BAD LAND.

Clay hills, filled with rocks and gullies is BAD LAND. Come and buy some real ideal farming land, no gullies, clay hills or rocks, but ideal land, smooth loamy with clay subsoil. No finer bright tobacco land in North Carolina. Come, look over our County. I could use a few renters, but prefer selling as I am failing in health. These are ideal farms well located among good folks. First comes, first served.

Prices Down CALORIC PIPELESS FURNACE

Radical price reduction puts the cost of a Caloric so low that no family with a home to heat can afford to be without this modern heating plant.

- At the new low prices the Caloric costs less than stoves necessary to heat the building.
Costs less than a good piano.
Costs less than a good home water system.
Costs less than twice the price of a good washing machine.
Costs less than twice the price of a phonograph.

Order a Caloric now because it is the greatest comfort and convenience you can have in your home. Because it protects the family's health and thereby the family's pocketbook. Because it pays every dollar of its cost in the fuel it saves.

Order now because prices cannot be lower—and by ordering now you will enjoy the comfort and save a good percentage of its cost this winter.

Do not delay. Winter is here in earnest. Every blizzard is an argument for Caloric comfort now. You take no risk. Our guarantee—your satisfaction or money back.

NATURE'S OWN METHOD OF PROTECTION

ONLY one method that gives absolute protection in burial has ever been discovered. This is the "diving bell" idea—based on a natural law that the air within an inverted vessel keeps out all water. A child proves this principle by placing an inverted glass in a pan of water.

This principle has been utilized in the Clark Grave Vault and made permanent by the use of twelve gauge Keystone copper-bearing steel which positively resists rust and corrosion and will not leak. Stone, brick and concrete vaults allow water to seep in, and act as a basin to hold it. Over a period of twenty years the Clark Grave Vault has proved this principle by completely satisfactory results in all climates and soils.

Civilization demands absolute protection

Supplying the Clark Grave Vault is in accord with our policy of rendering the most valuable service.
