

MARS WILL TEACH US. HOPE FOR THE HOPELESS. ONE GOOD DEED. THE GREAT DERBY.

Sending photographs by wire is at last perfectly successful. This will mean more to the education of this earth than we can realize now. Merely gratifying curiosity or capturing criminals by telephotography on this little planet isn't the important thing.

What can be done on wires can be done through the ether that sepa-rates this earth from other planets in our family. We shall get from these planets radio portraits showing faces of their strange inhabitants and radio "hue prints" from Mars showing up how to dis canab to store the

us how to dig canals to store the waters of the oceans when frost, rain and attrition make this earth perfectly round, leaving no natural cavities to hold the water.

If the earth were absolutely round, as it will be in a few million years, the ocean would cover it about a mile deep everywhere. We must know how to prevent that. Mars, tens of millions of years older than Earth, will reach us by radio.

If that sounds preposterous rethember, what you would have said twenty years ago if you had been told that a preacher in Chicago some day would be heard in Los Angeles and Newfoundland in the same second.

Republican gentlemen that tried to "frame up" Senator Wheeler, as corrupt detectives once in a while "frame" a victim when they need a scapegoat, are in trouble. Men in Montana who thought that copper should control the State, and the men in Washington who thereful of men in Washington who thought oll should control the Nation, both dis-liked Wheeler and decided to put him in jail. They will wish before the thing is over that they hadn't

made that attempt. It wasn't a made that attempt. It wasn't a good time for it, although it has doubtless often been done before. Here's hope for the hopeless, the victims of hay fever. Mr. Coolidge, who has a "rose cold," sits for forty-five minutes in an air-tight chorine gas. He leaves saying "the trouble is gone."

Chlorine gas cures colds in men and epizootic in horses. Why should it not cure, or at least re-lieve, hay fever that fortures thou-sands for weeks every year?

When European nations decided to take what money they could get from China after the Boxer upris-ing the United States got some of the indenmity cash, and then real-ized that it was international black-mail. The money was sent back to ing, the United States got some of the indemnity cash, and then real-lized that it was international black-mail. The money was sent back to China to be used for education. China now thanks the United States Minister, saying that other nations have followed our example.

"So shines a good deed in a naughty world."

The Dutch Reformed Church of South Africa opposes prohlibiton; saying; "Wine is the gift of God which no one should desecrate." That church takes seriously the libble statement that the founder of Christianity, by a miracle turned water into wine, to make a wedding more cheerful. Some American preachers say the wine thus promore cheerfal. Some American pronchers say the wine thus pro-duced was non-alcoholic. But is it likely that wedding guests would have considered that a miracle worth while? worth while? 140

The Senate Committee of Agri-The Senate Committee of Agri-cellure rejected the Ford bid for Muscla Shoals by a vote of 10 to 6. That isn't final, but it shows how difficult it is to get anything through in Washington sometimes. It isn't quite so difficult if there is a "little black bag," with the right kind of lining in the offing.

Wall Street men will discover that Secretary Mellon who had no trouble in cutting hundreds of mil-lions off the national expenditures, will easily find a way to finance the soldiers' bonus.

Tens of thousands gather at Louisville, Kentucky, all excited, eager, speculating, betting on "the great American Derby." The win-ning horse will get \$50,000. For half the money that a good jockey earns in a week you can buy an half the money that a good jockey earns in a week you can buy an automobile that will run any ten race horses to death every day and never get thred. Speed in horses no longer means anything useful. Racing, betting, horse excitement will continue, for it takes men a long time to get over anything they have been doing for a thousand years.

TRUSTEE'S SALE OF LAND. The real estate hereinafter describod having been sold by me on May 31, 1924, after due advertisement. under the terms of two certain deeds of trust executed by M. M. Tapp and wife, on September 26, 1922, and December 15, 1922, respectively, and registered in Book 3, page 224, and
