BROOKHART DECLARES MINNESOTA ELECTION REPUBLICAN WARNING

URGES CO-OPERATION

Contents That Economic Co-operation Only Constructive Idea That Has Survived World War.

New York, July 17.—Senator Smith W. Brookhart, of Iowa, back from a ten-weeks survey of agricultural conditions in Europe today declared that the election to the senate of Magnus J. Johnson, of Minnesota, was a warning to the Republican bosses that something was about to happen in the political situation of the United States.

Senator Brookhart, a Republican, who was elected with the support of the Farmer-Labor bloc to the seat previously held by Senator William S. Kenyon, in his first public statement since his return to the United States touched on the presidential situation. Asserting that he had read only three of the speeches which President Harding has delivered on his tour, Mr. Brookhart said:

"I should think that about three more speeches like these would elect Henry Ford by about 10,000,000 majority, if the President is a candidate. It is time the Republican party was looking for a candidate who will fight for the common people and against Wall street. Some one like Judge Kenyon should be drafted for this purpose."

Elsewhere in his statement the senator declared that the Russian soviet government was second in stability only to that of the United States and that Russia soon would be making inroads upon the grain markets of the country.

"The thing that demands immediate attention is an extra session of congress is the agricultural situation," declared Senator Brookhart.

Senator Brookhart is one of the senators who parted company with their party leaders on various questions of foreign and domestic policy but who nevertheless are counted among those yielding the G. O. P., a nominal majority of five in the senate.

SCHOOL NOTES.

It is now time to have all teachers for the schools of the county selected, and in order that all may understand the law regarding same, a few of the most important are given below:

"All teachers shall be employed by the committee of the district in which they are to teach, but no election is valid in any district without the approval of the Superintendent."

"No teacher shall be employed or approved for a longer period than a year, and no teacher under eighteen years of age shall be approved."

"The Superintendent shall not approve the selection of a teacher holding a second or third grade certificate, unless it is impracticable to secure a resident teacher who holds a higher certificate."

"Any person serving in the employment of the public schools of the state shall file in the office of the Superintendent a Health Certificate from a reputable physician."

"Any school committee before employing a teacher shall submit to the Superintendent the kind and number of certificate held, when the certificate expires, experience in teaching, and the position last held."

At the last meeting of the Board of Education it was decided to call the attention of the officers, including the justices of the peace, to the law regarding the reporting within thirty days to the treasurer of the Board of Education a detailed statement of all cases tried and all fines forfeitures, and penalties.

If any committee wishes information in regard to securing teachers the superintendent will be glad to help.

DO NOT FAVOR A THIRD PAYMENT

Durham County Tobacco Growers Met Saturday At Court House.

Sixteen Durham county co-operative tobacco growers locals were represented in the regular bi-monthly meeting held Saturday morning at the office of O. H. Starnard, county farm demonstration agent.

The principal speakers of the meeting were L. W. Morrill, district organizer, and Mr. Lee, a co-operative association tobacco grader and organizer. Mr. Lee's talk was of special interest to the growers. He pointed out how much more pleasant his work as a grader had become since he became associated with the co-operative warehouses, stating that with the members of the co-operative association he had received much less complaint than from the auction house patrons.

The co-operative news letters were read and various points discussed in detail by the growers. The growers present decided to discourage the talk of a third payment. It was brought out that the demand for a third payment would hurt the management. The attending farmers declared that as yet few of them have borrowed money on their participation slips.—Durham Herald.

MRS. VANDERBILT TOURING EASTERN CAROLINA.

Raleigh, July 16.—Edith Vanderbilt, President of the North Carolina Agricultural Society, has just completed a tour of Eastern North Carolina in the interest of the State Fair. She went on the warpath for the purpose of urging closer cooperation between the county and community fairs and the State Fair. She met with a gratifying response from the large crowds that heard her the past week.

She spoke at Monroe, Wilmington, New Bern, Kinston, Goldsboro and Wilson, and visited several other points in the State. She made the trip in approved stump speaking style, traveling by automobile so that she could make better time.

Her poke bonnet hat caught the fancy of her audiences, and many a Tar Heel farmer is ready to wager that she is going to make the Fair this year the big success that she has in mind. Certainly she will if those who heard her speak can aid her in realizing her ambition, it is declared, for these farmers found that she is a real womanly woman without frills or furbelows.

Mrs. Vanderbilt in her addresses explained that the proper function of a State Fair or any fair for that matter is not the amusement of pleasure seekers but the development along proper lines of education in agriculture, industry and general knowledge.

She ventured to say that there is no other State on the Atlantic seaboard that can present so much in the way of natural resources as North Carolina and she ventured further to predict that a State Fair on a State-wide basis and financially organized would do more for North Carolina in five years than million dollars spent in any other way. Even as it is last year's fair brought favorable comments from as far north as New Hampshire and as far west as Wisconsin.

The logical conclusion of the program of the Agricultural Society, she said, is to build up an institution that will belong to the State and that will adequately represent the State.

STATE PRISON WILL GO ALONE

SIGH OF RELIEF Officialdom Not Wanting Special Session of General Assembly.

Raleigh, July 17.—There will be no special session of the general assembly called to take care of the state prison situation. It was the intention of the last legislature to put the state prison on a parity with the other institutions and require it to get its feed at the same trough—the general fund—while paying its gate receipts into that fund; but through failure to appropriate any money for the maintenance of the state prison while telling it what to do with its receipts the legislature only half did its job, required an impossibility and hence its act is inoperative and the state prison will go on as before.

This means that the penitentiary, which has hitherto scuffled for itself on self-sustaining basis, will continue to collect its own moneys and disburse them.

CO-OP PICNIC HELD AT PROVIDENCE.

That the great and honest principles involved in co-operative marketing are growing in the hearts and lives of the people of the Providence Community was plainly manifested Friday, July 13th, when the co-ops of that section celebrated the day by giving a picnic.

Not only were refreshments such as ice cream, cake and lemonade for the physical body served, but also great mental refreshment in the form of good speeches. Out there in Nature's great auditorium, beneath the spreading branches of trees, Messrs. T. P. Featherston, C. A. Hall and H. W. Winstead proved their ability to use the subject of co-operative marketing. The ladies were present in large numbers and the occasion was thoroughly enjoyed.

URGE NEGROES TO YIELD TO WHITES

Wallace Battle Suggest a Solution to Hospital Problem at Tuskegee.

Boston, Mass., July 17.—A suggestion that negroes show a spirit of magnanimity and yield to the white people of Alabama in the controversy over the negro veteran hospital at Tuskegee Institute was put forth here today in a statement by Wallace Battle president and founder of Oklana Industrial School of Oklana, Miss., who is himself a negro.

Battle would have the hospital put in charge of a white superintendent, a southerner, recommended by negro physicians, and appointed by the federal government, the other physicians and nurses to be all negroes. In case of the death or removal of the superintendent, the negro medical staff would always first recommend to the government the southern white superintendent they wished to work with.

Battle's statement points out that the controversy is of national concern and that the three elements involved the federal government, the white people of the country and negroes of the United States, have apparently all set out to yield nothing. Its wise solution, he believes, means incalculable good to all concerned.
