Hall, the mother, picked up the little fellow and carried him into Davis Drug Store where a Doctor was soon secured and it was found he was not seriously hurt. The street at this point is very narrow and one in crossing can not be too careful for even the best driver is liable to run you down, for with the street full of machines, as it usually is, crossing is dangerous.

**EARLY BUYING MEANS LOWER PRICES.**

We are anxious to sell you your Fall merchandise and are making a strong bid for it with our splendid stock and reasonable prices, but no matter where you buy, goods are lower now than they will be later. We are not trying to scare, but to inform you. The high tariff bill has been passed and is already in effect, wages have advanced in nearly all manufacturing, desirable goods are scarce and the demand is great all over the country. Prices are sure to advance, in fact the manufacturers and jobbers have already made considerable advances in both cotton and woolen goods, heavy shoes have been advanced slightly and other lines are sure to follow. Therefore we say that

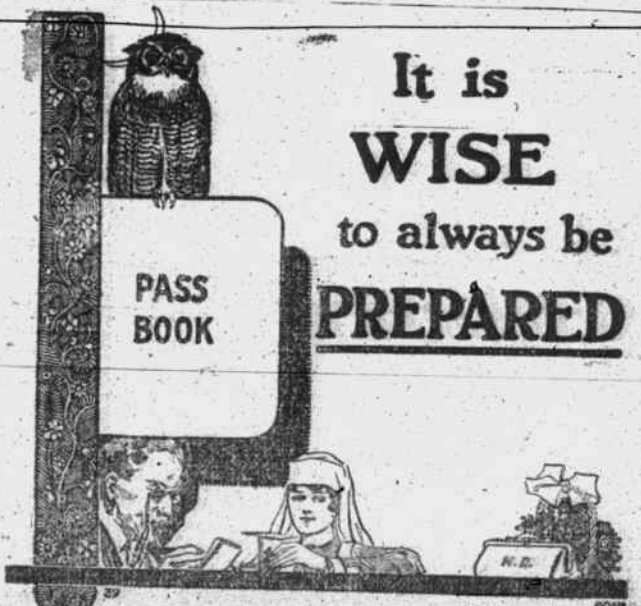

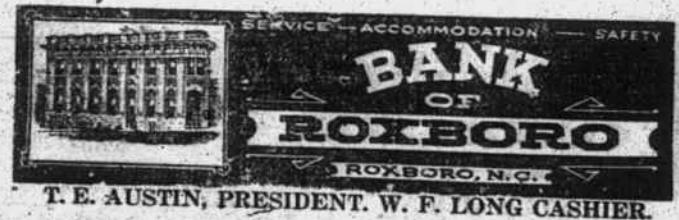

**NOW IS THE TIME TO BUY.**

We have complete stocks of all lines that we handle, all of which were bought before any advances and the benefit of this will be passed on to our customers. When present stocks are exhausted prices will be higher. Our store is fuller now than it will be again this season, the prices are at the bottom. Buy now, save money and get a full season's wear out of your purchases.
