

# DO IT NOW

If you are contemplating doing any building or repairing NOW IS THE TIME TO START. Building material of all kinds will be hard to get if the strikes continue much longer and prices are stiffening every week. We have a most complete stock bought before the late advances and we are in a position to save you money on your bill. Our opinion is: Prices of today will look like bargains sixty days from now. DO IT NOW.

### When Did You Have Your Picture Made?

Would that picture be satisfactory to your loved ones, should anything happen to you at this time?  
Photography is not taken with sufficient seriousness. Its main value is in recording and holding that which memory cannot retain. Give this serious thought. You owe it to your family and friends.  
Come in and let us make a picture of you that you will be proud to give your friends.
